50 Pips A Day Forex Strategy Start making consistent profits in the forex market. This is a very clear and simple to follow forex trading strategy to get you started achieving consistent profits day after day trading the forex market. It will make you 50 pips per day or more every day. It is ideal for beginner traders but it will give a great deal of help to more experienced traders that have not found a clear strategy to make profits consistently. Components Support and Resistance Candlesticks Moving Average Time frame - 4 hours chart It is easy to understand and to put in practice. It has very well defined entry, stop loss and exit levels. Apart from the strategy, this book also contains a very useful guide that teaches you how to construct a profitable forex trading system for yourself and how to avoid trading and money management mistakes. How to Build a Solid Trading System Are you new to forex trading or just started to trade on a live account but with not much success? You need a solid forex trading system based on sound principles of the forex market, that has clear trading and money management rules. Do you have a forex trading system and you have been trading with it for a

period of time but still you don't have the success you hoped for ? This can only mean that your trading system does not take into account the basic trading rules and principles that any powerful forex trading system incorporates. This book teaches you how to construct your own powerful forex trading system, what are the most important forex trading tools that you must include in it, what not to include in your forex trading system, how to apply solid money management rules and equally important, how to avoid making trading mistakes that will cost you when you start to trade with your newly developed forex system.

This book is probably the most BREED SPECIFIC, comprehensive, detailed and complete manual available. The book covers everything that you need to know to successfully care for and understand this Gundog/sporting dog. The book is unique as it includes both BASIC obedience and ADVANCED GUN DOG TRAINING in one jargon free, easy to follow program. The basic obedience training will maintain an obedient, well mannered dog. The advanced training will give your dog the type of training that they will love and were bred to follow, ensuring a motivated, stimulated, happy and healthy dog. The advanced training program is identical to the type of training used by professional Gundog trainers but you are not necessarily training your dog to hunt, but following the type of training that these Gundogs excel at and love to do, all presented in a very user friendly, fun, easy to follow step by step format. Within its 252 pages this book is packed with valuable information about caring for this breed. It covers in detail the Golden Retriever. The book covers everything you need to know about caring for a Golden Retriever. Covering all aspects of dog ownership necessary to have a happy well behaved family dog So whether you just want a well behaved house dog or want to delve into more advanced aspects of training and management, you will find it all here Some of the key points you will find in this book include: Written and compiled by a very experienced dog trainer, behaviourist and owner. Detailed chapters on training, behavioural problems, health, grooming, breeders, where to buy, rescue dogs etc. All of the training both initial obedience and advanced training, as well as other chapters and steps you will need to follow, is provided in a very clear step by step easy to follow manner. Includes all the help and advice as you are likely to need whether you are a prospective dog owner or already have a dog and are looking for extra help and guidance beyond the basics. Step by step guidance relating to things you need to be aware of before you commit. Detailed guidance taking you step by step preparing for the arrival and then what you will need to do from day one. A dedicated chapter summarising and walking you through what to expect and things you will need to do, each week from day one until your puppy matures. The training is given in two chapters. Initial obedience covers everything you are likely to need if you are limited for time and simply want a well behaved dog. An advanced training chapter is given if you wish to progress into more challenging training areas which your dog will love The objective is to provide you and your dog with the type of training that this breed greatly benefits from and replicates what these

dogs were originally bred to do and are happiest doing. The additional emphasis and objective of the book is providing the average pet owner who is looking for information on understanding the breed and how to best care for and deal with their new dog. Also included are many useful resources/website links detailing further reading, organisations and all the essentials you will need, as well as places to buy. By the time you finish this book you will be fully equipped with the knowledge to be the best Golden Retriever owner you can be. Once again the book has been written by a highly experienced dog handler, behaviourist and trainer who has successfully coached both dogs and owners over a lifetime. In addition many expert breeders and owners, as well as practitioners in the fields of canine behavioural psychology, veterinary health and ownership, have contributed with invaluable advice and tips. So whether you are looking for basic instruction or more advanced advice, you will find it all here.

A bestselling classic (more than 200,000 copies sold in hardcover and paperback) that delves into the minds of some of the world's most successful traders.

