Missy's cleanse is easy to follow and it breaks down the basics: good, clean eating. Cutting out gluten and sugar gave me more energy than I've ever felt. DO IT! —TONY HORTON, fitness expert, creator of P90X P90X creator Tony Horton, the Old Spice Man, and hundreds of others lost weight, boosted their immunity, and increased their energy levels—undeniable proof that The Clean in 14 Detox really works! Millions of people are embracing cleansing because it rids the body of accumulated slow poisons that cause a sluggish metabolism, inflammatory and digestive issues, a host of chronic diseases, and unwanted weight gain. The Clean in 14 Detox is a whole foods, vegan- and juice-based cleanse that not only flushes the body of toxins, but frees the mind of negative patterns, allowing the entire system to reset itself to a place of balance. From leading successful group and private cleanses, Melissa Costello pulls no punches: She explains that the key to kick-starting health is to eliminate the CRAP (Caffeine, Refined Sugars, Alcohol, Processed Food) and the SAP (Sabotaging Addictive Patterns). Costello encourages readers to make the commitment, teaches them how to prep their minds and kitchens, and shares practical tips to succeed through the program with minimal withdrawals or cravings. The best part of this cleanse is that it's user friendly and the participant will never feel deprived, unlike most other cleanses out there. A wide variety of delicious, unprocessed foods are allowed and there are no diet pills or chalky shakes. The cleanse features 14 days of mix-and-match meal plans and more than 75 irresistibly fresh and simple recipes, including Baja-style fajitas, chopped salad with creamy pepita dressing, coconut yam soup, oven-baked sweet potato fries, and more. The Clean in 14 Detox is a proven program that will set anyone on a course to increased immunity, a more efficient metabolism, better digestion, glowing skin, and revitalized health.

What can you do to improve your health and at the same time improve the health of our home planet? Do you want to be a healthier and more sustainable consumer? In this straightforward, easy-to-understand and entertaining book, dietitian and environmentalist Dr. Dana Ellis Hunnes outlines the actions we can all take. Many people feel overwhelmed by the scope of climate change and believe that only large, sweeping changes will make any difference. Yet the choices we make every day can have effects on climate change, the oceans, the land, and other species. This book outlines the problems we are facing, and then presents ideas or 'recipes' to empower us, to help us all make a difference. Recipe For Survival provides the guidance that you can use right now to improve your health, your family's health, and the health of the environment simultaneously.

If you are serious about weight training, you have probably experienced the "plateau phenomenon." You train harder, you consume extra protein in your diet, but you just don't get the strength and power gains that you want. For the last ten years sports nutrition has focused on what to eat. The latest research from leading sports science labs now shows that when you eat may be even more important. Nutrient Timing adds the missing dimension to sports nutrition, the dimension of time. By timing specific nutrition to your muscle's 24-hour growth cycle, you can activate your body's natural anabolic agents to increase muscle growth and gain greater muscle mass than you ever thought possible. Nutrient Timing is the biggest advance in sports nutrition in over a decade.

Kids love fast food. And the fast food industry definitely loves kids. It couldn't survive without them. Did you know that the biggest toy company in the world is McDonald's? It's true. In fact, one out of every three toys given to a child in the United States each year is from a fast food restaurant. Not only has fast food reached into the toy industry, it's moving into our schools. One out of every five public schools in the United States now serves brand name fast food. But do kids know what they're eating? Where do fast food hamburgers come from? And what makes those fries taste so good? When Eric Schlosser's best-selling book, Fast Food Nation, was published for adults in 2001, many called for his groundbreaking insight to be shared with young

people. Now Schlosser, along with co-writer Charles Wilson, has investigated the subject further, uncovering new facts children need to know. In *Chew On This*, they share with kids the fascinating and sometimes frightening truth about what lurks between those sesame seed buns, what a chicken 'nugget' really is, and how the fast food industry has been feeding off children for generations.

