

## Fiat Spider Buyers Guide

Expert practical advice from an experienced race engine builder on how to build a high-performance version of Ford's naturally aspirated 4-cylinder 1600, 1800 & 2000cc Pinto engine which has been used in Ford's most popular cars (Escort, Capri, Cortina & Sierra - Ford/Mercury Capri, Pinto, Bobcat in USA) over many years. Whether the reader wants a fast road car or to go racing, Des explains, without using technical jargon, just how to build a reliable high-power engine using as many stock parts as possible and without wasting money on parts and modifications that don't work. Also covers Cosworth versions of Pinto engines and fitting Cosworth heads to Pinto blocks. Does not cover 1300, E-Max 1600 or American-built 2300.

A really practical and heavily illustrated guide to the art of good preparation and achieving a paint finish to be proud of.

"Covering all aspects of nitrous oxide systems, from assessing suitability and choosing a system, through to installation and maintenance, this book presents facts, illustrated with 150 colour photographs, written in the clear Speed Pro style, and is useful for anyone considering installing a nitrous oxide system"--Publisher web site.

Ten years have passed since the original edition of this book was published, but Alfa Romeo enthusiasts everywhere are more active today than ever in preserving, modifying and racing these excellent cars. Throughout this time, the author in true Alfista fashion, never stopped looking for and trying new techniques to increase the power, overall performance and reliability of Alfas and their engines. This book is the result of much research, and also first-hand experience gained through many Alfa rear wheel drive model projects, from the 105 series to the last of the 75 models. There is a lot of completely new information regarding TwinSpark Cylinder head mods, big-brake mods, LSD adjustment procedure, electrical system improvements, plus many flow-bench diagrams, dyno plots, and much more.

Expert practical advice from an experienced race engine builder on how to build an ignition system that delivers maximum power reliably. A lot is talked about ignition systems and there is a bewildering choice of expensive aftermarket parts, which all claim to deliver more power. Des Hammill cuts through the myth and hyperbole and tells readers what really works, so that they can build an excellent system without wasting money on parts and systems that simply don't deliver. Ignition timing and advance curves for modified engines is another minefield for the inexperienced, but Des uses his expert knowledge to tell readers how to optimize the ignition timing of any high-performance engine.

No one contemplating an MGB V8 engine conversion should start the project without reading this book, which is based on the real world experience of many owners and specialists who have re-engined MGBs in the past. Avoid expensive mistakes and pitfalls and end up with a car that performs, handle and brakes superbly by following the detailed advice compiled over many years by MGB expert, Roger Williams.

These important Sports Racing cars of 1967-1977 won the 1975 and 1977 Manufacturers World Championships. The definitive record, this is also the first book to be written about the history and development of Alfa Romeo's fabulous Championship-winning Tipo 33 prototypes. Containing many previously unseen photographs and interviews with key personalities, this is a vital addition to any Alfa enthusiasts collection.

The Yamaha FS1-E is a 1970s icon. Introduced in the early 70s, it became an instant success, giving sixteen year olds their first taste of motorcycle performance and freedom, and totally overshadowing the other mopeds available at that time. Many riders had their FS1-E for only one year before progressing to larger machines. Today, nostalgia for the youthful exuberance engendered by the 'Fizzie' has resulted in many ex-owners wanting to recreate their pride and joy. Most FS1E's have not endured the test of time well, and very few good original examples exist. There are plenty of restorable machines around and this book guides the do-it-yourself restorer through the minefield of initially finding a machine to restore and the pitfalls of a first restoration. This budget paperback tells the complete history of the 'Cinderella' Porsches which have now become respected and established classics. Includes 914 and 914-6 in international motorsport and expert advice on buying and restoring. Period illustrations

acquired with the assistance of Porsche.

For the London to Sydney Marathon, team instructions included the recommendation that a firearm be carried by the crew of each car ... A small pistol which can conveniently be located under cover in the car is what we have in mind ...

Think you've seen it all? Think again! from motorised lobsters to eggs, beer bottles, weiners (sausages) and a high heeled shoe, the marketing man's imagination has shown no limitations when it comes to MarketingMobiles.

The new Vantage Aston Martin 2018 sports car was released a few weeks ago with its new sport design and beautifully sculpted exterior. The car features a sharp, low grille lined with chrome as well as a pair of headlights that are positioned far apart on the front of the vehicle. The new design helps with aerodynamics as a front splitter sends air beneath the car and directs it to the area where it is needed the most; this also allows clean air to get to the diffuser at the back of the car. Besides design, the new Vantage Aston Martin 2018 sports car has also been manufactured to produce more speed on the road, with a twin-turbocharged 4.0 litre V8 engine. The 2018 Vantage has been termed the bread and butter of the company and is the bestselling car for Aston Martin.

Modifications that work for road cars Introduces and explains the 4 aspects of performance Guides readers through alternatives, to enable good decisions. Applicable to all makes and models of car. Helps prioritise spending on modifications. Ensures your project car is one of the best. Ensures money isn't wasted on ideas that don't work.
