Smith addresses this unique challenge and provides aspiring CIOs with encouragement, advice, and essential skills based on years of his own and other CIOs' cumulative experience -- an important effort for the profession that Smith's fellow members in the CIO Executive Council embrace and applaud." —Mark Hall, General Manager of the CIO Executive Council "Teaching students what a CIO really does has been tough. We've had to choose between anecdotal treatments based on trade press articles and integrated academic frameworks that offer little in the way of lived experiences. Greg's book fixes that. By organizing interviews with leading technology executives, trade press reports, and his own experiences as a CIO, he provides an organized and comprehensive view of the job and its important role in modern organizations." —Fred Collopy, PHD, Professor and Chair of Information Systems and Professor of Cognitive Science, Case Western Reserve University
