It captures the wild spirit of an unflinching American writer."—Publishers Weekly (starred review) In 2010, Ted Geltner drove to Gainesville, Florida, to pay a visit to

Harry Crews and ask the legendary author if he would be willing to be the subject of a literary biography. His health rapidly deteriorating, Crews told Geltner he was on board and would even sit for interviews and tell his stories one last time. "Ask me anything you want, bud," Crews said. "But you'd better do it quick." The result is *Blood, Bone, and Marrow*, the first full-length biography of one of the most unlikely figures in twentieth-century American literature, a writer who emerged from a dirt-poor South Georgia tenant farm and went on to create a singularly unique voice of fiction. With books such as *Scar Lover*, *Body*, and *Naked in Garden Hills*, Crews opened a new window into southern life, focusing his lens on the poor and disenfranchised, the people who skinned the hogs and tended the fields, the "grits," as Crews affectionately called his characters and himself. He lived by a code of his own design, flouting authority and baring his soul, and the stories of his whiskey-and-blood-soaked lifestyle created a myth to match any of his fictional creations. His outlaw life, his distinctive voice and the context in which he lived combine to form the elements of a singularly compelling narrative about an underappreciated literary treasure. "Harry Crews led a big, strange, sad and somehow very American life. It is well told here."—The New York Times

Tinderbox tells the exclusive, explosive, uninhibited true story of HBO and how it burst onto the American scene and screen to detonate a revolution and transform our relationship with television forever.

The Sopranos, Game of Thrones, Sex and the City, The Wire, Succession...HBO has long been the home of epic shows, as well as the source for brilliant new movies, news-making documentaries, and controversial sports journalism. By thinking big, trashing tired formulas, and killing off cliches long

past their primes, HBO shook off the shackles of convention and led the way to a bolder world of content, opening the door to all that was new, original, and worthy of our attention. In *Tinderbox*, award-winning journalist James Andrew Miller uncovers a bottomless trove of secrets and surprises, revealing new conflicts, insights, and analysis. As he did to great acclaim with *SNL in Live from New York*; with ESPN in *Those Guys Have All the Fun*; and with talent agency CAA in *Powerhouse*, Miller continues his record of extraordinary access to the most important voices, this time speaking with talents ranging from Abrams (J. J.) to Zendaya, as well as every single living president of HBO—and hundreds of other major players. Over the course of more than 750 interviews with key sources, Miller reveals how fraught HBO's journey has been, capturing the drama and the comedy off-camera and inside boardrooms as HBO created and mobilized a daring new content universe, and, in doing so, reshaped storytelling and upended our entertainment lives forever.

While most of the examples are focused on three computer architectures that are widely used today, there are also many side comments about interesting and quirky computer architectures of the past. I can tell from these war stories that the author really has been there

himself and survived to tell the tale." -Guy Steele
