Few people, however, know how snow works. What makes it possible for us to slip and slide over, whether that's falling on sidewalks or skiing down a mountain? What makes it cling to branches and street signs? What qualities of snow lead to avalanches? In *A Field Guide to Snow*, veteran snow scientist Matthew Sturm answers those questions and more. Drawing on decades of study, he explains in clear and simple ways how and why snow works the way it does. The perfect companion a ski trip or a hike in the snowy woods, *A Field Guide to Snow* will give you a new appreciation for the science behind snow's beauty.

In Louisiana, every bite of food and each turn of phrase is an expression of cultural literacy. Correctly pronouncing "Tchoupitoulas" or "Atchafalaya," knowing the difference between the first Governor Long and the second one, being able to spot the artwork of Caroline Durieux, and honoring the distinction between a Creole and a Cajun roux serve not just as markers of familiarity; they represent acts of preservation. The Louisiana Field Guide: Understanding Life in the Pelican State expands on this everyday communion of history, delving into the cultural patchwork that makes the Gumbo State both thoroughly American and absolutely singular. An authoritative lineup of contributors reintroduces Louisiana through the lenses of environment, geography, history, politics, religion, culture, language, sports, literature, film, music, architecture, food, and art. Whether describing the archi-tectural details of the Ursuline Convent in the French Quarter or sharing the family history of Bourgeois' Meat Market just outside of Thibodaux, the essays in The Louisiana Field Guide present a fresh and expansive look at the enchanting and perplexing Pelican State. At once an accessible primer and a rich omnibus, this volume explores the well-known destinations and far-flung corners of Louisiana, from Cameron Parish to Congo Square, offering an enlightening companion guide for visitors and a trust-worthy reference for residents.
