Inquiry-Based Experiments in Chemistry is an alternative to those "cookbook" style lab manuals, providing a more accurate and realistic experience of scientific investigation and thought for the high school chemistry or physical science student."

The Code of Federal Regulations is the codification of the general and permanent rules published in the Federal Register by the executive departments and agencies of the Federal Government.

Each no. represents the results of the FDA research programs for half of the fiscal year. This eminently readable book focuses on the people of mathematics and draws the reader into their fascinating world. In a monumental address, given to the International Congress of Mathematicians in Paris in 1900, David Hilbert, perhaps the most respected mathematician of his time, developed a blueprint for mathematical research in the new century.
