-No one is immune to death. And no one who reads this will be immune to the charm - and power - of Colin Bird's wise and wildly original -how-to- for those who find themselves face-to-face with the great inevitable, DEATH: WHAT NOT TO SAY. Think Paulo Coelho, if Coelho ever had to sleep in his car, or make his living as a Nursing Home Chaplain. Colin Bird's brand of street-level pragmatism on matters of compassion and mortality is as massively refreshing as it is on-the-ground useful for anyone trying to be there for suffering friends and loved ones. They should pass this book out in hospitals and funeral homes, or stick in hotel nightstands instead of bibles. It's a lot more useful - and a much better read. DEATH: WHAT NOT TO SAY is a fearless, heartfelt, and utterly invaluable handbook for anyone who isn't dead, but knows a few people who are - or are about to be.- -Jerry Stahl, Screenwriter and LA Times bestselling author: I, Fatty; Permanent Midnight -Colin Bird serves up his own brand of commentary in DEATH: What Not To Say. Supremely witty yet cuttingly honest, a richly worded yarn from a man that's seen the losing side of life and ran from

it. Couldn't put it down.- -Dean Karnazes, Ultramarathoner and New York Times bestselling author -As a licensed therapist for 16 years I've seen a lot of grieving souls. Grief is no respecter of persons. It touches everyone. And it's relentless. People die and we can't stop it. People grieve and we can't stop it. But stopping it isn't really the goal, loving through it is. That's the message of Colin Bird's book, -Death: What Not to Say-. There are a myriad of books on grief written by professionals. We know what to say and what not to say. We know what to expect, how to listen well, and why honoring someone's grief is so delicate and crucial. We've had lots of practice. But approaching a Griever well is just not easily taught. We professionals were beginners once. True proficiency has come from trial and error. And honestly, grief filling up my living room is different from grief sitting in my office... so very different. Not because of the grief, but the relationship between me and the Griever. That's one of the reasons I love this book. Written in the style of an artist, -Death: What Not to Say- is a conversation with a man who has experienced pain, excruciating, life-altering, soul-searching pain. Not just his, but others'. He's walked his own grief journey and accompanied others on theirs. Filled with stories that raise your ire, melt your heart, and convict you to the core, Colin's words are raw, real and refreshing. Hopefully, readers will never look at a Grieving person the same. And if they follow these basic steps, they will truly approach with confidence.- -Carrie P Bussmann, LCPC Licensed Clinical Professional Counselor; Owner/Director Truth in Love Counseling, Normal IL -A wake up call intent on forcing

the -helpers- to grow up. This work is something long overdue. PAY ATTENTION to the wisdom found in this bright young genius. Take notes. Trust me on this... THERE WILL BE A TEST.- -Geoff Thurman, DOVE Award-winning Singer/Songwriter, Pastor, Counselor -What you get is an unexpected, rich and fun (yes, you read that right) celebration of life. It seems that Colin Bird was bathed into the kind of holy water that makes people natural healers. The kind who knows that deepest truth, but doesn't preach it, he shares it.- -Simone Bartesaghi, Professor UCLA, Director, Writer, Author of The Director's Six Senses

An authoritative and entertaining exploration of Australia's distinctive birds and their unheralded role in global evolution Renowned for its gallery of unusual mammals, Australia is also a land of extraordinary birds. But unlike the mammals, the birds of Australia flew beyond the continent's boundaries and around the globe many millions of years ago. This eye-opening book tells the dynamic but little-known story of how Australia provided the world with songbirds

and parrots, among other bird groups, why Australian birds wield surprising ecological power, how Australia became a major evolutionary center, and why scientific biases have hindered recognition of these discoveries. From violent, swooping magpies to tool-making cockatoos, Australia's birds are strikingly different from birds of other lands—often more intelligent and aggressive, often larger and longer-lived. Tim Low, a renowned biologist with a rare storytelling gift, here presents the amazing evolutionary history of Australia's birds. The story of the birds, it turns out, is inseparable from the story of the continent itself and also the people who inhabit it.

