Christians often focus on the attacks that are being waged from outside their churches, while things that happen within the body of Christ that can damage our churches are forgotten. You have heard the expression, "The best way to destroy a country is from within." This same principle also applies to the church. In *Danger Zone: Falling from Within*, author and evangelist Casey Johnson discusses the subtle but dangerous trends that harm the church. He issues a wakeup call for Christians to open their eyes and notice the subtle dangers within the Church. Johnson considers five areas of danger: changing the character of God, reducing the depth of preaching, minimizing the Gospel, choosing the wrong church leaders, and stealing the Great Commission. If there ever was a time for the church to rise up, it is now. Christians cannot become so self-centered that they try to make every part of church about themselves. If the local church continues to practice many of these dangers, it can slowly become a place where we worship ourselves instead of God. "You can only lead in the direction you are going." -Hunter Johnson
