*White Like Her: My Family's Story of Race and Racial Passing* is the story of Gail Lukasik's mother's "passing," Gail's struggle with the shame of her mother's choice, and her subsequent journey of self-discovery and redemption. In the historical context of the Jim Crow South, Gail explores her mother's decision to pass, how she hid her secret even from her own husband, and the price she paid for choosing whiteness. Haunted by her mother's fear and shame, Gail embarks on a quest to uncover her mother's racial lineage, tracing her family back to eighteenth-century colonial Louisiana. In coming to terms with her decision to publicly out her mother, Gail changed how she looks at race and heritage. With a foreword written by Kenyatta Berry, host of PBS's *Genealogy Roadshow*, this unique and fascinating story of coming to terms with oneself breaks down barriers.

*\*A Wall Street Journal Business Bestseller\** "A deeply reported and business-savvy chronicle of Tesla's wild ride." —Walter Isaacson, *New York Times Book Review* *Power Play* is the riveting inside story of Elon Musk and Tesla's bid to build the world's greatest car—from award-winning Wall Street Journal tech and auto reporter Tim Higgins. Elon Musk is among the most controversial titans of Silicon Valley. To some he's a genius and a visionary; to others he's a mercurial huckster. Billions of dollars have been gained and lost on his tweets; his personal exploits are the stuff of tabloids.

But for all his outrageous talk of mind-uploading and space travel, his most audacious vision is the one closest to the ground: the electric car. When Tesla was founded in the 2000s, electric cars were novelties, trotted out and thrown on the scrap heap by carmakers for more than a century. But where most onlookers saw only failure, a small band of Silicon Valley engineers and entrepreneurs saw opportunity. The gas-guzzling car was in need of disruption. They pitted themselves against the biggest, fiercest business rivals in the world, setting out to make a car that was quicker, sexier, smoother, cleaner than the competition. But as the saying goes, to make a small fortune in cars, start with a big fortune. Tesla would undergo a hellish fifteen years, beset by rivals, pressured by investors, hobbled by whistleblowers, buoyed by its loyal supporters. Musk himself would often prove Tesla's worst enemy—his antics more than once took the company he had initially funded largely with his own money to the brink of collapse. Was he an underdog, an antihero, a conman, or some combination of the three? Wall Street Journal tech and auto reporter Tim Higgins had a front-row seat for the drama: the pileups, wrestling for control, meltdowns, and the unlikeliest outcome of all, success. A story of power, recklessness, struggle, and triumph, *Power Play* is an exhilarating look at how a team of eccentrics and innovators beat the odds—and changed the future.

Questions for the DMV Driver's License Exam. The most comprehensive collection of real questions for the theoretical driving test and driver's license. This little book covers the most important questions for the Driving Test, for Learners, Renewal, and for Seniors. You don't need to study a complete manual, study the questions and answers you really need to know to pass your driving test quickly and easily. One hundred questions for the future driver that we present to the reader, intend to contribute to the road safety education that everyone assumes by moving a rudder between their hands. It is enough just to remember that there are millions of drivers, pedestrians, motorcyclists, and cyclists who use the roads every day in the United States and, all, want to return home after school, work or vacations. That is why the citizen, upon receiving his driver's license, acquires new duties before the community. It is, so to speak, the maximum responsibility on the road because it guarantees their safety, that of the passengers who accompany them and that of other people who make the same use of the road system. The future driver, which is you, grows when you bring your civic ethics in unison with courtesy and road responsibility. Thus it contributes to the reduction of traffic accidents and therefore to the loss of human and material life.

people—individuals with dyslexia—share a unique learning style that can create advantages in a classroom, at a job, or at home. Using their combined expertise in neurology and education, the authors show how these individuals not only perceive the written word differently but may also excel at spatial reasoning, see insightful connections that others simply miss, understand the world in stories, and display amazing creativity. Blending personal stories with hard science, *The Dyslexic Advantage* provides invaluable advice on how parents, educators, and individuals with dyslexia can recognize and use the strengths of the dyslexic learning style in: material reasoning (used by architects and engineers); interconnected reasoning (scientists and designers), narrative reasoning (novelists and lawyers); and dynamic reasoning (economists and entrepreneurs.) With prescriptive advice and inspiring testimonials, this paradigm-shifting book proves that dyslexia doesn't have to be a detriment, but can often become an asset for success.

Can I get a “ramen” from the congregation?! Behold the Church of the Flying Spaghetti Monster (FSM), today’s fastest growing carbohydrate-based religion. According to church founder Bobby Henderson, the universe and all life within it were created by a mystical and divine being: the Flying Spaghetti Monster. What drives the FSM’s devout followers, a.k.a. Pastafarians? Some say it’s the assuring touch from the FSM’s “noodly appendage.” Then there are those who love the worship service, which is conducted in pirate talk and attended by congregants in dashing buccaneer garb. Still others are drawn to the Church’s flimsy moral standards, religious holidays every Friday, or the fact that Pastafarian heaven is way cooler: Does your heaven have a Stripper Factory and a Beer Volcano? Intelligent Design has finally met its match—and it has nothing to do with apes or the Olive Garden of Eden. Within these pages, Bobby Henderson outlines the true facts— dispelling such malicious myths as evolution (“only a theory”), science (“only a lot of theories”), and whether we’re really descended from apes (fact: Humans share 95 percent of their DNA with chimpanzees, but they share 99.9 percent with pirates!) See what impressively credentialed top scientists have to say: “If Intelligent Design is taught in schools, equal time should be given to the FSM theory and the non-FSM theory.” –Professor Douglas Shaw, Ph.D. “Do not be hypocritical. Allow equal time for other alternative ‘theories’ like FSMism, which is by far the tastier choice.” –J. Simon, Ph.D. “In my scientific opinion, when comparing the two theories, FSM theory seems to be more valid than classic ID theory.” –Afshin Beheshti, Ph.D. Read the book and decide for yourself!
