Recommended by the Common Core State Standards for English Language Arts and Literacy as an exemplary informational text. How did compliant colonials with strong ties to Europe get the notion to become an independent nation? Perhaps the seeds of liberty were planted in the 1735 historic courtroom battle for the freedom of the press. Or maybe the French and Indian War did it, when colonists were called "Americans" for the first time by the English, and the great English army proved itself not so formidable after all. But for sure when King George III started levying some heavy handed taxes on the colonies, the break from the motherland was imminent. With such enthralling characters as George Washington, Sam Adams, Patrick Henry, Eliza Pinckney, and Alexander Hamilton throughout, From Colonies to Country is an amazing story of a nation making transformation. About the Series: Master storyteller Joy Hakim has excited millions of young minds with the great drama of American history in her award-winning series A History of US.

Recommended by the Common Core State Standards for English Language Arts and Literacy as an exemplary informational text, A History of US weaves together exciting stories that bring American history to life. Hailed by reviewers, historians, educators, and parents for its exciting, thought-provoking narrative, the books have been recognized as a break-through tool in teaching history and critical reading skills to young people. In ten books that span from Prehistory to the 21st century, young people will never think of American history as boring again.

Discusses the events leading up to the American Revolution, including how the colonies became an independent country, the effects of the French and Indian War, and influential leaders such as George Washington and Sam Adams.

Chinese Shamanic Cosmic Orbit Qigong is an advanced form of Qigong from one of China's esoteric traditions. Never before written about in the West, this form offers great cumulative benefits from regular daily practice. Master Wu describes the practice in detail, including the meaning and significance of the Chinese names for each movement, with its shamanic roots, and provides the mantra, visualization, and mudra for each as well as explaining the therapeutic benefits and talismanic aspects. The book is fully illustrated, and there is a handy reference quick guide at the end showing the entire orbit. This unique book will be essential reading for advanced students and practitioners of Qigong and anyone interested in Daoism, or the ancient wisdom traditions of China.

This book is useful for B.Com., M.Com., and MBA students of all Indian Universities. Presentation of various aspects of entrepreneurship is the most salient features of this book. Clarity of all topics has been given throughout. Description of the most difficult topics, in a simple and easy to follow style, has been the authors main attempt. At the end of the each chapter Assessment Questions are included in this book. Glossary, Bibliography, Author Index, Subject Index and Abbreviations are incorporated at the end of the book.

Auditing and Assurance for CA Integrated Professional Competence presents an integrated concepts approach that shows students the auditing process from start to finish. Communication is the self portrait of an individual presented through words . It is a vital activity of human being. Only human beings are endowed with the ability to use language for expressing their own ideas, feeling, attitudes, opinions, facts etc. And thereby, being supreme to other animals on the earth . It is said that, "Words are the cloths of thoughts, so one should never present words in clumsy manner." We sit in school and listen to teachers. We read books and magazines. We talk to friends, watch television, and communicate over the Internet. The workplace is no different. Experts tell us that 70-80 percent of our working time is spent in some kind of communication. We are reading and writing memos, listening to our coworkers, or having one-to-one conversations with our supervisors. This Book is a roadmap for basics of Communication Skills. The major thrust areas are: Concept of Communication, Methods of Communication, Types and Levels of Communication, Group Discussion, Interviews, Presentation Startagies, Reading Stratgies, Listening Skills, Business Letter Writing, Report Writing, Application Writing. Overall objective of this book is to help the reader get an overview of communication skills in nutshell form.

The book of Jonah is arguably just as jarring for us as it was for the ancients. Ninevah's repentance, Jonah's estrangement from God and the book's bracing moral conclusion all pose unsettling questions for today's readers. For biblical theologians, Jonah also raises tough questions regarding mission and religious conversion. Here, Daniel Timmer embarks on a new reading of Jonah in order to secure its ongoing relevance for biblical theology. After an examination of the book's historical backgrounds (in both Israel and Assyria), Timmer discusses the biblical text in detail, paying special attention to redemptive history and its Christocentric orientation. Timmer then explores the relationship between Israel and the nations—including the question of mission—and the nature of religious conversion and spirituality in the Old Testament. This New Studies in Biblical Theology volume concludes with an injunction for scholars and lay readers to

approach Jonah as a book written to facilitate spiritual change in the reader. Addressing key issues in biblical theology, the works comprising New Studies in Biblical Theology are creative attempts to help Christians better understand their Bibles. The NSBT series is edited by D. A. Carson, aiming to simultaneously instruct and to edify, to interact with current scholarship and to point the way ahead.

Compact living is sustainable living. High-density cities can support closer amenities, encourage reduced trip lengths and the use of public transport and therefore reduce transport energy costs and carbon emissions. High-density planning also helps to control the spread of urban suburbs into open lands, improves efficiency in urban infrastructure and services, and results in environmental improvements that support higher quality of life in cities. Encouraging, even requiring, higher density urban development is a major policy and a central principle of growth management programmes used by planners around the world. However, such density creates design challenges and problems. A collection of experts in each of the related architectural and planning areas examines these environmental and social issues, and argues that high-density cities are a sustainable solution. It will be essential reading for anyone with an interest in sustainable urban development.

