There have been times when you've felt that if there isn't a God, there ought to be. Swept up in the mystery of the night sky, you've felt the closeness of its designer. Nature's extravagant diversity, unfolding in living color, has made you long to know the artist who dreamed it all up. Imagine what that might be like—to actually know God in a way that fills your heart and whispers tremendous value and purpose to something

deep within you. But how can you experience a being you're not even sure exists? Religious jargon and games can't satisfy such a longing. It's got to be real ... or nothing at all. A Search for What Is Real helps you sort through the questions, objections, and concerns that arise when you consider God not as some theological abstraction, but as someone you can actually connect with ... and want to connect with, perhaps more than you know. FINDING FAITH The Finding Faith books A Search for What Makes Sense and A Search for What Is Real don't try to tell you what to believe; they are guides in learning how to believe. If you think the spiritual journey requires turning your back on honesty and intellectual integrity, these two companion volumes will speak to both your mind and your soul.

Ever wondered what phrases like 'underwater mortgage', 'money mules', 'peer to peer lending', 'virtual key pad', 'bit coins' and many more such unique terms imply? This book attempts to add to the understanding of these words by giving their source of origin and evolution. It decodes and demystifies financial terminology which is genuinely complex and difficult to comprehend. Financial words and phrases are increasing by the day at the same pace at which developments in the financial world are taking place. Akin to the emergence of innovative financial transactions and mechanisms, there has been a glut of terms coined by financial practitioners and analysts whose meaning is not readily understood. *Financial Terms Simplified* covers terminology from the world of Banking, Insurance, Capital Markets and Finance. The terms have been culled from a range of literature with the emphasis being on presenting innovative terms in common usage. This book can be a useful dictionary for academics, students and finance professionals. Libraries of educational institutions, chambers of commerce and bank training colleges too will find this lexicon a handy reference.

Beautifully written and endlessly thought-provoking."—Macleane's Murderer. Salesman. Pirate. Adventurer. Cannibal. Co-founder of the Hudson's Bay Company. Known to some as the first European to explore the upper Mississippi, and widely as the namesake of ships and hotel chains, Pierre-Esprit Radisson is perhaps best described, writes Mark Bourrie, as "an eager hustler with no known scruples." Kidnapped by Mohawk warriors at the age of fifteen, Radisson assimilated and was adopted by a powerful family, only to escape to New York City after less than a year. After being recaptured, he defected from a raiding party to the Dutch and crossed the Atlantic to Holland—thus beginning a lifetime of seized opportunities and frustrated ambitions. A guest among First Nations communities, French fur traders, and royal courts; witness to London's Great Plague and Great Fire; and unwitting agent of the Jesuits' corporate espionage, Radisson double-crossed the English, French, Dutch, and his adoptive Mohawk family alike, found himself marooned by pirates in Spain, and lived through shipwreck on the reefs of Venezuela. His most lasting venture as an Arctic fur trader led to the founding of the Hudson's Bay Company, which operates today, 350 years later, as North America's oldest corporation. Sourced from Radisson's journals, which are the best first-hand accounts of 17th century Canada, Bush Runner tells the extraordinary true story of this protean 17th-century figure, a man more trading partner than colonizer, a peddler of goods and not worldview—and with it offers a fresh perspective on the world in which he lived.

Understanding Sam Shepard investigates the notoriously complex and confusing dramatic world of Sam Shepard, one of America's most prolific, thoughtful, and challenging contemporary playwrights. During his nearly fifty-year career as a writer, actor, director, and producer, Shepard has consistently focused his work on the ever-changing American cultural landscape. James A. Crank's comprehensive study of Shepard offers scholars and students of the dramatist a means of understanding Shepard's frequent experimentation with language, setting, characters, and theme. Beginning with a brief biography of Shepard, Crank shows how experiences in Shepard's life eventually resonate in his work by exploring the major themes, unique style, and history of Shepard's productions. Focusing first on Shepard's early plays, which showcase highly experimental, frenetic explorations of fractured worlds, Crank discusses how the techniques from these works evolve and translate into the major works in his "family trilogy": *Curse of the Starving Class*, the Pulitzer Prize-winning *Buried Child*, and *True West*. Shepard often uses elements from his past—his relationship with his father, his struggle for control within the family, and the breakdown of the suburban American dream—as major starting points in his plays. Shepard is a recipient of a Pulitzer Prize for Drama, eleven Obie Awards, and a Chicago Tribune Literary Prize for Lifetime Achievement. Augmented with an extensive bibliography, *Understanding Sam Shepard* is an ideal point of entrance into complex and compelling dramas of this acclaimed playwright.
