A breathtaking, enchanting new series by debut author Jessica Townsend, about a cursed girl who escapes death and finds herself in a magical world--but is then tested beyond her wildest imagination. Morrigan Crow is cursed. Having been born on Eventide, the unluckiest day for any child to be born, she's blamed for all local misfortunes, from hailstorms to heart attacks--and, worst of all, the curse means that Morrigan is doomed to die at midnight on her eleventh birthday. But as Morrigan awaits her fate, a strange and remarkable man named Jupiter North appears. Chased by black-smoke hounds and shadowy hunters on horseback, he whisks her away into the safety of a secret, magical city called Nevermoor. It's then that Morrigan discovers Jupiter has chosen her to contend for a place in the city's most prestigious organization: the Wondrous Society. In order to join, she must compete in four difficult and dangerous trials against hundreds of other children, each with an extraordinary talent that sets them apart--an extraordinary talent that Morrigan insists she does not have. To stay in the safety of Nevermoor for good, Morrigan will need to find a way to pass the tests--or she'll have to leave the city to confront her deadly fate. This fast-paced plot and imaginative world has a fresh new take on magic that will appeal to a new generation of readers.

—School Library Journal, starred review In the hottest hour of the hottest day of the year, a fateful wind blows into Oaxaca City. It whistles down cobbled streets and rustles the jacaranda trees before slipping into the window of an eleven-year-old girl named Clara. Unbeknownst to her, Clara has been marked for la Lotería. Life and Death deal the Lotería cards but once a year, and the stakes could not be higher. Every card reveals a new twist in Clara's fate—a scorpion, an arrow, a blood-red rose. If Life wins, Clara will live to a ripe old age. If Death prevails, she'll flicker out like a candle. But Clara knows none of this. All she knows is that her young cousin Esteban has vanished, and she'll do whatever it takes to save him, traveling to the mythical Kingdom of Las Pozas, where every action has a price, and every choice has consequences. And though it seems her fate is sealed, Clara just might have what it takes to shatter the game and choose a new path. Karla Arenas Valenti weaves an adventure steeped in magic and mythology—gorgeously illustrated by Dana Sanmar—exploring the notion of free will in a world where fate holds all the cards.

"This book is a gift to the culture." —Amy Schumer, writer, actor, and activist After her brother's death from a congenital heart defect, twelve-year-old Lucy is not prepared to be the new kid at school—especially in a grade full of survivors of a shooting that happened four years ago. Without the shared past that both unites and divides her classmates, Lucy feels isolated and unable to share her family's own loss, which is profoundly different from the trauma of her peers. Lucy clings to her love of math, which provides the absolute answers she craves. But through budding friendships and an after-school mime class, Lucy discovers that while grief can take many shapes and sadness may feel infinite, love is just as powerful. Frankie is struggling. This time it's not to keep his room clean, or to win the Pine Run 3000. It is something much

more serious: MATH! He just doesn't get it—it seems impossible. So instead of acing his quiz, the numbers become unconquerable monsters. When Frankie finally shares his problem with his family and his best friend, Kenny, they band together to create a math obstacle course that will teach Frankie everything from subtraction to long division—in the most fun of ways! Can Frankie and his imagination overcome the Mathematical Menace that haunts him?

Danny Dragonbreath and his best friend Wendell thought the hot dog from the school cafeteria looked a little . . . off. Then things got weird when the hot dog bit Wendell, and weirder still when Wendell started to sprout back hair. Could Wendell be morphing into a . . . (cue ominous music) were-wiener? All evidence points to yes. And unless he and Danny can get past the lunch ladies and slay the alpha-wurst, the whole school could be infected. Written in Ursula Vernon's trademark hybrid style of comic-book panels and text, this is the thrilling third book in the series. In a starred review, Kirkus Reviews said Dragonbreath "will leave readers in stiches- and on tenterhooks waiting for the next one." Curse of the Were-Wiener will make kids everywhere laugh, shriek, and take a closer look at their lunches. Perfect for fans of Wimpy Kid and Bad Kitty.

But, that's where I find myself right before trying to make a good impression on the supernatural investigation agency of my dreams. Unfortunately, they were created by a murderous cartel known as the Viceroy's who seem to be releasing the demons and using their powers to take out most of the agency's staff. This gets me the job and moves me and the other wet-behind-the-ears interns right in harm's way. Exactly where I like to be. Homicide detective Eve Dallas must untangle a twisted family history while a hostage's life hangs in the balance—in the new *In Death* novel by New York Times bestselling author J. D. Robb. The woman's body was found in the early morning, on a bench in a New York City playground. She was clean, her hair neatly arranged, her makeup carefully applied. But other things were very wrong—like the tattoo and piercings, clearly new. The clothes, decades out of date. The fatal wound hidden beneath a ribbon around her neck. And the note: *Bad Mommy*, written in crayon as if by a child. Eve Dallas turns to the department's top profiler, who confirms what seems obvious to Eve: They're dealing with a killer whose childhood involved some sort of trauma—a situation Eve is all too familiar with herself. Yet the clues suggest a perpetrator who'd be roughly sixty years old, and there are no records of old crimes with a similar MO. What was the trigger that apparently

reopened such an old wound and sent someone over the edge? When Eve discovers that other young women—who physically resemble the first victim—have vanished, the clock starts ticking louder. But to solve this case she will need to find her way into a hidden place of dim light and concrete, into the distant past, and into the cold depths of a shattered mind.