Abel James, the ABC star and creator of the #1 *Fat-Burning Man Show*, shares his revolutionary weight-loss program in *The Wild Diet* - now a New York Times Bestseller! Can you really lose 20 pounds in 40 days while enjoying real butter, juicy burgers, chicken parmesan, chocolate, and even cheesecake? The answer might surprise you. By focusing on simple, fresh ingredients and nutrient-dense meals, *The Wild Diet* programs your body to burn fat as its main fuel source. Eating Wild, thousands of people across the world have dropped 20, 60, or even more than 100+ pounds without hunger... and often with minimal exercise. In *The Wild Diet*, you'll find that we are not meant to starve ourselves, count calories, or avoid delicious food. We're wired to eat luxuriously and live well without getting fat. If you think that you're stuck with the genes you inherited and there's nothing you can do about it, read closely. *The Wild Diet* paints a different picture, one in which we have the power to influence our genetic expression by taking control of the quality of food we eat, the way we move, and the environment around us. We once had access to an immense variety of fresh seasonal foods from small, local sources. Now we have access to few varieties of processed foods from a massive industrial system often thousands of miles from where we live. The secret to great health simply getting back to our wild roots and enjoying real, Wild foods grown on a farm and not in a factory. By prioritizing foods found in the natural world, rich in fiber and nutrients, your body will burn fat instead of sugar for energy. When you reduce your consumption of processed grains, sugars and other simple carbohydrates in favor of healthy plants and animals, you will be shocked by how quickly you can reverse the damage of decades of poor eating. *The Wild Diet* proves that it's possible to get in best shape of your life while eating delicious foods like chicken parmesan, bacon cheeseburgers, and even chocolate pudding. If you want to know how to burn more fat by indulging in incredible meals and exercising less, it's time to treat yourself to *The Wild Diet*.

A Guide to a total body workout, diet and nutrition to lose fat, build, tone and shape muscle.

Our great-grandmothers didn't need nutrition lessons—then again, they weren't forced to wade through aisle after aisle of packaged foods touting outlandish health claims and confusing marketing jargon. Over the last few decades, we've forgotten what "real food" is—and we're left desperately seeking foods that will truly nourish our bodies. We're disillusioned with the "conventional wisdom" for good reason—it's gotten us nowhere. Achieving optimal health without calorie-counting, diet foods, or feelings of deprivation has never been easier. *Practical Paleo* explains why avoiding both processed foods and foods marketed as "healthy"—like grains, legumes, and pasteurized dairy—will improve how

The A-to-Z guide to essential vitamins, minerals, and nutrients, so you can ditch synthetic supplements and promote health naturally with nourishing foods. Vitamins and minerals are the building blocks of good health. But the heavily processed foods that are so common in today's modern diet are stripped of these nutrients, leaving many people nutrient deficient despite meeting (or exceeding) their daily calorie needs. The accepted solution is to take supplements created in a lab, but the dosage and interactions can be confusing, and supplements are loosely regulated and not always foolproof, especially since our bodies are designed to receive nutrients from natural, whole foods. Eat Your Vitamins features fifty key vitamins, minerals, and other nutrients essential to your health. You will find clear definitions of each nutrient along with the role it plays in the body, how it is best consumed and absorbed, recommended daily doses, and detailed lists of foods and natural sources that contain the vitamin along with a recipe for a nutrient-rich meal. Ditch the synthetic supplements and make the right choice about how to properly feed and fuel your body.