The exciting sequel to Good Intentions! Alex Carlisle has enough to deal with even on quiet days. Living with an angel and a succubus is no easy feat. One has divine responsibilities she can't explain, and the other tempts him toward a decadent lifestyle he's not sure he can manage. Add to that the stresses of college and trying to hold down a job, and it's lucky Alex can even keep his head on straight. Yet the complications keep on coming. An amorous (and terrifying) werewolf won't take no for an answer. Vampires from across the country want to know what happened to their allies in Seattle. To top it all off, events in the city have drawn the attention of Federal agents who know far too much about the supernatural, and they have no patience for the chaos that Alex and his friends leave in their wake. **WARNING:** Natural Consequences contains explicit sex, explicit violence, explicit expletives, violent misuse of office equipment, nudity, perfidy, disruption of public transit services, polyamory, theft, arson, open relationships, trespassing, heterosexual foreplay, lesbian sex, depictions of beings of a divine and demonic nature bearing little resemblance to established religious or mythological canon, cell phone hacking, contempt of court, flagrant violations of civil rights, dangerous use of alcoholic drinks, infidelity, public sex, bras, panties, murder, attempted murder, blasphemy, atheist rationalizations, cannibalism, prostitution, decapitations, gossiping, defenestration, exsanguinations, tax evasion, sexual harassment, ancient Babylonian marriage customs, horse-poisoning, stalking, selfies, bribery, assault under color of authority, fantasy depictions of sorcery and witchcraft, highly sexualized Halloween costumes, assault and battery, stabbings, excessive handcuff play, mayhem, explosions, existential discussions, controversial topics of sci-fi fandom, living room sex, home invasions, mind control, conspiracy, cohabitation outside of marriage, multiple references to British science fiction literature and television, bad study habits, government surveillance, donuts, spousal abuse, interrogations, even more explicit sex, guys from Eugene, classroom misconduct, sexual misconduct, divine misconduct, general misconduct, voyeurism, reckless driving, murder of Federal agents, poor firearms safety habits, misuse of a swimming pool for gladiatorial combat, insanity, immolations, public endangerment, sexual promiscuity, consistent contempt of vampires (screw 'em, they suck), kidnapping of police officers, kidnapping of Federal agents, underage drinking, dismemberment, abuse of authority, still more explicit sex, electrocutions, destruction of private property, escape from Federal custody, barbering without a cosmetology license, World War I, betrayals, slavery, mild dom/sub play, cosplaying, a high school flashback, infidelity, reliable predictions of eternal damnation, destruction of a nice Zoot suit, nutshots, party fouls, littering, domestic violence, lengthy foreplay, abbreviated foreplay, disrespect for authority, falsification of records, prostitution, public indecency, impersonation of police officers, obstruction of justice, biting, clawing, hair-pulling, trash-talking and a general and willful disregard for traditional Western family values.

Principles of Economics, 2nd Australian edition, is an adaptation of an original work by internationally renowned economists Joseph Stiglitz and Carl Walsh. In addition to a thorough analysis of the contemporary economic landscape in Australia -- with updated statistics, figures, and political and business developments -- the second edition provides useful international comparisons with economies in Asia and Europe, as well as that of the United States. The adapting Australian author team has contextualised the content to suit the needs of Australian university students. Key introductory microeconomic and macroeconomics concepts are explained using the latest theory and research, with data relevant to the Australian economy. Throughout the text, these concepts are applied to contemporary local economic issues for businesses and individuals, such as: \* the Australian dollar \* the mining industry \* the National Broadband Network \* petrol prices \* privatisation \* the banking and finance sectors \* the automotive industry \* the carbon tax \* the ageing population \* skills shortages \* international trade. At an expanded 18 chapters for the second edition, this textbook is an ideal resource for a one-semester university course in introductory economics.

Every family has a story. Every story, eventually, must be told. For most of their lives, Julian Perel and his sister, Paula, lived in a house cast in silence, witnesses to a father struggling with a devastating secret too painful to share. Though their father took his demons to the grave, his past refuses to rest. As adults, brother and sister struggle to find their voices. A scientist governed by numbers and logic, Julian now lives an ordered life of routine and seclusion. My father gave up his language and his homeland. But he carried his sadness with him, under his skin. It was mine now. In contrast, Paula has entered the world as eagerly as Julian retracts from it. An aspiring opera singer, she is always moving, buoyant with sound. Singing was the only gift I could offer to my father. I filled the house with music. I tried to give him joy. . . . Yet both their lives begin to change on a Wednesday, miercoles, the day that sounds like miracles. Before embarking on a European opera tour, Paula asks her housekeeper, Sola, to stay at her place--and to look after Julian in the apartment above. Yet Sola, too, has a story. I want to clean myself like the window of a house, make myself clear for things to pass through. Flat and quiet. As Paula uncovers pieces of her father's early life in Budapest and the horrifying truth of his past, Julian bears witness to Sola's story--revelations that help all three learn how to both surrender and revere the shadows that have followed them for so long. The Speed of Light is a powerful debut about three unforgettable souls who overcome the tragedies of the past to reconnect with one another and the world around them. In an extraordinary accomplishment, Elizabeth Rosner has created a novel of love and redemption that proves the pain of the untold story is far greater than even the most difficult truth.

Corporate Governance in India is an authoritative discourse on the state of corporate governance in India. Beginning with an analysis of its evolution, the authors discuss the effectiveness and applicability of corporate governance mechanisms in the context of the institutional structure within which Indian companies operate. In this volume, the authors take the readers through an in-depth coverage of six important corporate governance mechanisms: 1. Ownership structure 2. Board of directors 3. Executive compensation 4. Auditor and the audit committee 5. Market for corporate control 6. Disclosure and enforcement Years of extensive research combined with contemporary data collected from various corporate governance reports from across India makes this volume a priceless ready reckoner. Along with a convenient logical structure, the book provides a comprehensive coverage of the governance mechanisms of Indian corporations, especially in light of the international research in the area.

A UGC recommended textbook for various commerce graduate programmes like B.Com, BBA, BBM and BBS. Also useful for CA, CS, ICMA, M.Com and MBA.
