This New York Times and Wall Street Journal bestseller shows us that America's political system isn't broken. The truth is scarier: it's working exactly as designed. In this "superbly researched" (The Washington Post) and timely book, journalist Ezra Klein reveals how that system is polarizing us—and how we are polarizing it—with disastrous results. "The American political system—which includes everyone from voters to journalists to the president—is full of rational actors making rational decisions given the incentives they face," writes political analyst Ezra Klein. "We are a collection of functional parts whose efforts combine into a dysfunctional whole." "A thoughtful, clear and persuasive analysis" (The New York Times Book Review), *Why We're Polarized* reveals the structural and psychological forces behind America's descent into division and dysfunction. Neither a polemic nor a lament, this book offers a clear framework for understanding everything from Trump's rise to the Democratic Party's leftward shift to the politicization of everyday culture. America is polarized, first and foremost, by identity. Everyone engaged in American

politics is engaged, at some level, in identity politics. Over the past fifty years in America, our partisan identities have merged with our racial, religious, geographic, ideological, and cultural identities. These merged identities have attained a weight that is breaking much in our politics and tearing at the bonds that hold this country together. Klein shows how and why American politics polarized around identity in the 20th century, and what that polarization did to the way we see the world and one another. And he traces the feedback loops between polarized political identities and polarized political institutions that are driving our system toward crisis. “Well worth reading” (New York magazine), this is an “eye-opening” (O, The Oprah Magazine) book that will change how you look at politics—and perhaps at yourself.

An introduction to the art of rhetoric explains how persuasion can profoundly influence personal and professional successes and reveals an array of techniques employed by such personalities as Aristotle and Winston Churchill.

The Bible plays a vital role in the life of the Catholic Church. In fact, we are called to immerse ourselves daily in the Scriptures. But many of us get lost when we actually dive into the Bible, and our time spent can be more frustrating than fruitful. We are reading a collection of writings drafted by an ancient people, in an ancient culture. But Scripture is nothing less than the Living Word of God, and it is meant just as much for us as for those who lived thousands of years ago. In *Walking with God*, Dr. Tim Gray and Jeff Cavins unpack the central

story woven throughout Scripture and present it in an easy-to-read, concise manner. Gray and Cavins take you on a journey through the “narrative” books of the Bible—the ones that tell the story—and present a panoramic view of God’s glorious plan of salvation. Their expert commentary dives deep into the mysteries of Scripture, unlocking its riches and showing how these inspired words are meant for you today. Enter into the Scriptures with *Walking with God*. Witness the fascinating story of our faith unfold, and see how you, at this moment in your life, fit into God’s plan for all of humanity. Nothing captivates the human heart like a good story, and the best story of all is the one authored by God Himself in Scripture. With keen insight and a genius for making the complex simple, Gray and Cavins help us see the big picture of God’s Word by guiding us through the depths and compelling details of the biblical narrative. This book is an invaluable guide to the mystery and meaning of Sacred Scripture." Charles J. Chaput, O.F.M. Cap. Archbishop of Denver "For ordinary Catholics, taking a journey through the Bible just got a whole lot easier. With this book, *Walking with God*, Tim Gray and Jeff Cavins make it so that you are starting out on the trip with a good map and compass, along with a couple of great friends as reliable guides. You don't want to miss out on such a great adventure." Scott Hahn, Ph.D. Founder and President, St. Paul Center for Biblical Theology "Faced with contentious questions, ancient cultures, and obscure scholarship, it is easy to forget that the Bible is meant to be heard, read, and prayed by all of us. Dr. Tim Gray and Jeff Cavins offer a highly readable

overview of the biblical narrative that is very helpful for the average Catholic to explore the wonders of the Bible. Wounds of History takes a new view in psychoanalysis using a trans-generational and social/political/cultural model looking at trauma and its transmission. The view is radical in looking beyond maternal dyads and Oedipal triangles and in its portrayal of a multi-generational world that is no longer hierarchical. This look allows for greater clinical creativity for conceptualizing and treating human suffering, situating healing in expanding circles of witnessing. The contributors to this volume look at inherited personal trauma involving legacies of war, genocide, slavery, political persecution, forced migration/unwelcomed immigration and the way attachment and connection is disrupted, traumatized and ultimately longing for repair and reconnection. The book addresses several themes such as the ethical/social turn in psychoanalysis; the repetition of resilience and wounds and the repair of these wounds; the complexity of attachment in the aftermath of trauma, and the move towards social justice. In their contributions, the authors remain close to the human stories. Wounds of History will be of interest to psychoanalysts, psychologists and other mental health professionals, as well as students or teachers of trauma studies, Jewish and gender studies and studies of genocide.
