A Corporate collapse typically involves the insolvency or bankruptcy of major business enterprises. A corporate scandal involves alleged or actual unethical behaviour by people acting within or on behalf of a corporation. Many recent corporate collapses and scandals have involved false or inappropriate accounting of some sort. These have resulted into the loss of confidence by Investors in Companies as well as management. To be able to restore the confidence of investors as well as the general public in corporations as well as the Audit Profession, regulatory bodies across the world such as INTERNATIONAL FEDERATION OF ACCOUNTANTS (IFAC), ASSOCIATION OF CERTIFIED CHARTERED ACCOUNTANTS (ACCA- UK) and the INSTITUTE OF CHARTERED ACCOUNTANTS - GHANA (ICA-GH) are determined to train Professional Chartered Accountants who will perform their work with professional judgement and scepticism. It is in light of this that this subject ADVANCED AUDIT AND ASSURANCE is critical to the professional accountant. However, the studying and preparation for the examination by most students and the pass rate are continuously poor due the inadequate and inappropriate study materials and lecturers availability. To address this, the Author of this book has spent ample time in research from various world-class lecturers from institutions such as London School of Business and Finance (LSBF), Accounting Practice Centre (A.P.C), among others and from other professional materials on the subject, and has written this book not to add to the already existing books but to bridge the gap between Studying the subject in class, writing the examination and practicing the profession in Corporate Organisations. With this book in your hand, three things can be assured: STUDY, UNDERSTAND & EXCEL. You will become a Professional Chartered Accountant with in-depth knowledge and understanding.

The examining team reviewed P7 Study Text covers all the relevant ACCA P7 Syllabus topics. It explores all the main professional and regulatory aspects of audit and assurance engagements, ethics and practice management, the audit and considers current issues and developments. This User's Guide is intended to support the design, implementation, analysis, interpretation, and quality evaluation of registries created to increase understanding of patient outcomes. For the purposes of this guide, a patient registry is an organized system that uses observational study methods to collect uniform data (clinical and other) to evaluate specified outcomes for a population defined by a particular disease, condition, or exposure, and that serves one or more predetermined scientific, clinical, or policy purposes. A registry database is a file (or files) derived from the registry. Although registries can serve many purposes, this guide focuses on registries created for one or more of the following purposes: to describe the natural history of disease, to determine clinical effectiveness or cost-effectiveness of health care products and services, to measure or monitor safety and harm, and/or to measure quality of care. Registries are classified according to how their populations are defined. For example, product registries include patients who have been exposed to biopharmaceutical products or medical devices. Health services registries consist of patients who have had a common procedure, clinical encounter, or hospitalization. Disease or condition registries are defined by patients having the same diagnosis, such as cystic fibrosis or heart failure. The User's Guide was created by researchers affiliated with AHRQ's Effective Health Care Program, particularly those who participated in AHRQ's DEcIDE (Developing Evidence to Inform Decisions About Effectiveness) program. Chapters were subject to multiple internal and external independent reviews. The examiner-reviewed P7 Study Text includes everything you need for this paper, including detailed guidance on the exam. The question bank includes questions in the style of the P7 paper, and each chapter contains useful exam focus points and chapter roundups. The Study Text provides an excellent source of the main professional and regulatory aspects of audit and assurance engagements, focusing on ethics and regulation and practice management, before going through the audit and assurance engagement process, and ending with a consideration of current issues and developments.