"Fast-paced, engaging and original, History That Changed the World unearths the many links between the past and the present by zooming in on the key events, movements, inventions and people whose profound impact on the course of history continues to echo into our own time."--Back cover.

"Backed by a comprehensive list of studies, this book is a brilliant contribution on the connections between exchange rates and economics."—Francesc Riverola, CEO and Founder of FXstreet.com "Adam Kritzer has been covering the forex market for years as a prominent but accessible industry expert. In a market sector full of pitfalls for the novice, this book will help many new traders avoid costly mistakes and get started on the path to success."—Andy Hagens, Co-founder of ETF Database "Adam Kritzer is not only one of my favorite forex writers but also one of the best ... This book will likely become required reading for those getting into the forex market."—Zachary Storella, Founder of CountingPips.com Forex for Beginners: A Comprehensive Guide to Profiting from the Global Currency Markets is a guide for those who want to earn extra income trading currencies without committing large amounts of time or money. This book will introduce global investors to the basics of forex (foreign exchange) trading and provide them with a solid framework for analyzing currencies and profiting from their fluctuations. Topics covered include the forces that cause exchange rates to fluctuate, an overview of the mechanics of trading, analytical and forecasting tools, how to profit from pricing trends, and common pitfalls that often ensnare traders. While most books make grandiose promises of instant success and large profits, Forex for Beginners represents an alternative approach to investing in forex. The forex market is dominated by institutional capital and algorithmic trading, making it unrealistic to think that day traders can beat the market by relying on charts and technical indicators alone. Thus, the emphasis here is on fundamental analysis—using economic concepts to spot currency

misalignments—and staking out positions to profit from them over a period of weeks and months. If you're eager to tap into the world's largest financial market on a part-time basis, this is the book for you. You will gain an understanding of how currency markets work and use this knowledge to generate income.

This text explains the methods and aspects of exchange rate forecasting, including purchasing power, parity, interest rate differentials and technical analysis. Guidelines for reducing risk with forecasting strategies are included, as are techniques for co

Many traders go around searching for that one perfect trading strategy that works all the time in the global FOREX (foreign exchange/currency) market. Frequently, they will complain that a strategy doesn't work. Few people understand that successful trading of the FOREX market entails the application of the right strategy for the right market condition. 7 Winning Strategies For Trading Forex covers: - Why people should be paying attention to the FOREX market, which is the world's largest and most liquid financial market - How understanding the structure of this market can be beneficial to the independent trader - How to overcome the odds and become a successful trader - How you can select high-probability trades with good entries and exits. Grace Cheng highlights seven trading strategies, each of which is to be applied in a unique way and is designed for differing market conditions. She shows how traders can use the various market conditions to their advantage by tailoring the strategy to suit each one. This revealing book also sheds light on how the FOREX market works, how you can incorporate sentiment analysis into your trading, and how trading in the direction of institutional activity can give you a competitive edge in the trading arena. This invaluable book is ideal for new and current traders wanting to improve their trading performance. Filled with practical advice, this book is a must-read for traders who want to know exactly how they can make money in the FOREX market.

An accessible guide to trading the fast-moving foreign exchange market The foreign exchange market, or forex, was once dominated by global banks, hedge funds, and multinational corporations, but that has all changed with Internet technology and the advent of online forex brokers. Now, hundreds of thousands of traders and investors around the world can participate in this profitable field. Written by forex expert Kathy Lien, *The Little Book of Currency Trading* will show you how to effectively invest and trade in today's biggest market. Page by page, she describes the multitude of opportunities possible in the forex market, from short-term price swings to long-term trends, and details practical products that can help you achieve success, such as currency-based ETFs. Explains the forces that drive currencies and provides strategies to profit from them Reveals how you can use various currencies to reduce risk and take advantage of global trends Examines financial vehicles that can help you make money without having to monitor the market every day *The Little Book of Currency Trading* opens the world of currency trading and investing to anyone interested in entering this dynamic arena.