Here in one easy-to-understand volume are the statistical procedures and techniques the agricultural researcher needs to know in order to design, implement, analyze, and interpret the results of most experiments with crops. Designed specifically for the non-statistician, this valuable guide focuses on the practical problems of the field researcher. Throughout, it emphasizes the use of statistics as a tool of research—one that will help pinpoint research problems and select remedial measures. Whenever possible, mathematical formulations and statistical jargon are avoided. Originally published by the International Rice Research Institute, this widely respected guide has been totally updated and much expanded in this Second Edition. It now features new chapters on the analysis of multi-observation data and experiments conducted over time and space. Also included is a chapter on experiments in farmers' fields, a subject of major concern in developing countries where agricultural research is commonly conducted outside experiment stations. Statistical Procedures for Agricultural Research, Second Edition will prove equally useful to students and professional researchers in all agricultural and biological disciplines. A wealth of examples of actual experiments help readers to choose the statistical method best suited for their needs, and enable even the most complicated procedures to be easily understood and directly applied. In The 20/20 Diet, Dr. Phil McGraw identifies seven reasons other diets fail people over and over again: hunger, cravings, feeling of restriction, impracticality and expense, boredom, temptations, and disappointing results or plateaus. Then, he addresses each of these roadblocks by applying the latest research and theories that have emerged since his last best seller on the same topic, The Ultimate Weight Solution. Dr. Phil and his team have created a plan that you can start following right now and continue working for the rest of your life. In this diet, readers will start by eating only 20 key ingredients,

called the “20/20 Foods,” which theories indicate may help enhance your body’s thermogenesis and help you feel full. But that’s just the beginning. This book explains why you haven’t been able to lose the weight before, and empowers you with cognitive, behavioral, environmental, social and nutritional tools so you can finally reach your goal, and learn lifelong healthy habits to maintain those results. From an elite Special Operations physical trainer, an ingeniously simple, rapid-results, do-anywhere program for getting into amazing shape For men and women of all athletic abilities! As the demand for Special Operations military forces has grown over the last decade, elite trainer Mark Lauren has been at the front lines of preparing nearly one thousand soldiers, getting them lean and strong in record time. Now, for regular Joes and Janes, he shares the secret to his amazingly effective regimen—simple exercises that require nothing more than the resistance of your own bodyweight to help you reach the pinnacle of fitness and look better than ever before. Armed with Mark Lauren’s motivation techniques, expert training, and nutrition advice, you’ll see rapid results by working out just thirty minutes a day, four times a week—whether in your living room, yard, garage, hotel room, or office. Lauren’s exercises build more metabolism-enhancing muscle than weightlifting, burn more fat than aerobics, and are safer than both, since bodyweight exercises develop balance and stability and therefore help prevent injuries. Choose your workout level—Basic, 1st Class, Master Class, and Chief Class—and get started, following the clear instructions for 125 exercises that work every muscle from your neck to your ankles. Forget about gym memberships, free weights, and infomercial contraptions. They are all poor substitutes for the world’s most advanced fitness machine, the one thing you are never without: your own body.

It’s simple. It’s backed by science. And it works. Here’s what YOU can expect while you lose weight like crazy: You won’t count calories! You won’t feel hungry or deprived! You can enjoy dessert! You can have a cocktail with your friends! You can speed up your results by adding fast, fun exercise routines that you’ll love! (free lifetime access to my 2 new workout videos included with the book!) You can maintain your new body and feel amazing—for life!

In this paradigm-shattering book, leading behavioural economist and food psychologist Brian Wansink - dubbed the 'Sherlock Holmes of food' and the 'wizard of why' - offers a radical new philosophy for weight loss. The answer isn't to tell people what to do: it's to set up their living environments so that they will naturally lose weight. Using cutting-edge, never-before-seen research from his acclaimed Food and Brand Lab at Cornell University, Wansink reveals how innovative and inexpensive design changes - from home kitchens to restaurants, from grocery stores to schools and workplaces - can make it mindlessly easy for people to eat healthier and make it more profitable for the companies who sell the food. In Slim by Design, Wansink argues that the easiest, quickest and most natural way to reverse weight gain is to work with human nature, not against it. He demonstrates how schools can nudge kids to take an apple instead of a cookie, how restaurants can increase profits by selling half-size portions, how supermarkets can double the amount of fruits and vegetables they sell, and how anyone can cut plate refills at home by more than a third. Interweaving drawings, charts, floor plans and scorecards with new scientific studies and compelling insights that will make you view your surroundings in an entirely fresh way, this entertaining, eye-opening book offers practical solutions for changing your everyday environment to make you, your family and even your community slim by design.

