

Freddy The Frogcaster

Presents a metaphor for humanity's interconnectedness with the story of Roland, a wave who fears that when he finally hits the beach his life will be over, only to realize that he's not just a wave but part of the whole wide ocean.

Curiosity leads to learning! Curious George Adventures in Learning is a researched series for early learners. It was designed by Houghton Mifflin Harcourt, a global leader in education serving 60 million students worldwide. Each workbook features 12 new mini-stories that provide context for math, reading, and science practice. These stories give children authentic learning experiences that naturally inspire curiosity. Children are more motivated to ask, learn, and retain information when they learn through stories. In the Kindergarten workbook, your child will strengthen foundational skills in math, literacy, and science. Extend counting to 100, identify solid shapes, add and subtract within 10, and distinguish between upper- and lowercase letters. The workbooks also integrate social and emotional activities to support whole child development. And they're mapped to the Common Core, providing valuable reinforcement of the concepts they learn in school.

Freddy must use his knowledge about weather to save the town picnic after the town frogcaster does

not report an approaching storm.

Helicity is well aware that her name is unusual - kind of like Helicity herself. The word Helicity means to spin, and for as long as she can remember, Helicity has been fascinated by the weather. The weather is Helicity's escape from her own reality - may that be school, her father's strict discipline, or her brother's imminent departure for college where he's all set to play football. One fateful day, Helicity and her horse head out on a long ride to take a break from life at home. Even with her vast experience with weather, Helicity is unprepared for the elements she faces. The choices Helicity makes before, during, and after that storm will have a lasting effect on her family and her future.

The Cat and company travel by hot air balloon up and into various weather phenomena including rain, snow, thunder, tornadoes, and (yikes!) even hurricanes! Along the way they learn about thermometers, anemometers, wind vanes, cloud formations, humidity, fog, smog, weather folklore, and how to stay safe in lightning. Written and illustrated in Seussian style, this a great addition to the Cat in the Hat's Learning Library!

Take kids ages 3 to 5 on an exciting and educational weather adventure! Welcome to the wonderful world of weather! From the warm, balmy days of summer to the cold, crisp nights of winter, kids will learn all about the four seasons, as well as how clouds form,

why it rains, what causes a rainbow, and so much more. Read along and wow your child with the meteorological magic that's happening around them every day. Go beyond other weather books for kids with: A whirlwind of info? Help toddlers and preschoolers understand how weather works through simple explanations. Sunny illustrations? Colorful and adorable images help kids better understand and engage with what they're learning. A rain of fun facts? Keep older readers interested with neat info, like the fact that wind can be used to create electricity. If you're looking for weather books for kids, this illustrated guide provides your tot with an extraordinary weather adventure! What's the weather like today? Knowledge of the weather can help kids understand several science concepts. For example, the time difference between a lightning and thunder can cement the knowledge that light travels faster than sound. Nature observations can also start with weather. This book is a pictiography for visual learning. Read and learn about the weather. Begin today.

Did you know that lightning bolts can be over a mile long? Or that they may come from clouds that are ten miles high? Storms can be scary, but not if you know what causes them. Before the next thunderstorm, grab this book by veteran science team Franklyn Branley and True Kelley and learn what causes the flash, crash, rumble, and roll of

thunderstorms!

Tommy comes to understand the importance of fighting for one's beliefs after learning an important lesson from his mother about her own participation in the battle against racism. Reprint.

Fox & Friends meteorologist Janice Dean explains how she purposefully finds the silver lining in every cloud, no matter what challenge she faces. Janice is well-known for the infectious joy she brings to segments on Fox & Friends, no matter the weather. Yet many of her fans know there's more to her story than blizzards that are brewing or National Pancake Day celebrations. In this honest yet optimistic book, Janice reveals obstacles she's faced that could have severely impacted any professional woman's career, from online trolls to health issues to abusive and sexist bosses. In *Mostly Sunny*, she talks about it all, including the fateful path meeting her firefighting husband after he lost his colleagues on 9/11; the day she had to talk to her two small children about her multiple sclerosis; and how the pressure on women in television led her to a cosmetic procedure that could have ended her career. But no matter what storms life throws at her, Janice refuses to let setbacks and challenges rain on her parade or cloud her outlook.

Thanks to supportive coworkers and an upbeat attitude, she's mastered turning countless would-be losses into victories. Now, she shares her stories, alternately funny, heartwarming, and touching, in the hopes that they will help others make it through their rainiest days.

