

Franco Corelli Prince Of Tenors

How do we know what we know? What have wisdom, prudence and studiousness to do with justifying our beliefs? Jay Wood begins this introduction to epistemology by taking an extended look at the idea of knowing within the context of the intellectual virtues. He then surveys current views of foundationalism, epistemic justification and reliabilism. Finally he examines the relationship of epistemology to religious belief, and the role of emotions and virtues in proper cognitive functioning. Professors will find this text, with its many examples drawn from everyday student experience, especially useful in introducing students to the formal study of epistemology.

"The exchanged life." Hudson Taylor first used the term to describe what it means to know Christ as our sufficiency in all things. Taylor is but one of the many Christian luminaries who have discovered Christ as the secret to abundant living. John Bunyan, Andrew Murray, Amy Carmichael, Oswald Chambers, Charles Finney--behind the varied lives and personalities of these and other men and women lies a common theme, a pattern that leads from desperation to the abundant life Jesus promised. From their stories, we too can find the path to deeper faith and a more vital relationship with God. In *They Found the Secret*, Raymond Edman presents the lives of twenty well-known and little-known Christians. "The details of their experience of the crisis of the deeper life are delightfully different," Edman writes, "yet their testimony to the reality of the joy and power of the Spirit-filled life is unanimous . . . It is [the Lord] who satisfies the longing soul. He is the secret of the exchanged life!"

"The ultimate operatic dining experience".--Harper's Bazaar.

Unfinished at Puccini's death in 1924, *Turandot* was not only his most ambitious work, but it became the last Italian opera to enter the international repertory. In this colorful study two renowned music scholars demonstrate that this work, despite the modern climate in which it was written, was a fitting finale for the centuries-old Great Tradition of Italian opera. Here they provide concrete instances of how a listener might encounter the dramatic and musical structures of *Turandot* in light of the Italian melodramma, and firmly establish Puccini's last work within the tradition of Rossini, Bellini, Donizetti, and Verdi. In a summary of the sounds, sights, and symbolism of *Turandot*, the authors touch on earlier treatments of the subject, outline the conception, birth, and reception of the work, and analyze its coordinated dramatic and musical design. Showing how the evolution of the libretto documents Puccini's reversion to large musical forms typical of the Great Tradition in the late nineteenth century, they give particular attention to his use of contrasting Romantic, modernist, and two kinds of orientalist coloration in the general musical structure. They suggest that Puccini's inability to complete the opera resulted mainly from inadequate dramatic buildup for *Turandot*'s last-minute change of heart combined with an overly successful treatment of the secondary character.

(Amadeus). His exceptional good looks made him a matinee idol, and Franco Corelli the Prince of Tenors was dubbed "Mr. Soldout" for 20 consecutive years. In 1958, just seven years after beginning his career, he was already the highest-paid tenor in Italy. Following his Met debut in 1961, he was celebrated as the greatest tenor in the world, a position that he retained until his departure from the Met in 1975. His charismatic performances in such operas as *La Vestale* and *Fedora* (both in collaboration with Maria Callas), coupled with a formidable mystique, as well as a number of notorious and colorful incidents, including his real-life sword fight with Boris Christoff in Rome, the Callas walkout there, the beating up of a spectator in Naples, and the alleged biting of Birgit Nilsson on a Boston tour of *Turandot*, created a mania for Corelli. Nearly a decade in the making, this definitive biography is based on the author's extensive research of theater archives and interviews with the opera star's numerous friends, family members, colleagues (Nilsson, Pavarotti, and many others), as well as the management of some of the world's leading opera houses.

The Toughest Show on Earth is the ultimate behind-the-scenes chronicle of the divas and the dramas of New York's Metropolitan Opera House, by the remarkable man who rose from apprentice carpenter to general manager. Joseph Volpe gives us an anecdote-filled tour of more than four decades at the Met, an institution full of vast egos and complicated politics. With stunning candor, he writes about the general managers he worked under, his embattled rise to the top, the maneuverings of the blue-chip board, and his masterful approach to making a family of such artist-stars as Luciano Pavarotti, Placido Domingo, Teresa Stratas, and Renee Fleming, and such visionary directors as Franco Zeffirelli, Robert Wilson, and Julie Taymor. Intimate and frank, *The Toughest Show on Earth* is not only essential for music lovers, but for anyone who wants to understand the inner workings of the culture business.

Here is a profound look into the life of Amy Carmichael--pioneer missionary, poet, hymnwriter and author. It is the personal story of one whose simple obedience continues to help change the world.

Before the gramophone could do justice to an orchestra, it was able to reproduce the human voice with comparative fidelity. Building on the long-established success of Ethan Mordden's *Opera Anecdotes*, *The New Book Of Opera Anecdotes* continues where the original left off, bringing into view the new corps of major singers that arose after the first book's publication in 1985 -- artists such as Renee Fleming, Roberto Alagna, Deborah Voigt, Jonas Kaufmann, Kathleen Battle, and Jane Eaglen (who tested her family with *Turandot*'s three riddles and got a very original answer). There are also fresh adventures with opera's fabled great -- Rossini, Wagner, Toscanini (whose temper tantrums are always good for a

