The gripping true story of Angelina Jolie, from #1 New York Times bestselling biographer Andrew Morton. "I like to collect knives," says Angelina Jolie, "but I also collect first edition books." At first glance, she might seem to be someone without any secrets, talking openly about her love life, sexual preferences, drug use, cutting, and tattoos--and why she kissed her brother on the lips in public. And yet mysteries remain: What was really going on in her brief, impulsive marriages to Jonny Lee Miller and Billy Bob Thornton, and what was going on in her partnership with Brad Pitt? What's behind the oft-reported feud with her father, the Oscar-winning actor Jon Voight? What drove her to become a mother of six children in six years? And—perhaps most puzzling of all—what about the other side of Angelina: How did this talented but troubled young actress, barely 35 years old, become a respected Goodwill Ambassador for the United Nations as well as the "most powerful celebrity in the world" (unseating Oprah Winfrey) on Forbes' 2009 Celebrity 100 list? The answers that Andrew Morton has uncovered are astonishing, taking us deep inside Angelina's world to show us what shaped her as a child, as an actress, and as a woman struggling to overcome personal demons that have never before been revealed. In this spellbinding biography, Andrew Morton draws upon far-reaching original interviews and research, accompanied by exclusive private photographs, to show us the true story behind both the wild excesses of Angelina's youth and her remarkable work with children and victims of poverty and disaster today.

Fueled by media reports of gender bias in the schools, the debate over single sex education has been recently renewed. "Voices of Hope" asks for a reconsideration of the framing of that debate. For whom is single sex education better? For the attainment of which goals? What do girls gain by being schooled with male peers? What is lost? In this longitudinal study of more than fifty high school girls at four New England independent schools, Carole B. Shmurak follows their development from ninth grade through the first year of college. Case studies capture the girls' own voices as they describe their hopes for their futures and the events that subsequently affect those futures.

Physicalism—the thesis that everything there is in the world, including our minds, is constituted by basic physical entities—has dominated the philosophy of mind during the last few decades. But although the conceptual foundations of the physicalist agenda—including a proper explication of notions such as 'causation', 'determination', 'realization' or even 'physicalism' itself—must be settled before more specific problems (e.g. the problems of mental causation and human agency) can be satisfactorily addressed, a comprehensive philosophical reflection on the relationships between the various key concepts of the debate on physicalism is yet missing. This book presents a range of essays on the conceptual foundations of physicalism, mental causation and human agency, written by established and leading authors in the field.

The past comes back to haunt black ops specialist Sean Dillon and his colleagues in this New York Times bestselling novel of terrorism, revenge, and a very old nemesis... On a dark summer night, two Chechen mercenaries emerge from the waters off Nantucket to kill a high-value target, the former President of the United States. Unfortunately for them, the president has guests that night, including Sean Dillon and his colleague, Afghan war hero Captain Sara Gideon. The Chechens do not survive the night, but Dillon is curious about how they even got on the island. What he discovers sends a chill through his bones—a name from Dillon's distant past. If this man is working with the terrorists now, the assassination attempt is only the beginning—and next time, the results may be much, much different.

A working guide to the proper methods of interacting with the full Vodou pantheon • Includes the myths, cultural heritage, and ancestral lineage of the lwa and how to honor and serve them • Provides an introduction and guide that is especially useful for the solitary practitioner • Discusses the relationship between Vodou, Haitian culture, and Catholicism In The Haitian Vodou Handbook, Kenaz Filan, an initiate of the Société la Belle Venus, presents a working guide to the proper methods of interacting with the full Vodou pantheon, explaining how to build respectful relationships with the lwa, the spirits honored in Haitian Vodou, and how to transform the fear that often surrounds the Vodou religion. Until recently, the Haitian practice of Vodou was often identified with devil worship, dark curses, and superstition. Some saw the saint images and the Catholic influences and wrote Vodou off as a "Christian aberration." Others were appalled by the animal sacrifices and the fact that the Houngans and Mambos charge money for their services. Those who sought Vodou because they believed it could harness "evil" forces were disappointed when their efforts to gain fame, fortune, or romance failed and so abandoned their "voodoo fetishes." Those who managed to get the attention of the lwa, often received cosmic retaliation for treating the spirits as attack dogs or genies, which only further cemented Vodou's stereotype as "dangerous." Filan offers extensive background information on the featured lwa, including their mythology and ancestral lineage, as well as specific instructions on how to honor and interact fruitfully with those that make themselves accessible. This advice will be especially useful for the solitary practitioner who doesn't have the personal guidance of a société available. Filan emphasizes the importance of having a quickened mind that can read the lwa's desires intuitively in order to avoid establishing dogma-based relationships. This working guide to successful interaction with the full Vodou pantheon also presents the role of Vodou in Haitian culture and explores the symbiotic relationship Vodou has maintained with Catholicism.

A bold manifesto by two business leaders, A Billion Bootstraps shows why microcredit is the world's most powerful poverty-fighting movement—and an unbeatable investment for your charitable donations. A Billion Bootstraps unearths the roots of the microcredit revolution, revealing how the pioneering work of people such as Dr. Muhammad Yunus—winner of the 2006 Nobel Peace Prize—is giving hope to billions.

