"It took me a long time and most of the world to learn what I know about love and fate and the choices we make, but the heart of it came to me in an instant, while I was chained to a wall and being tortured." So begins this epic, mesmerizing first novel by Gregory David Roberts, set in the underworld of contemporary Bombay. Shantaram is narrated by Lin, an escaped convict with a false passport who flees maximum security prison in Australia for the teeming streets of a city where he can disappear.

Accompanied by his guide and faithful friend, Prabaker, the two enter Bombay's hidden society of beggars and gangsters, prostitutes and holy men, soldiers and actors, and Indians and exiles from other countries, who seek in this remarkable place what they cannot find elsewhere. As a hunted man without a home, family, or identity, Lin searches for love and meaning while running a clinic in one of the city's poorest slums, and serving his apprenticeship in the dark arts of the Bombay mafia. The search leads him to war, prison torture, murder, and a series of enigmatic and bloody betrayals. The keys to unlock the mysteries and intrigues that bind Lin are held by two people. The first is Khader Khan: mafia godfather, criminal-philosopher-saint, and mentor to Lin in the underworld of the Golden City. The second is Karla: elusive, dangerous, and beautiful, whose passions are driven by secrets that torment her and yet give her a terrible power. Burning slums and five-star hotels, romantic love and prison agonies, criminal

The instant New York Times bestseller that reveals the collusion between Fox News and Donald Trump—with explosive new reporting covering the election and the January 6 riot. As the nation recovers from the Trump presidency, many questions remain: Why was the COVID-19 pandemic so grossly mishandled? How did we get so politically polarized? What caused white nationalist groups to come out of the shadows, and are they here to stay? The answers lie the twisted story of the relationship between Donald Trump and Fox News. Through firsthand accounts from over 250 current and former Fox insiders, CNN anchor and chief media correspondent Brian Stelter unlocks the inner workings of Rupert Murdoch's multibillion-dollar media empire. The confessions are shocking: “We don't really believe all this stuff,” a producer says. “We just tell other people to believe it.” Stelter completes the story of the Trump years and looks toward the future of the network that made him. Hoax is a book for anyone who reads the news and wonders how we got here, and what happens next.