There are many books that promise to teach you highly profitable trading systems, to show you how easy making money trading the forex really is. This is not one of those books. Forex for Ambitious Beginners will not turn you into a profitable trader, only you can do that, through practice, study and persistence. But this book will help you avoid many, many mistakes beginning traders make. You will learn essential elements of successful forex trading, such as how to protect your trading capital, how to find a forex

trading strategy that matches with your trader personality and how to build your own trading system and tweak it for optimum performance. The book will also touch on important basics about the FX market that traders need to know about. Who the players on the forex are for instance, and which factors influence the most important currencies. Other topics include specific forex trading strategies, popular technical indicators, how to read candlestick charts and how to recognize chart patterns. *Forex for Ambitious Beginners* is about minimizing risk and maximizing potential, about looking for ways to continuously bend the odds in your favor. It will provide you with a solid foundation on which you can start building your forex trading career. The book concludes with a challenging quiz, offering detailed explanations of the correct answers. In short, if you're ambitious and want to really learn how to trade the forex -- as opposed to being spoon-fed a fantasy about some super strategy -- then *Forex for Ambitious Beginners* is for you. About the author Jelle Peters is the founder of the popular forex website www.forexinfo.nl. He writes daily currency analysis, has published numerous articles on forex strategies and is a sought after speaker for forex webinars and seminars. See also www.forexforambitiousbeginners.com

The updated edition to one of the most popular books on technical analysis Japanese candlestick charting and analysis is one of the most profitable yet underutilized ways to trade the market. Signals created by this unique method of technical analysis--represented in the form of graphic "candlestick" formations--identify the immediate direction and effects of investor sentiment through price movements, allowing traders to profit by spotting trend reversals before other investors. This updated version of *Profitable Candlestick Trading: Pinpointing Market Opportunities to Maximize Profits* makes learning the method fast and easy by introducing specific patterns, as well as the psychology behind them. The book Details the most valuable aspect of technical analysis--reversal patterns--as well as reversal signals, including the Doji, the Hammer, the Hanging Man, Engulfing Patterns, and Dark Cloud Cover Explains continuation patterns and explores how they can help with the decision-making process during various trading periods Reveals how to find trading situations that have the maximum potential for profitability, the highest probability of success, and the least amount of risk Learn how to quickly search, view, and profit with candlestick formations with *Profitable Candlestick Trading*.

Praise for *ADVENTURES of a CURRENCY TRADER* "A truly easy, unique, and enjoyable read! Rob has done it once again to teach us in the funniest way possible how not to make the most common trading mistakes. If you are tired of reading how-to books, this is perfect for you. I highly recommend this book to all traders. Everyone will learn something about themselves by reading this book." —Kathy Lien, author, *Day Trading the Currency Market*, and Chief Strategist, www.dailyfx.com "*Adventures of a Currency Trader* is a must read for anyone who has ever traded or is thinking about trading in the Forex markets. Rob Booker has a unique way of taking years of market knowledge and transforming it into an educational and entertaining experience. It has quickly become a cult classic in my trading library!" —H. Jack Bouroudjian, Principal, Brewer Investment Group "Brilliant! Rob's humor and humanity shine through in this parable about trading and life. Filled with wisdom and wit, it's an exhilarating rollercoaster ride through the peaks and valleys of the learning curve, with many valuable lessons learned along the way." —Ed Ponsi, President, FXEducator.com

"Rob's fable of everyman 'Harry Banes' is destined to become a trading classic. This is both the missing piece and the foundation that comes before the strategies and methodologies. The search for the Holy Grail begins and ends in the heart and mind. The journey is authentic and real and if you're willing to take it with Rob, you will be rewarded in the end. Seldom has psychology and wisdom been so entertaining!"

—Raghee Horner, trader and author of *Forex Trading for Maximum Profit and Days of Forex Trading* "In a series of insightful and entertaining vignettes, Rob Booker teaches both the novice and the experienced trader some hard won truths about the currency market. It's a must read book written by a guy who survived the trenches and went on to prosper in the biggest and most competitive financial market in the world." —Boris Schlossberg, Senior Currency Strategist, Forex Capital Markets LLC, and author of *Technical Analysis of the Currency Market*

