Revised edition of Financial & managerial accounting by Charles T. Horngren, Walter T. Harrison Jr., and M. Suzanne Oliver, 3rd ed.

A less-expensive grayscale paperback version is available. Search for ISBN 9781680922936. Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.

Give your students a solid foundation in core accounting concepts while helping learners develop a true appreciation for why accounting is important to business and a prosperous society. Warren/Reeve/Duchac's FINANCIAL AND MANAGERIAL ACCOUNTING, 14E clearly demonstrates how accounting is much more than simply data and black and white rules. Instead,

students see how accounting provides key information used to make critical business decisions. A new chapter schema provides context for how each chapter's content fits into the big picture. The book focuses on why accounting is important and consistently reinforces connections to the big picture by connecting journal entries to the accounting equation. Fresh organization progresses from the simplest to the more complex topics with reorganized and fully integrated coverage of the new Revenue Recognition standard, reorganized coverage of adjustments, and reorganized managerial accounting chapters Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

"As our eyes are drawn upward to the skyline of great cities, it's important to remember that these impressive constructions are able to reach such heights only because their foundations are strong. In much the same way, being successful in the business world begins with fundamental courses like financial and managerial accounting. It is only when students have a firm grasp of concepts like the accounting cycle and managerial decision making that they have a base on which to stand, a strong foundation on which to grow. In this edition, as before, the Williams team has revised the text with a keen eye toward the principle of helping students establish the foundation they will need for future success in business. However, through new coverage of International Financial Reporting Standards and a revised globalization chapter, the Williams book also introduces students to larger themes and evolving concerns. This dual emphasis allows students to keep their eyes trained upward even as they become solidly grounded in accounting fundamentals"--

Widely acknowledged as the most respected reference on school accounting, this book offers clear, detailed explanations of financial accounting and reporting as they apply to school system fund structures. Whether they are new to the field or have a background in accounting, school business officials will turn to this comprehensive book again and again for information on topics such as revenue and expenditure accounting, special revenue funds, capital projects funds, trust and agency funds, internal cash control, auditing, and using accounting information to measure fiscal health. Designed as a graduate-level textbook, the book is also a valuable resource for in-service programs.

Explores computer-intensive probability and statistics for ecosystem management decision making Simulation is an accessible way to explain probability and stochastic model behavior to beginners. This book introduces probability and statistics to future and practicing ecosystem managers by providing a comprehensive treatment of these two areas. The author presents a self-contained introduction for individuals involved in monitoring, assessing, and managing ecosystems and features intuitive, simulation-based explanations of probabilistic and statistical concepts. Sport Finance, Fourth Edition With Web Resource, grounds students in the real world of financial management in sport, showing them how to apply financial concepts and appreciate the importance of finance in establishing sound sport management practices. Utilizing a modern and practical approach, the text encourages students to take a strategic organizational perspective in learning financial skills while gaining a deeper understanding of the reasoning behind the principles of sport finance. The fourth edition of Sport Finance has been revised and restructured to reflect the evolving needs of students entering the dynamic sport industry. Content updates and additions include the following: A new chapter dedicated to assets (such as players, facilities, and goodwill) and liabilities (such as player salaries and long-term debt) and how they affect a sport organization Expanded coverage of strategies to increase revenue and reduce expenses for greater profitability, enhanced with an example from a real-world athletic department New chapters about reviewing financial statements, planning, and building a financial strategy to help guide decisions to create, expand, or exit a sport business or organization Five new case studies covering a variety of sectors, sports, and countries to give students the opportunity to apply the concepts to practical scenarios To further relate the content to real situations for students, study questions about each of the case studies have been incorporated into a new student web resource. The web resource also includes an interactive simulation called "The Two Dollar Team" that directly engages students with the book's topics, including assets and liabilities, revenue and expenses, budgeting, cash management, and borrowing. Instructors will also find additional activities and a case study in the companion instructor guide, and they will receive a test package and presentation package. Sport Finance, Fourth Edition, will enable students to grasp fundamental concepts in sport finance. By analyzing business structures, financial statements, and funding options, students will not only learn basic finance but will also understand how those skills are used to build a strategy and make sound financial decisions in the world of sport.

Wild's Financial and Managerial Accounting responds to the market's request for a single book with balanced financial and managerial content (~50/50) that has a corporate approach throughout. Its innovation is reflected in its extensive use of small business examples, the integration of new technology learning tools, superior end-of-chapter material, and a highly engaging, pedagogical design.

While there is growing interest in IFRS within the US, interest outside the US has exploded. Weygandt's fourth edition of Financial Accounting: IFRS highlights the integration of more US GAAP rules, a desired feature as more foreign companies find the United States to be their largest market. The highly anticipated new edition retains each of the key features (e.g. TOC, writing style, pedagogy, robust EOC) on which users of Weygandt Financial have come to rely, while putting the focus on international companies/examples, discussing financial accounting principles and procedures within the context of IFRS, and providing EOC exercises and problems that present students with foreign currency examples instead of solely U.S. dollars.

Managerial Accounting for Managers, 4th edition by Noreen/Brewer/Garrison is based on the market-leading managerial accounting solution, Managerial Accounting, by Garrison, Noreen and Brewer. The Noreen solution presents integrated and proven solutions designed to help attain course goals of student readiness, comprehension of content, and application of key concepts in the managerial accounting course, while addressing the needs of instructors who do not wish to teach the financial accounting-oriented content that is included in the Garrison solution (no debits/credits). Of the three programs in the Garrison franchise (the Brewer solution, the Garrison solution, and the Noreen solution), the Noreen solution is the most pure management accounting content. The other two programs contain greater coverage of financial accounting topics. Managerial Accounting for Managers 4e is geared towards professors who love Garrison's market-leading managerial accounting content but prefer to approach their course by eliminating the debits and credits coverage. The Noreen solution includes the managerial accounting topics such as Relevant Costs for Decision Making, Capital Budgeting Decisions, and Segment Reporting and Decentralization, however, the job-order costing chapter has been extensively rewritten to remove all journal entries. Furthermore, the chapters dealing with process costing, the statement of cash flows, and financial statement analysis have been dropped to enable professors to focus their attention on the bedrocks of managerial accounting—planning, control, and decision making. McGraw-Hill's Connect Accounting offers a complete digital solution combines all the great features of Connect Accounting including McGraw-Hill's SmartBook, powered by LearnSmart, which is designed to help students learn faster and more efficiently, and retain more knowledge for greater success. In addition, Interactive Presentations deliver learning objectives in an interactive environment, giving students access to course-critical content anytime, anywhere. Guided Examples provide students with narrated and animated, step-by-step walkthroughs of algorithmic versions of assigned exercises. Auto-Graded Excel Simulations, assignable within Connect Accounting, allow students to practice their Excel skills—such as basic formulas and formatting—within the context of accounting. These questions feature animated, narrated Help and Show Me tutorials (when enabled), as well as automatic feedback and grading for both students and professors.
