Head of the personal safety division for Hawk Elite Security, Tan is serious about teaching his clients how to stay safe. But, with a file two inches thick confirming Elizabeth Whitney as a world champion athlete, he's prepared to take on his newest assignment as the vacation he hasn't had in over five years. A little instruction, a couple hockey games on the side, and he'll be on his way to the next spoiled rich kid. Elizabeth takes one look at Tancredo Byrnes and it doesn't matter that she can perform a triple lutz-toe loop blindfolded; clumsy becomes her middle name. Though trusting people outside her family has never been her strong suit, she finds herself drawn to the easy-going man who is supposed to make her into a superwoman. But she's been burned by those fickle feelings of attraction before and isn't about to let them ruin her life again. As their training intensifies, the threats to Elizabeth darken, and Tan realizes that what should have been a cake walk is a fight between life and death.

In this manual, you will learn the step by step process to teach your dog any command! Would you be surprised if I told you that there are no secrets to dog training? The reality is that it comes down to understanding the science behind the methods and each dog's individual needs, desires, and perseverance levels. After spending years in the industry-traveling and working with dog trainers throughout the country, training new dog trainers, and even having my own show on Animal Planet (Rescue Dog to Super Dog), I have developed a system that is easy to understand and most importantly-easy to implement. These are techniques that I have evolved over the years by working with some of the best trainers in the industry-and now they are available to you for less than the cost of a cup of coffee!

Passwords are not the problem. The management of passwords is the real security nightmare. User authentication is the most ignored risk to enterprise cybersecurity. When end users are allowed to generate, know, remember, type and manage their own passwords, IT has inadvertently surrendered the job title Network Security Manager to employees - the weakest link in the cybersecurity chain. Dovell Bonnett reveals the truth about the elephant in the room that no one wants to mention: Expensive backend security is worthless when the virtual front door has a lousy lock! Dovell proves that making passwords secure is not only possible, passwords can actually become an effective, cost efficient and user friendly feature of robust cybersecurity. After examining how encryption keys are secured, this book introduces a new strategy called Password Authentication Infrastructure (PAI) that rivals digital certificates. Passwords are not going away. What needs to be fixed is how passwords are managed.

Retail Loss Prevention Description Retail loss prevention and profit protection isn't just about theft from retail stores. There are thousands of ways that assets can be lost from your retail business, normally caused by one of three things; theft, waste or negligence. All impact negatively on an organisation's bottom line and can come from internal or external activity. Introduction to Retail Loss Prevention explains key terms used in retail loss prevention and gives an overview of the main causes of loss in retail environments such as; shrinkage, litigation, fraud, supply chain losses, extortion, disaffected staff and reputation. The book then goes on to explain how and where to conduct loss prevention risk assessments in relation to; business premises, various retail security systems, stock, cash, personnel, terrorist activity, legal and regulatory compliance, distribution networks, IT systems, disaster recovery and industrial espionage. Case studies are used throughout the book to illustrate key points and concepts. Cost-effectiveness of the loss prevention effort within your retail environment is emphasised throughout the book. After all, it's of no benefit to save assets in one area if you are going to waste them on ineffective or non-essential security measures. This and other books in the series are written for readers with little or no knowledge of retail loss prevention but the content makes them suitable for all managers and loss prevention specialists. Written in easy to understand language, this book will help any retail manager or loss prevention specialist who needs to prevent and deal with loss in their retail outlet(s). Retail loss prevention risk assessments will become simple using this book. Carry it with you on your e-reader and easily move to different sections of the book as you conduct your risk assessments. Use the book to make your own checklists and save hours of time having to think about what you should be looking for. Introduction to Retail Loss Prevention has been written by two retail loss prevention specialists who, combined, have over 60 years of experience in loss prevention and profit protection across many industries. Tim Trafford BEM has over 25 years experience working in and managing loss prevention and investigation departments including hospitality, sports retail, supermarket chains and distribution. He currently holds a senior position in the loss prevention department of a well known international distribution chain. Ian Watts MCMI. MIPI. MSyI has over 25 years experience investigating losses in various industries and 15 years experience in training managers and loss prevention personnel in several countries. This is the first book in a series of 10 books dealing with retail loss prevention and profit protection activities. The ideas promoted in this book are fully expanded in other books in the series. The fulll series provides a library of material which covers most areas of retail loss and profit protection and how to prevent, minimise and deal with those losses.