A Harvard-trained economist's startling predictions reveal critical challenges in the decades ahead, helping individuals, businesses, and governments to make smarter decisions As individuals, companies, and countries struggle to recover from the economic crisis, many are narrowly focused on forecasts for the next week, month, or quarter. Yet they should be asking what the global economy will look like in the years to come—where will the long-term risks and opportunities arise? These are the questions that Daniel Altman confronts in his provocative and indispensable book. The fate of the global economy, Altman argues, will be determined by deeper factors than those that move markets from moment to moment. His incisive analysis brings together hidden trends, societal pressures, and policy endgames to make twelve surprising but logical predictions about the years ahead. And his forecasts for the future raise a pressing question for today: With so many challenges awaiting us, are our political and economic institutions up to the task? *Outrageous Fortunes* tells which industries will grow, which economies will crumble, which investments will pay off, and where the next big crisis may occur. Altman's carefully reasoned text is an essential guide for the road ahead. Now you can master the art of foreign exchange trading While most currency trading and foreign exchange books focus on international finance theory or simplistic chart-based strategies, *The Art of Currency Trading* is a comprehensive guide that will teach you how to profitably trade currencies in the real world. Author Brent Donnelly has been a successful interbank FX trader for more than 20 years and in this book, he shares the specific strategies and tactics he has used to profit in the forex marketplace. The book helps investors understand and master foreign exchange trading in order to achieve sustainable long-term financial success. The book builds in intensity and depth one topic at a time, starting with the basics and moving on to intermediate then advanced setups and strategies. Whether you are new to currency trading or have years of experience, *The Art of Currency Trading* provides the information you need to learn to trade like an expert. This much-needed guide provides: an insider's view of what drives currency price movements; a clear explanation of how to combine macro fundamentals, technical analysis, behavioral finance and diligent risk management to trade successfully; specific techniques and setups you can use to make money trading foreign exchange; and steps you can take to better understand yourself and improve your trading psychology and discipline. Written for currency traders of all skill levels, international stock and bond investors, corporate treasurers, commodity traders, and asset managers, *The Art of Currency Trading* offers a comprehensive guide to foreign

exchange trading written by a noted expert in the field.

While most books on trading deal with general concepts and shy away from specifics, *Forex Patterns and Probabilities* provides you with real-world strategies and a rare sense of clarity about the specific mechanics of currency trading.

Leading trading educator Ed Ponsi will explain the driving forces in the currency markets and will provide strategies to enter, exit, and manage successful trades. Dozens of chart examples and explanations will guide you each step of the way and allow the reader to "look over the shoulder" of a professional trader hard at work at his craft. This book provides traders with step-by-step methodologies that are based on real market tendencies. The strategies in this book are presented clearly and in detail, so that anyone who wishes to learn how to trade like a professional. It is written in a style that is easy to understand, so that the reader can quickly learn and use the techniques provided.

To invest successfully or trade in Stocks, Options, Forex, or even Mutual Funds, it is imperative to know AND understand price and market movements that can only be learned from Technical Analysis. You should NEVER attempt Trading or Investing without it! My 25 years experience has taught me that 'Every book on the market' regarding Charting and Technical Analysis are seemingly worthless! All seem to find yet another creative way to tell you to "Buy Low and Sell High!" And they offer NO in-depth understanding or analysis about WHO is buying and WHO is selling, and when. Point is, anyone, experienced or not, can show you a picture of a Chart and tell you to buy at the bottom and sell at the top. That is simple 'hindsight', and is always 20/20! This book is different! It is IN-DEPTH – EXPLAINED and you WILL learn price movements and technical analysis from this information! You will understand and recognize tops and bottoms in the market and in particular stocks, AS they are forming. This is highly valuable information, and you should NEVER attempt to trade or invest without this knowledge! Mutual Funds? Most people think they do not need this information because they have a Mutual Fund. That could not be farther from the truth. Investing your hard-earned money should be done with your own knowledge of market direction, when to buy, and when to move your money to safety. Without this knowledge you are at the mercy of a salesperson hungry to earn a commission. Thus, invariably entering the market at the wrong time and in the wrong investment. No one else has your best interest in mind, either learn to protect your money or keep it in the bank. It's that simple. The next move is yours.