Most Registered Dietitian Nutritionists Couldn’t Claim This— “I Lost 100 Pounds and Now I’m Sharing How I Did It with You!” MORE THAN 240,000 CLIENTS CAN’T BE WRONG! My name is Ilana Muhlstein and I wrote You Can Drop It! to help you learn my personal and proven system to drop weight and keep it off—without sacrifice—and it’s so simple that you’ll love it! This unique approach has become famous thanks to my renowned 2B Mindset program. The 2B Mindset is designed with the built-in ability for customization so that it is optimally effective and can work for everyone. It has already helped thousands of people lose weight—some more than 100 pounds—while never asking them to go hungry or cut out the foods that they love. You Can Drop It! doesn’t just give you the key knowledge you need to lose weight. It adds motivational principles and real-life examples and it’s the perfect complement to my successful program. No counting calories! No portion control! No feeling hungry! No off-limits foods! No exercise required! Finally—weight loss with FREEDOM! Here’s Exactly Why YOU CAN DROP IT! Will Work: You’re going to feel full and satisfied. (You can still eat comforting foods, in big portions, and enjoy 50+ delicious recipes inside.) You’ll eat the foods you love. (Nothing is off-limits, not even dessert or a glass of wine.) You’ll be in control. (Say goodbye to emotional and mindless eating.) You can finally keep off the weight! (These powerful weight-loss tools will be yours for life.) The 2B Mindset method changed my life. I struggled with yo-yo dieting the whole first half of my life. I was always the big one in the group. By the time I turned 13, I weighed over 200 pounds, and I felt terrible about myself. That’s when I realized I had to break the cycle. Through trial and error, and lots of research, I discovered a simple and effective way to lose weight, while still eating large portions and the foods I loved. Over time, I lost 100 pounds, and kept the weight off. . . even after having two beautiful children. My secret? It’s called the 2B Mindset. It has helped thousands of my clients lose weight too—and now it will help you.

Squeaky Clean Keto marries the principles of clean eating with the ketogenic diet, resulting in reduced inflammation, faster weight loss, and better overall health. It provides readers with the methods and principles of squeaky clean keto (no grains, dairy, alcohol, sweeteners, or nuts), 30 days of easy-to-follow meal plans, and over 130 delicious recipes that are big on flavor and will appeal to even the pickiest of eaters. This book will help readers lose weight, feel healthier, and identify whether or not certain common allergens are hindering their progress—all while eating an abundance of delicious foods that the entire family can enjoy. Squeaky Clean Keto makes weight loss on keto almost effortless, even for people who are self-proclaimed "slow losers." Food intolerances and inflammation caused by common keto foods like dairy, nuts, and sweeteners can slow weight loss, so when those things are completely removed from the diet, many see rapid results that they weren't getting on "regular" keto. After 30 days of squeaky clean keto, slowly reintroducing the potentially offending foods can shine a light on which foods may have been stalling weight loss. With this information in hand, readers can decide to limit or omit those foods completely moving forward for a fully customized approach to the keto diet.

P90X creator Tony Horton is known by millions of fans for his take-no-prisoners, straight-talking approach to fitness. Now, with *The Big Picture*, Tony brings his energetic, no-nonsense style to bear on the rest of your life, sharing his formula for success outside of the gym. Tony's 11 Laws are the basis for his bestselling workout programs—here he shows readers how to apply them to the rest of their lives for instant and dramatic change. Using eye-opening examples from his own journey as well as inspiring stories from people he's met along the way, Tony shows you how to identify the life you want—and walks you through the path to creating it. This is the self-improvement book for people who want results, not hand-holding. If you're ready to commit, put in the time, and do the work, you can create the big picture of your dreams.