My name is Alex Mills and I have a superpower. Don't be jealous, it sucks. I can't control it. My mind is a mutinous SOB that takes over when I go to sleep. I'm just a girl trying to get some shut eye while it decides to throw a rager that can land me just about anywhere in the world. The base of the Eiffel Tower. The shore on the coast of Ireland. The third baseline at Wrigley Field. Sounds exciting and fun right? Wrong. My not so superpower is unpredictable, uncontrollable and annoying as hell. It's also how I met Nick. Every cloud has a silver lining. Nick is mine. Nick is extraordinary as well. He can't feel fear. Never has, never will. It's worked out for him enlisting in the military, but where it's not helpful is with his social skills. Nick is cold, distant and apathetic. He's also my hero. And if he's to be believed, I'm his. I first met him when he died and that

wasn't even the weirdest moment of our relationship. Neither is this moment here and now, trapped together in an island prison on the Behring Sea. It's a long, strange story between his death and this prison. One full of sheep, docks, Jabberwocks and a very special stone. I could tell it to you if you'd like to hear it. I've got time...

I'm falling. I've done that a lot this year. I've fallen for lies. Fallen in love. Now I'm falling through the water in the lake like I've done so often before, but this time is different.

This time is going to be my last time. For everything. My last breath is rising in a rush of bubbles that hurry to the surface like champagne escaping a bottle. My last sight is the sun watching watery overhead. My last touch is the liquid running through my fingers like silk. Like time. Like every ethereal and untouchable thing in the world. Like laughter. And my last thought... my last thought is of him. Of Kyle. I'll miss him. I hope he'll miss me. It's a strange hope to have for the guy who just murdered me. They say that when you die, your brain stays active for seven minutes. Well, my name is Grace Murray, and these are my minutes...

contemplation and ability to heighten self-awareness and self-discovery. His is a holistic approach, and in the words of one reviewer: "his mysticism cuts across all times and peoples and is truly a universal invitation." The Song of the Bird uses the familiar yet enduring medium of the story to illustrate profound realities that bring us in touch with the problems and concerns of daily life, as well as with our common spiritual quest. The aim is to develop the art of tasting and feeling the message of each story to the point that we are transformed. "Let the story speak to your heart, not to your brain," the author directs. "This may make something of a mystic out of you." Enhanced by lovely ink drawings, this is indeed a volume to treasure, to share, and to read many times over, for it is everyone's best companion on the road to spiritual growth.

As initially planned in 1939 by Owen J. Gromme, then curator of birds at the Milwaukee Public Museum, Wisconsin Birdlife would not only describe and document every species of bird known to have visited this state, but would also depict each species with his own original paintings. During the next two decades, Gromme concentrated primarily on the latter, resulting in the separate publication in 1963 of his now classic Birds of Wisconsin. Work on the present volume was assumed in the late 1960s by Samuel D. Robbins, whose labors of more than 20 years give us a veritable encyclopedia of the state's ornithological knowledge. A complement and supplement to field guides, picture books, and recordings, the book is designed to enlarge the reader's understanding and appreciation of statewide history, abundance, and habitat preference of every species reliably recorded in Wisconsin. The volume opens with a summary of the ornithological history of the state and an exposition of its ecological setting. The heart of Wisconsin Birdlife ensues: detailed accounts of nearly 400 species, with information on status (population and distribution), habitat, migration dates, breeding data, and wintering presence, followed by extensive discussion and commentary. Dr. James Hall Zimmerman, Senior Lecturer in Landscape Architecture at the University of Wisconsin-Madison, provides a special discussion of bird habitats for the book. In addition, Wisconsin Birdlife features a comprehensive status and seasonal

distribution chart, a detailed habitat preference chart, and an exhaustive bibliography. The ultimate resource, Wisconsin Birdlife belongs within easy reach of everyone from armchair appreciators and casual birdwatchers to ardent birders and professional ornithologists.