Expert advice in a back-to-basics handbook on how to beat the market—the classic way. In *Investment Psychology Explained* Martin J. Pring, one of the most respected independent investment advisors in the world, argues that in the revisionist '90s there are no quick, magical paths to market success. Rather, he emphasizes the timeless values of hard work, patience, and self-discipline—and much more. Drawing on the wisdom of creative investors such as Jesse Livermore, Humphrey Neill, and Barnard Baruch, as well as his own experience,

Pring shows how to: * Overcome emotional and psychological impediments that distort decision making * Map out an independent investment plan-and stick to it * Know when to buck herd opinion-and "go contrarian" * Dispense with the myths and delusions that drag down other investors * Resist the fads and so-called experts whose siren call to success can lead to disaster * Exploit fast-breaking news events that rock the market * Deal skillfully with brokers and money managers * Learn and understand the rules that separate the truly great investors and traders from the rest Reading *Investment Psychology Explained* will give you a renewed appreciation of the classic trading principles that, through bull and bear markets, have worked time and again. You'll see, with the help of numerous illustrative examples, what goes into making an effective investor-and how you can work toward achieving that successful profile.

Your plain-English guide to currency trading *Currency Trading For Dummies* is a hands-on, user-friendly guide that explains how the foreign exchange (Forex) market works and how you can become a part of it. You will benefit from An insider's clarification of the Carry Trade Seeing technical indicators and patterns through a master's eyes The secrets to FOREX diversification A detailed explanation of the author's personal trading approach A Trader's Ten Commandments There is no holy grail of FOREX trading, but with FOREX Trading Secrets, all you need is practice to build a powerful trading toolbox for wealth security in the world's biggest financial market.

The forex market is huge and offers tremendous trading opportunities. There are many different tools for analyzing the forex market. But what are the best tools and the best ways to use them to trade most effectively? Forex Analysis and Trading organizes the most widely used—although disparate—approaches to forex analysis into one synergistic, robust, and powerful framework. This system draws on fundamental, position, and technical analyses to identify profitable currency positions, enabling traders to make the best decisions regarding major currencies. Marta and Brusuelas are forex trading professionals with years of experience analyzing and trading every major currency.

Binary options - is it betting or trading? A debate that has been raging ever since binary options exploded onto the market, sweeping away convention, tearing up the rule book, and dividing opinion. Indeed, simply mention the word binary and instantly a heated debate will ensue. But love them or loathe them, binary options are here to stay, and Binary Options Unmasked has been written to provide traders with a balanced and considered view of these deceptively simple yet powerful instruments. There are many traps for the unwary, but there are also some solid gold nuggets, if you know where to look. Are Binary Options For Me? This is the question I hope will be answered for you in this book. In writing it, I have tried to provide a complete introduction to the subject, with practical examples of how to approach these innovative instruments. Every aspect of this market is explained - both the good and the bad. Nothing is left unsaid. Binary options have much to offer, and used with common sense and thought, are perfectly valid trading instruments. Applied unthinkingly, they become like any other instrument - a quick way to lose money fast. Binary Options Unmasked reveals the true characteristics of this market. It covers the current market participants, along with their product offering. Moreover, not only are binary options explained in detail, but their application as a trading instrument is also illustrated. Trading strategies and approaches too are explored, along with an innovative and practical approach to interpreting volatility, a key component of any options trading. I hope this book, will give you the confidence at least to consider these instruments in more detail for yourself, with an open mind and

your eyes wide open.

Have you lost money trading the Forex Markets? Or are you consistently winning and making a regular income with your trading? Are you watching the markets without enough confidence to enter trades? Are you spending money in third-part systems that don't seem to yield you any results? Are you wasting your money trading without enough knowledge? After your initial introduction to the technologies used in the book, you'll immediately jump into the process of creating a realtime Q&A app that will work on desktop browsers as well as mobile phones (including iOS and Android). In addition to learning realtime development strategies, you'll also learn progressive development strategies including responsive CSS3 layouts, AJAX development with jQuery, and more. The future of the web is realtime. Grab your hoverboard. **Introduces you to the revolutionary capabilities of the HTML5 WebSocket API** Gets you started with WebSocket immediately using the super-simple Pusher API Walks you through the development of a real-life realtime web app Gets you working with responsive layouts, jQuery, and AJAX development

EMonCall handheld software provides on-the-spot treatment advice for the most frequently encountered problems in emergency medicine. The unique On Call format is organized for quick access to over 120 of the most common problems seen in the emergency department. For each on-call problem, users can immediately focus on the presenting problem, immediate questions, differential diagnosis, lab and other diagnostic tests, and treatment plan. Additional information on laboratory tests, procedures, fluids and electrolytes, and blood component therapy enhance the software's value as a single-source reference. The commonly used medications section offers quick access to the most frequently used medications in the emergency department.