story), Franco Corelli, Luciano Pavarotti, Leontyne Price (who, when the Met's Rudolf Bing offered her the voice-killing role of Abigaille in Verdi's Nabucco, said, "Man, are you crazy?"). Almost all the stories in *The New Book Of Opera Anecdotes* are completely new, whether from the present or the past, taking in many historical developments, from the rise of the conductor to the appearance of the gymmed-up "bari-hunk" who refuses to play any role in which he can't appear shirtless. While most of Mordden's anecdotes are humorous, some are emotionally touching, such as one recounting a Met production of Mozart's *The Marriage Of Figaro* in which Renee Fleming sang alongside her own six-year-old daughter. Other tales are suspenseful, as when Tito Gobbi shows off his ability to make anyone turn around simply by staring at his or her back. He tries it on Nazi monster Joseph Goebbels, who does turn around, and then starts to move toward Gobbi, seething with rage, step by step... Mordden recounts these stories in his own unique voice, amplifying events for reading pleasure and adding in background material so the opera newcomer can play on the same field as the aficionado. Witty, dramatic, and at times a little shocking, *The New Book Of Opera Anecdotes* will be a welcome addition to any opera fan's library.

Across the years more forceful, less subtle singing styles won out over sweeter and more nuanced interpretations. In the mid-twentieth century superstar tenors Mario Del Monaco and Franco Corelli came forward with a new technique that involved singing with the larynx lowered. They competed fiercely with each other but had a common objective: to sound more virile. They became the models for many others and ultimately changed the world's expectations of what tenors should sound like in Verdi and Puccini. Together they relegated sweet tenor singing to the junk heap of history. Corelli, with his more "masculine" approach, became opera's greatest sex symbol. The singer himself was consumed with sexual desire but believed that to sing well he had to suppress it. Over the years he engaged in a series of affairs, despite his eagle-eyed wife. The book includes extensive interviews with Corelli about singers and singing--as well as interviews with some of his women. Featured are more than one hundred photos, some of great rarity, some full of personality. Because of both its analyses and its revelations, the book will be of interest to opera lovers everywhere.

A "gripping, sensitive" biography of the trailblazing singer who carved a path for African American artists including Marian Anderson and Paul Robeson (*The Atlanta Voice*). Performing in a country rife with racism and segregation, the tenor Roland Hayes was the first African American man to reach international fame as a concert performer. He became one of the few artists in the world who could sell out Town Hall, Carnegie Hall, Symphony Hall, and Covent Garden. Performing the African American spirituals he was raised on, his voice was marked with a unique sonority which easily navigated French, German, and Italian art songs. A multiculturalist both on and off the stage, he counted among his friends George Washington Carver, Eleanor Roosevelt, Ezra Pound, Pearl Buck, Dwight Eisenhower, and Langston Hughes. This "substantial and well-documented" biography spans the history of Hayes's life and career and the legacy he left behind as a musician and a champion of African American rights (*BBC Music Magazine*). It is an authentic, panoramic portrait of a man who was as complex as the music he performed. "Like many generations of celebrated African American concert artists, I am an inheritor of the legacy left by the great Roland Hayes. Yet, we hardly know his name today. With this long overdue book, the oversight is now remedied." —Lawrence Brownlee, Metropolitan Opera "A wonderful journey through Hayes' performances, racial plight and acceptance." —Examiner.com

Performing Music History offers a unique perspective on music history and performance through a series of conversations with women and men intimately associated with music performance, history, and practice: the musicians themselves. Fifty-five celebrated artists—singers, pianists, violinists, cellists, flutists, horn players, oboists, composers, conductors, and jazz greats—provide interviews that encompass most of Western music history, from the Middle Ages to contemporary classical music, avant-garde innovations, and Broadway musicals. The book covers music history through lenses that include "authentic" performance, original instrumentation, and social context. Moreover, the musicians interviewed all bring to bear upon their respective subjects three outstanding qualities: 1) their high esteem in the music world as immediately recognizable names among musicians and public alike; 2) their energy and devotion to scholarship and the recovery of endangered musical heritages; and 3) their considerable skills, media savvy, and showmanship as communicators. Introductory essays to each chapter provide brief synopses of historical eras and topics. Combining careful scholarship and lively conversation, *Performing Music History* explores historical contexts for a host of fascinating issues.

Arts, Truth and Politics is Harold Pinter's lecture on receipt of the 2005 Nobel Prize in Literature.

Evaluates all recorded versions of one hundred and fifty major operas, and lists casts and availability for each recording. Puccini is the most beloved composer of opera in the world: one quarter of all opera performances in the U.S. are of his operas, his music pervades movie soundtracks, and his plots have infiltrated our popular culture. But, although Puccini's art still captivates audiences and the popularity of such works as *Tosca*, *La Bohème*, and *Madama Butterfly* has never waned, he has long been a victim of critical snobbery and cultural marginalization. In this witty and informative guide for beginners and fans alike, William Berger sets the record straight, reclaiming Puccini as a serious artist. Combining his trademark irreverent humor with passionate enthusiasm, Berger strikes just the right balance of introductory information and thought-provoking analysis. He includes a biography, discussions of each opera, a glossary, fun facts and anecdotes, and above all keen insight into Puccini's enduring power. For anyone who loves Puccini and for anyone who just wonders what all the fuss is about, *Puccini Without Excuses* is funny, challenging, and always a pleasure to read. INCLUDES: • Why Puccini's art and its message of hope is crucial to our world today • How Anglo audiences often miss the mythic significance of his operas • The use of his music as shorthand in films, from *A Room with a View* to *Fatal Attraction* • A scene-by scene analysis of each opera • A guide to the wealth of available recordings, books, and videos