When children experience upheaval and trauma, adults often view them as either vulnerable and helpless or as

resilient and able to easily “bounce back.” But the reality is far more complex for the children and youth whose lives are suddenly upended by disaster. How are children actually affected by catastrophic events and how do they cope with the damage and disruption? *Children of Katrina* offers one of the only long-term, multiyear studies of young people following disaster. Sociologists Alice Fothergill and Lori Peek spent seven years after Hurricane Katrina interviewing and observing several hundred children and their family members, friends, neighbors, teachers, and other caregivers. In this book, they focus intimately on seven children between the ages of three and eighteen, selected because they exemplify the varied experiences of the larger group. They find that children followed three different post-disaster trajectories—declining, finding equilibrium, and fluctuating—as they tried to regain stability. The children’s moving stories illuminate how a devastating disaster affects individual health and well-being, family situations, housing and neighborhood contexts, schooling, peer relationships, and extracurricular activities. This work also demonstrates how outcomes were often worse for children who were vulnerable and living in crisis before the storm. Fothergill and Peek clarify what kinds of assistance children need during emergency response and recovery periods, as well as the individual, familial, social, and structural factors that aid or hinder children in getting that support. The New York Times bestselling author and Fox News senior meteorologist Janice Dean returns with more inspiring stories of people who know how to find light in

dark times. While the news is filled with villains and villainy, we do see a few famous heroes now and again. But what about the everyday heroes? The people going out of their way bring a little love into someone else's life? They deserve a time in the spotlight to inspire us all. Life can be tough—but it helps to know other people have come through hard times with a smile on their face. In *Make Your Own Sunshine*, Janice Dean shares inspiring stories that will lift your spirit and touch your heart. Good people are all around us doing selfless deeds, from a firefighter who bravely battled for his colleague's health after 9/11 to a good Samaritan who secretly pays for the coffees of everyone in line behind him. You can't help but smile reading about the teacher who cut her hair to make her student feel better. And you may shed a tear when you hear the story of the dad who never missed writing a napkin note for his daughter, including stashing extra notes in case he lost his batter with cancer. From a young man who makes bow ties for dogs waiting to be adopted to an Uber driver who brightened a new mom's day by helping her buy baby clothes, the heroes in this story will warm your heart and stick in your mind. Janice has made it her mission to uncover and document these good stories to inspire us and gives us a much-needed boost of optimism. All we have to do is open our minds and our hearts, to look for the light on a cloudy day. Because as she reminds us, if we don't make our own sunshine—who will?

Curious George is a good little monkey, and always very curious. Now George is curious about numbers.

Counting from 1 to 10 is easy, but can he count all the

way to 100? George has picked the perfect day to try. It's his town's 100th birthday today and everyone is coming out to celebrate! With the help of his friend, the man with the yellow hat, George learns to count from 1 to 100, making his usual monkey mischief along the way. Young minds (and little fingers) will find all kinds of wonderful things to count as they turn each colorful page. Each page features familiar objects for children to count. From home (toys, shoes, plates) to the park (bugs, sticks, clouds) to school (paste, crayons, books) George finds many different things to count. A perfect book for celebrating counting, numbers and the 100th day of school.

The hit book about a willful young frog with a serious identity crisis and his heard-it-all-before father is now available in paperback! Perfect for fans of Mo Willems's *Don't Let the Pigeon Drive the Bus!* and Jon Klassen's *I Want My Hat Back!* Frog wants to be anything but a slimy, wet frog. A cat, perhaps. Or a rabbit. An owl? But when a hungry wolf arrives--a wolf who HATES eating frogs--our hero decides that being himself isn't so bad after all. In this very silly story with a sly message, told in hilarious dialogue between a feisty young frog and his heard-it-all-before father, young readers will identify with little Frog's desire to be something different, while laughing along at his stubborn yet endearing schemes to prove himself right. And look for the hilarious sequels--*I Don't Want to Be Big*, *There's Nothing to Do!*, and *I Don't Want to Go to Sleep*. ? "First-time author Petty's dialogue between a frog father and his son makes its point about accepting one's nature with a big grin. . . . The story might

create similar gratitude in the minds of readers--or it might just make them giggle."--Publishers Weekly, STARRED REVIEW "A lively look at self-acceptance."--Kirkus "This amusing story ends with a laugh and a much more content frog."--School Library Journal "Silliness and deadpan humor combine into a hopping good story of being happy with who you are."--Booklist "A paean to self-acceptance wrapped in snappy dialogue and illustrated with richly colored comic paintings."--Wall Street Journal "Petty and Boldt provide just enough predictability to hook youngest readers, then deliver a delightful twist or two to create surprise and satisfaction--for both the green hero and the many fans he'll make with this book."--Shelf Awareness "This lighthearted exploration of identity will delight as a readaloud."--The Bulletin of the Center for Children's Books