Forex For Beginners is the prequel to my first two books, *A Three Dimensional Approach to Forex Trading*, and *A Complete Guide to Volume Price Analysis*. It is your primer to the world of forex. It has been written to lay the foundations and provide the framework for getting started in the world of forex, in what I believe is the correct way. My other books then build on what you will learn here, to further develop your trading skills and knowledge. What I try to do in all my books, is to show you how to apply that knowledge to help you become a more confident trader. After all, learning is all well and good, but if we are not taught how to apply that knowledge in a practical way, then it is of little use. It is the application of knowledge that empowers, and this is what I have tried to do here, and in my online training rooms, and all my books. There are of course many books about forex trading. What is different about this book, is the focus on those aspects of trading which I believe are fundamental. After all, there are only two questions we need to answer when considering a position in the market:- What is the risk on this trade - high, medium or low? What is the financial risk on this trade? The first is the hardest question to answer, and the book will explain in detail the analysis and approach to use, in order to answer this question with confidence. The second question is more straightforward and is answered provided you have an understanding of risk, money management and position sizing in relation to your trading capital. Again, this is covered in detail in the book. As the tag line on the front cover says 'What you need to know to get started, and everything in between' which really sums up what you will learn. The book explains everything, from the pure mechanics to the trading methodology that I advocate, and which I have used in all my own trading and investing for over 17 years. *Forex For Beginners* is also dedicated to all those traders who have asked me to write such an introduction, based on my knowledge and my methodology. This book is for you.

A streamlined and highly effective approach to trading without indicators Most forex traders

rely on technical analysis books written for stock, futures, and option traders. However, long before computers and calculators, traders were trading naked. Naked trading is the simplest (and oldest) trading method. It's simply trading without technical indicators, and that is exactly what this book is about. Traders who use standard technical indicators focus on the indicators. Traders using naked trading techniques focus on the price chart. Naked trading is a simple and superior way to trade and is suited to those traders looking to quickly achieve expertise with a trading method. Offers a simpler way for traders to make effective decisions using the price chart Based on coauthor Walter Peters method of trading and managing money almost exclusively without indicators Coauthor Alexander Nekritin is the CEO and President of TradersChoiceFX, one of the largest Forex introducing brokers in the world Naked Forex teaches traders how to profit the simple naked way!

FOREX - The Basics Explained in Simple Terms (includes a FREE Bonus Trading System and also links through to video content instructions on how to upload the indicators provided for the system) This is not an upsell to any other product or service My knowledge of currency trading extends over a 14 year period and has evolved from the old fashioned manual charting when I first started in 2002, to trading on multiple screens and entering the arena of automated trading. During this time, I have developed and shared many trading systems for free, and I have also assisted many new Traders through my various blogs and forum participation. This book is for those of you who are just starting to consider trading Forex but don't know where to start, given the abundance of information on the internet. It is THE first book to read to have an understanding of the very basics. I have deliberately kept the explanations simple and straightforward so everyone can understand it. WORLD WAR II THROUGH THE EYES OF ITS LEADERS, COMMANDERS AND PERPETRATORS "World War II: Six Years That Changed World History," a short history of the most violent conflict in human history, is more than a regular overview. Rather than trying to cover every major event of the Second World War, it alternates between telling the general story and zooming in on specific, game-changing events, the reasons behind key decisions and the thinking of leaders, commanders and perpetrators. Some of the major battles discussed: The Battle of Britain Operation Barbarossa The Battle of Stalingrad The Attack on Pearl Harbor Apart from the war in Europe and the war in the Pacific, the Holocaust and the building of the atom bomb are also more extensively covered. How and why the Nazi persecution of the Jews went from isolation, oppression and emigration, to concentration and finally extermination is told by looking at: Nazi ideology Nazi laws The attitude of other countries in the 1930s Quotes from books, memos and remarks by some of the main perpetrators, such as Adolf Hitler, Reichsmarschall Hermann Goring, Auschwitz Commandant Rudolf Hoss and SS-Gruppenfuhrer Reinhard Heydrich, who ran the Einsatzgruppen, a.k.a. SS death-squads. The creation of the atom bomb follows the path from the discovery of nuclear fission to the early British research to develop a nuclear weapon, code-named Tube Alloys, the American Manhattan Project and finally the decision to drop the bomb on the Japanese cities of Hiroshima and Nagasaki in August 1945. "Word War II: Six Years That Changed World History is a well-sourced, gripping and at times chilling overview of a war that forever changed who we are and how we view ourselves. If you are looking for a compelling read about those