Inspiration and practical tips for runners who prioritize enjoyment over pace and embrace their place as an "average" runner In her first book, popular runner blogger Amanda Brooks lays out the path to finding greater fulfillment in running for those who consider themselves "middle of the pack runners" -- they're not trying to win Boston (or even qualify for Boston); they just want to get strong and stay injury-free so they can continue to enjoy running. *Run to the Finish* is not your typical running book. While it is filled with useful strategic training advice throughout, at its core, it is about embracing your place in the middle of the pack with humor and learning to love the run you've got without comparing yourself to other runners. Mixing practical advice like understanding the discomfort vs. pain, the mental side of running, and movements to treat the most common injuries with more playful elements such as "Favorite hilarious marathon signs" and "Weird Thoughts We all Have at the Start Line," Brooks is the down-to-earth, inspiring guide for everyone who wants to be happier with their run.

Worry about cholesterol. Avoid red meat. Eat whole grains. Could it all be a lie? We live in an era of health hype and nutrition propaganda, and we're suffering for it. Decades of avoiding egg yolks, choosing margarine over butter, and replacing the real foods of our ancestors with low-fat, processed, packaged substitutes have left us with an obesity epidemic, ever-rising rates of chronic disease, and, above all, total confusion about what to eat and why. This is a tragedy of misinformation, food industry shenanigans, and cheap calories disguised as health food. It turns out that everything we've been told about how to eat is wrong. Fat and cholesterol are harmful to your health? Nope—they are crucial to your health. "Whole grains" are health food? Not even close. Counting calories is the way to lose weight? Not gonna work—nutrients are what matter. Nutrition can come from a box, bag, or capsule? Don't count on it! In *Eat the Yolks*, Liz Wolfe debunks all these myths and more, revealing what's behind the lies and bringing the truth about fat, cholesterol, protein, and carbs to light. You'll be amazed at the tall tales we've been told in the name of "healthy eating." With wit and grace, Wolfe makes a compelling argument for a diet based on Paleo foods. She takes us back to the foods of our ancestors, combining the lessons of history with those of modern science to uncover why real, whole food—the kind humans ate for thousands of years before modern nutrition dogma led us astray—holds the key to amazing health and happy taste buds. In *Eat the Yolks*, Liz Wolfe doesn't just make a case for eating the whole egg. She uncovers the shocking lies we've been told about fat, cholesterol, protein, carbs, and calories and brings us the truth about which foods are healthy—and which foods are really harming us. You'll learn truths like: - fat and cholesterol are crucial, not harmful . . . and why - "whole grains" are processed foods . . . and what to eat instead - counting calories is a waste of energy . . . and what we actually should be tracking - all animal products are not created equal . . . and which ones we truly need - nutrition doesn't come in a box, bag, or capsule . . . and why there's no substitute for real food!

The new healthy eating and lifestyle book from the inspirational and widely followed personal trainer, Kayla Itsines.

Ballet-inspired fitness for every woman! You don't have to be a professional ballerina to look like one! With Mary Helen Bowers' *Ballet Beautiful*, forget beating yourself up in the gym and suffering through starvation diets for some unattainable goal. You can achieve your ideal body and develop the strength, grace, and elegance of a dancer by following Mary Helen's proven program—one that's got everyone from celebrities to busy moms to executives raving! *Ballet Beautiful* is a fitness method that blends the artistry and athleticism of ballet with an easy, accessible eating plan that works for every body - and absolutely no dance experience is required. Created by professional ballerina Mary Helen Bowers, this transformative approach to fitness and health will reshape your body and your mind! *Ballet Beautiful's* three-fold approach is not an extreme workout nor is it a radical diet for an overnight fix; it's a roadmap to achieving and maintaining your ideal health, shape and size--all with the elegance and strength of a ballerina. Part One of the book introduces the program's empowering mindset, the key to supporting and guiding you through lasting change. Part Two, the *Ballet Beautiful Method*, consists of challenging, effective, and fun workouts that sculpt and tone sleek ballet muscles and build beautiful posture. Whether you have a full hour or only 15 minutes, you can tailor the program to your own schedule and needs. Part Three shares the *Ballet Beautiful Lifestyle*, a healthy, balanced approach to nutrition. With meal plans, shopping tips and quick but delicious daily recipes that will satisfy and nourish your entire body, it's a stress-free, diet-free plan that will help keep you feeling as strong and healthy as you look.