Philanthropist and self-made millionaire Phil Smith and microcredit expert and consultant Eric Thurman provide a riveting narrative that explores how these small loans, arranged by "barefoot bankers," enable impoverished people to start small businesses, support their families, and improve local economies. By paying back their loans instead of simply accepting handouts, men and women around the world are continually giving others the same opportunity to change their futures. Smith and Thurman also examine why traditional charity programs, while providing short-term relief, often perpetuate the problems they are trying to alleviate, and how applying investment principles to philanthropy is the key to reversing poverty permanently. A Billion Bootstraps explains how ordinary people can accelerate the microcredit movement by investing charitable donations in specific programs and then leveraging those contributions so the net cost to lift one person out

of poverty is remarkably low. You'll discover how to get more for your money by donating with the mind-set of an investor and calculating measurable returns—returns that will change lives and societies forever.

Have you ever pondered the fascinating numeric precision woven throughout the Word of God? * 666 pertains to Antichrist. In this fascinating reference, the late Dr. Ed Vallowe examines the significance of every number mentioned in the Bible.

Vitalism is understood as impacting the history of the life sciences, medicine and philosophy, representing an epistemological challenge to the dominance of mechanism over the last 200 years, and partly revived with organicism in early theoretical biology. The contributions in this volume portray the history of vitalism from the end of the Enlightenment to the modern day, suggesting some reassessment of what it means both historically and conceptually. As such it includes a wide range of material, employing both historical and philosophical methodologies, and it is divided fairly evenly between 19th and 20th century historical treatments and more contemporary analysis. This volume presents a significant contribution to the current literature in the history and philosophy of science and the history of medicine.

"And, behold, I send the promise of my Father upon you:" To obtain the "power," the commandment given to us by Jesus: "Tarry ye in the city of Jerusalem (your present city) until ye be endued with power from on high" (Luke 24:49) must be obeyed. Many Christians claim the experience of Acts 2:4, but they have not attained the experience provided for in Luke 24:49. The progress so far is fine, but the deceiver still has many of us lulled to sleep, deluded, and self-satisfied, far from the goal Jesus intended for us to reach. I once owned an airplane, but owning an airplane and getting the motor going so it will take off with its own power are two different things. If you have the Holy Spirit, He still may not have sufficient sway in your life for you to have the advanced experience of power and the gifts of the Spirit. Many do not seek God far enough, and in quite the right manner to allow the Holy Spirit to exert His power, even though He has been received. Every evidence points to the fact that the early church and apostles

put into practice what the church has failed to do today. Therefore, they had an experience that overshadows ours. Every single new testament church was founded in fasting and prayer. Acts 14:23. After Jesus said, "I send the promise of the Father upon you" He also told them, "Tarry . . . until ye be endued with power." Where there is a lack of perfection and refinement among God's people, as there is today, this power and the gifts of the Holy Spirit cannot very well be received by prayer alone. (If they can be received in this manner, I ask, where are they? Even in the days of the apostles, they too, found it necessary at times to employ this method to arrest the flesh and become refined in order to receive this power. They were in a state of perfection that far exceeded ours today. We believe many put into practice the prophet's-length fast and obtained the power and gifts. Without following their example and deeds, we are without their mighty experiences. Consecrated fasting acts as a refining fire to the saint of God, and enables him to become purified and cleansed to such an extent he can obtain the power and the gifts of the Spirit. It actually requires a further process of purification and sanctified living to obtain and retain the gifts of the Spirit than otherwise. The best means of reaching that goal is to do as Paul asked us to do, follow him "in fastings often." This volume endeavors to take what has generally been overlooked, and reveal, perhaps for the first time in detailed form, the secret of the early church. It is made so simple and easy of accomplishment that anyone can have an experience as dynamic as those of any of the apostles and followers of Jesus Christ.

These days, development inspires scant trust in the West. For critics who condemn centralized efforts to plan African societies as latter day imperialism, such plans too closely reflect their roots in colonial rule and neoliberal economics. But proponents of this pessimistic view often ignore how significant this concept has become for Africans themselves. In Bewitching Development, James Howard Smith presents a close ethnographic account of how people in the Taita Hills of Kenya have appropriated and made sense of development thought and practice, focusing on the complex ways that development connects with changing understandings of witchcraft. Similar to magic, development's promise of a better world elicits both hope and suspicion from Wataita. Smith shows that the unforeseen changes wrought by development—greater wealth for some, dashed hopes for many more—foster moral debates that Taita people express in occult terms. By carefully chronicling the beliefs and actions of this diverse community—from frustrated youths to nostalgic seniors, duplicitous preachers to thought-provoking witch doctors—Bewitching Development vividly depicts the social life of formerly foreign ideas and practices in postcolonial Africa.

A "funny and fascinating" cultural history about one of our favorite pastimes: eating (The Village Voice). This is a delightful and intelligent look at the food we eat, with a cornucopia of incredible details about the ways we do it. Presented like a meal, each chapter of *Since Eve Ate Apples Much Depends on Dinner* represents a different course or garnish, which Margaret Visser handpicks from the most ordinary American dinner: among them corn on the cob with butter and salt, roast chicken with rice, salad dressed in lemon juice and olive oil, and ice cream. Visser tells the story behind each of these foods and in the course of her inquiries reveals some unexpected treats: the history of Corn Flakes; the secret behind the more dissatisfactory California olives (they're picked green, chemically blackened, and sterilized); and the fact that, in Africa, citrus fruits are eaten whole, rind and all. For food lovers of all kinds, unexpectedly entertaining book is a treasure of information from the author of the New York Times Notable Book *The Rituals of Dinner*. "Rich in surprising facts, unexpected connections, and a well-documented outrage at what modern technology and agribusiness have done to purity and quality . . . A remarkable amount of information [presented] seamlessly and entertainingly." —Library Journal
