It has, improbably, been called uncommonly lucid, even riveting by The New York Times, and it was a finalist for the 2004 National Book Awards nonfiction honor. It is a literally chilling read, especially in its minute-by-minute description of the events of the morning of 9/11 inside the Twin Towers. It is The 9/11 Commission Report, which was, before its publication, perhaps one of the most anticipated government reports of all time, and has been since an unlikely bestseller. The official statement by the National Commission on Terrorist Attacks Upon the United States—which was instituted in late 2002 and chaired by former New Jersey Governor Thomas Kean—it details what went wrong on that day (such as intelligence failures), what went right (the heroic response of emergency services and self-organizing civilians), and how to avert similar future attacks. Highlighting evidence from the day, from airport surveillance footage of the terrorists to phone calls from the doomed flights, and offering details that have otherwise gone unheard, this is an astonishing firsthand document of contemporary history. While controversial in parts—it has been criticized for failing to include testimony from key individuals, and it completely omits any mention of the mysterious collapse of WTC 7—it is nevertheless an essential record of one of the most

Final report of the National Commission on Terrorist Attacks upon the United States.

"The objective of this report is to identify and establish a roadmap on how to do that, and lay the groundwork for transforming how this Nation- from every level of government to the private sector to individual citizens and communities - pursues a real and lasting vision of preparedness. To get there will require significant change to the status quo, to include adjustments to policy, structure, and mindset"--P. 2.

Manhattan's Ladder Co. 16 to volunteer in the rescue efforts. In the weeks that followed, Smith was present on the front lines, attending to the wounded, sifting through the wreckage, and mourning with New York's devastated fire and police departments. This is Smith's vivid account of the rescue efforts by the fire and police departments and emergency medical teams as they rushed to face a disaster that would claim thousands of lives. Smith takes readers inside the minds and lives of the rescuers at Ground Zero as he shares stories about these heroic individuals and the effect their loss had on their families and their companies. "It is," says Smith, "the real and living history of the worst day in America since Pearl Harbor." Written with drama and urgency, *Report from Ground Zero* honors the men and women who—in America's darkest hours—redefined our understanding of courage.

Brenda Berkman was often told that she couldn't do certain things because she was a  
girl. When she grew up, she longed for a job that was challenging, different every day,  
and required physical and mental strength. In 1977 when the New York City Fire  
Department finally complied with the Civil Rights Act (from 1964) by allowing women to

take the FDNY exam, Brenda jumped at the chance. But the FDNY changed the rules of the exam so women wouldn't be able to pass it. Even a lot of men couldn't pass this new exam. So Brenda Berkman took the FDNY to court. In 1982, they finally made a fair test, and Brenda and 41 other women passed. Brenda went on to serve in the FDNY for 25 years, reaching the positions of Lieutenant and Captain, and was a first responder during the attacks on the Twin Towers on 9/11. After her retirement, Brenda founded the United Women Firefighters, an organization that helps train and prepare women to be firefighters. *Send a Girl!* is Brenda Berkman's inspiring story.

*Into the Smoke* is a work of photojournalism and traces Tom Barry's career as a firefighter--spanning parts of four decades in FDNY--along with the forty-year effort of noted freelance photographer Michael Dick. The era covered in this book is best known in the fire service on the east coast of the United States as the War Years, the urban decay and social unrest that started in the 1960s and persisted, continually fed by arson for profit, into the 1990s. Firefighting is a truckie blindly crawling down a smoke-filled hallway, searching for victims, hoping to find them before the fire does. It is an engine operator, calling on the last ounce of strength and pushing deeper into the apartment to extinguish the fire in the rear bedroom and beat the "Red Devil" one more time. Fellowship of the firefighter Fantasies from childhood intertwine with the terror of impending death, the pain of disfigurement, the joys of success, and the comradeship and respect of their peers. Many of the fires depicted in this book predate OSHA

This book puts a face on women in the fire service, as they share their best stories and the challenges, triumphs, joys and sorrows of being a firefighter, on the line in service to their communities.

In 1919, when Wesley Williams became a New York City firefighter, he stepped into a world that was 100% white and predominantly Irish. As far as this city knew, black men in the Fire Department of New York (FDNY) tended horses. Nearly a century later, many things in the FDNY had changed—but not the scarcity of blacks. New York had about 300 black firefighters—roughly 3 percent of the 11,000 New York firefighters in a city of two million African Americans. That made the FDNY a true aberration compared to all the other uniformed departments, like the NYPD. Decades earlier, women and blacks had sued over its hiring practices and won. But the FDNY never took permanent steps to eradicate the inequities, which led to a courtroom show-down between New York City's billionaire Mayor, Mike Bloomberg, and a determined group of black activist firefighters. It was not until 2014 that the city settled the \$98 million lawsuit. At the center of this book are stories of courage—about firefighters risking their lives in the line

of duty but also risking their livelihood by battling an unjust system. Among them: FDNY Captain Paul Washington, a second generation black firefighter, who spent his multi-decade career fighting to get minorities on the job. He faced an insular culture made up of relatives who never saw their own inclusion as favoritism. Based on author Ginger Adams Otis' years of on the ground reporting, *Firefight* is an exciting blend of the high-octane energy of firefighting and critical Civil Rights history.

This book identifies the key knowledge, skills and abilities required for success in the assessment center promotional process. Assessment centers are widely used by fire departments throughout the country. Unfortunately, many candidates fail to prepare for the test by failing to prepare for the position they seek. Whether aspiring to be a Lieutenant, Captain, Battalion Chief or above, this book gives the reader the tools to establish a personal plan for success in the test and in the position. This book is written in a humorous, matter-of-fact style that makes it easy to understand and retain. The reader is taught to truly prepare for the position and make the mental paradigm shift from test candidate to incumbent officer, which is a very unique and effective method. The book provides the reader with the tools needed to create his/her own plan for success. A personal self-assessment helps the aspiring officer evaluate his/her current status and leadership style. This new IFSTA manual details the training required of Company Officers according to NFPA® 1021, Standard for Fire Officer Professional Qualifications, 2014 Edition. The manual is divided into two sections to make a clear distinction between the information needed for Fire Officer Level I and Fire Officer Level II. Both print and eBook formats are available. There is no shortage of issues that a company officer might face in the everyday operation of a fire company or unit. This manual addresses the wide range of topics and issues encountered by a company officer, from leadership and supervision to health and safety issues. Great attention was given to focus on the job performance requirements of NFPA® 1021. The fifth edition of Fire and Emergency Services Company Officer builds on the previous edition of the manual while presenting the material in a more concise manner to make it easier for students to read and instructors to teach. By merging related topics, the number of chapters was reduced from

Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.
