-In 1895, Franklin County Public Hospital (FCPH) was founded by 36 citizens led by Dr. Adams Calhoun Deane. The newly incorporated hospital rented the former home of Rev. Dr. Francis Robbins and served 55 patients in its first year of operation. By 1898, FCPH moved to the larger Converse House and then to purpose-built facilities at 164 High Street in 1910. The hospital trained nurses, including Susie Walking Bear Yellowtail, class of 1927, the first Native American graduate in the United States. In 1968, FCPH opened the architecturally unique 'Spokes' wards. Throughout its history, the Board of Organized Work (now the Baystate Franklin Auxiliary) has supported the hospital with fundraising activities. FCPH became Baystate Franklin Medical Center (BFMC) after joining with Baystate Medical Center in Springfield, Massachusetts, to form Baystate Health in 1986. This book celebrates 120 years of service to Franklin County.- -- Page [4] of cover.-

#1 New York Times best-seller with more than 11 million copies sold and Amazon's #17 best-selling book of all time. Heaven Is for Real was the best-selling non-fiction book of 2011 as reported by Nielsen's Bookscan, and was developed as a major motion picture by Sony in 2014. "Do you remember the hospital, Colton?" Sonja said. "Yes, mommy, I remember," he said. "That's where the angels sang to me." When Colton Burpo made it through an emergency appendectomy, his family was overjoyed at his miraculous survival. What they weren't expecting, though, was the story that emerged in the months that followed—a story as beautiful as it was extraordinary, detailing their little boy's trip to heaven and back. Colton, not yet four years old, told his parents he left his body during the surgery—and authenticated that claim by describing exactly what his parents were doing in another part of the hospital while he was being operated on. He talked of visiting heaven and relayed stories told to him by people

he met there whom he had never met in life, sharing events that happened even before he was born. He also astonished his parents with descriptions and obscure details about heaven that matched the Bible exactly, though he had not yet learned to read. With disarming innocence and the plainspoken boldness of a child, Colton tells of meeting long-departed family members. He describes Jesus, the angels, how “really, really big” God is, and how much God loves us. Retold by his father, but using Colton’s uniquely simple words, *Heaven Is for Real* offers a glimpse of the world that awaits us, where as Colton says, “Nobody is old and nobody wears glasses.” *Heaven Is for Real* will forever change the way you think of eternity, offering the chance to see, and believe, like a child. Continue the Burpos story in *Heaven Changes Everything: The Rest of Our Story*. *Heaven Is for Real* also is available in Spanish, *El cielo es real*.

Describes the experience of a young boy whose chronic ear infections are affecting his hearing, until he goes into the hospital for a simple operation.

Based on a true story, this debut Civil War novel follows a Southern plantation woman's journey of transforming her home into a hospital for the war. This debut novel is based on the true story of Carrie McGavock. During the Civil War's Battle of Franklin, a five-hour bloodbath with 9,200 casualties, McGavock's home was turned into a field hospital where four generals died. For 40 years she tended the private cemetery on her property where more than 1,000 were laid to rest.

The visionary author's masterpiece pulls us—along with her Black female hero—through time to face the horrors of slavery and explore the impacts of racism, sexism, and white supremacy then and now. Dana, a modern black woman, is celebrating her twenty-sixth birthday with her new husband when she is snatched abruptly from her home in California and transported to the antebellum South. Rufus, the white son of a plantation owner, is drowning, and Dana has been summoned to save him. Dana is drawn back repeatedly through time to the slave quarters, and each time the stay grows longer, more arduous, and more dangerous until it is uncertain whether or not Dana's life will end, long before it has a chance to begin.

Selected by Choice magazine as an Outstanding Academic Title Among his many accomplishments, Benjamin Franklin was instrumental in founding the first major civilian hospital and medical school and in the American colonies. He studied the efficacy of smallpox inoculation and investigated the causes of the common cold. His inventions—including bifocal lenses and a "long arm" that extended the user's reach—made life easier for the aged and afflicted. In Doctor Franklin's Medicine, Stanley Finger uncovers the instrumental role that this

scientist, inventor, publisher, and statesman played in the development of the healing arts—enhancing preventive and bedside medicine, hospital care, and even personal hygiene in ways that changed the face of medical care in both America and Europe. As Finger shows, Franklin approached medicine in the spirit of the Enlightenment and with the mindset of an experimental natural philosopher, seeking cures for diseases and methods of alleviating symptoms of illnesses. He was one of the first people to try to use electrical shocks to help treat paralytic strokes and hysteria, and even suggested applying shocks to the head to treat depressive disorders. He also strove to topple one of the greatest fads in eighteenth-century medicine: mesmerism. *Doctor Franklin's Medicine* looks at these and the many other contributions that Franklin made to the progress of medical knowledge, including a look at how Franklin approached his own chronic illnesses of painful gout and a large bladder stone. Written in accessible prose and filled with new information on the breadth of Franklin's interests and activities, *Doctor Franklin's Medicine* reveals the impressive medical legacy of this Founding Father.
