Existentialism was one of the leading philosophical movements of the twentieth century. Focusing on its seven leading figures, Sartre, Nietzsche, Heidegger, Kierkegaard, de Beauvoir, Merleau-Ponty and Camus, this Very Short Introduction provides a clear account of the key themes of the movement which emphasized individuality, free will, and personal responsibility in the modern world. Drawing in the movement's varied relationships with the arts, humanism, and politics, this book clarifies the philosophy and original meaning of 'existentialism' - which has tended to be obscured by misappropriation. Placing it in its historical context, Thomas Flynn also highlights how existentialism is still

This book recounts the personal and professional life of Thomas Souness Hamblin (1800-1853), Shakespearean actor and Bowery Theatre manager. Primarily responsible for the popularity of "blood and thunder" melodramas with working class audiences in New York City, Hamblin discovered, trained and promoted many young actors and, especially, actresses who later became famous in their own right. He also epitomized the "sporting man" of mid-nineteenth century life, conducting a scandalous series of affairs and visits to Manhattan brothels, which cost him his marriage to Elizabeth Blanchard Hamblin (1799-1849) and made him the brunt of moralist, religious and journalistic crusades, notably that of James Gordon Bennett's *New York Herald*. His machinations and perseverance through trying challenges, including several destructions of the Bowery Theatre by fire, extensive financial and legal complications, and the untimely deaths of several young protégées, earned him equal measures of admiration and opprobrium.