pivotal six years between 1939-1945, this book is for you." Get your copy now."

Forex guide for beginners. How to interpret candle sticks

Forex for Ambitious Beginners A Guide to Successful Currency Trading

Play the forex markets to win with this invaluable guide to strategy and analysis Day Trading and Swing Trading the Currency Market gives forex traders the strategies and skills they need to approach this highly competitive arena on an equal footing with major institutions. Now in its third edition, this invaluable guide provides the latest statistics, data, and analysis of recent events, giving you the most up-to-date picture of the state of the fast-moving foreign exchange markets. You'll learn how the interbank currency markets work, and how to borrow strategy from the biggest players to profit from trends. Clear and comprehensive, this book describes the technical and fundamental strategies that allow individual traders to compete with bank traders, and gives you comprehensive explanations of strategies involving intermarket relationships, interest rate differentials, option volatilities, news events, and more. The companion website gives you access to video seminars on how to be a better trader, providing another leg up in this competitive market. The multi-billion-dollar foreign exchange market is the most actively traded market in the world. With online trading platforms now offering retail traders direct access to the interbank foreign exchange market, there's never been a better time for individuals to learn the ropes of this somewhat secretive area. This book is your complete guide to forex trading, equipping you to play with the big guys and win—on your own terms. Understand how the foreign currency markets work, and the forces that move them Analyze the market to profit from short-term swings using time-tested strategies Learn a variety of technical trades for navigating overbought or oversold markets Examine the unique characteristics of various currency pairs Many of the world's most successful traders have made the bulk of their winnings in the currency market, and now it's your turn. Day Trading and Swing Trading the Currency Market is the must-have guide for all foreign exchange traders. An in-depth examination of a powerful new trading strategy "Fischer provides an intriguing and thorough look at blending the Fibonacci series, candlesticks, and 3-point chart patterns to trade securities. Backed by explicit trading rules and numerous examples and illustrations, this book is an invaluable tool for the serious investor. Read it." –Thomas N. Bulkowski author of Encyclopedia of Chart Patterns and Trading Classic Chart Patterns In this groundbreaking new book, Fibonacci expert Robert Fischer and coauthor Dr. Jens Fischer successfully merge Fibonacci applications with candlestick charting to create an innovative trading strategy that will help you enhance profits and reduce risk. Filled with in-depth insights, helpful charts and graphs, and practical real-world examples, Candlesticks, Fibonacci, and Chart Pattern Trading Tools reveals how correctly combining these different strategies can give you a noticeable edge in challenging market times—regardless of whether you are a short-term or long-term trader—and improve your chances of success under a variety of market conditions. You'll be introduced to the critical aspects of this synergistic approach through in-depth analysis and detailed explanations of: Core combinations of Fibonacci trading tools with candlesticks and regular 3-point chart patterns The magic figure "three" and its relevance in pattern recognition Fibonacci-related trading strategies, selected candlestick chart patterns, and regular 3-point chart patterns Applications of these trading strategies—double tops, Fibonacci price extensions, PHI-channel applications PHI-ellipses as trading tools And much more Along with the computer technology of the WINPHI charting program included on the companion website, Candlesticks, Fibonacci, and Chart Pattern Trading Tools will help you understand and implement this profitable trading strategy to the best of your ability.
