40 Photos. 40 Stories. 40 Moments. Photographs freeze moments in time that would have otherwise escaped into memory and beyond. Each photo tells a story of what was, at that moment, real. Collected here are 40 such moments. Whether jumping off points for bigger tales, or self-contained stories that complete the moment, Fast 40 offers a view into other worlds. Each story won't take long to complete, but might tempt you to examine the moments happening around you from a different perspective.

An insidious parasite is working its way through the suburbs of Washington, D.C. NITS follows the trail of a virulent outbreak of head lice as it wreaks havoc on the lives of a social climbing mother of a scholarship student, a buff young Latin teacher and a controlling do-gooder who is so consumed with exterminating the pest, people start calling her the "Lice Nazi." A social satire with bite, NITS explores the themes of class, ambition, and the unavoidable interconnectedness of modern life.

In *Stop Sabotaging Your Life: 3 Steps To Your Full Potential*, acclaimed life coach Bruno LoGreco shares his simple path to achieving healthy mental and emotional independence. How many times have you caught yourself thinking something like this?: I'm not enough—good enough...smart enough...good looking enough...successful enough.... LoGreco says we sabotage our lives by focusing too much on being what others want us to be and do, and not spending enough time listening to our own hearts and minds. Some people try to find self-acceptance and contentment through counseling, but end up trapped on the therapy treadmill. Others try to go it alone, but still end up in a tiresome process of navel-gazing that never leads to personal fulfillment. LoGreco offers a three-step plan to help you reach your own potential: self-awareness (recognize what you have been doing, and why); rebuilding values (learn a different way to do things); and reach your full potential (identify opportunities and set meaningful goals). You will learn to leverage your strengths to stop chasing illusions and work toward achieving your dreams. LoGreco doesn't claim his book will cure everything that ails you. As he says, "There is no secret formula, no magic pill that will make you happy, productive, and successful. You must challenge your beliefs and take back control of your choices. Don't just think outside the box—break out of it altogether." What clients and readers are saying about life coach, mentor, and motivational speaker Bruno LoGreco: "As a divorced mother of three, I've encountered many obstacles, mostly personal ones within myself. I wondered why I kept repeating the same patterns with the men I was dating and why it always ended badly, usually with me being hurt, and questioned what 'I' was doing wrong. Bruno taught me how to love myself again, how to respect myself and above all else, BELIEVE in myself.... Bruno saved me from my self-destructive patterns. Without his help, I wouldn't be the confident woman I am today. I am a better mother for that."—Cristina "The world is filled with very successful executives who for decades focus every waking minute on professional accolades and professional development [only to] realize they haven't take the time out to focus on personal development in terms of a better balance in life, being in touch with their spiritual side and inner self, and even the fun side of life. That would describe me in the past.... I came across Bruno, and I knew he was the man. His personality exudes authenticity and geniality. The man simply knows his stuff, has this uncanny ability to read between the lines, and zero in instantly on underlying triggers. His structured approach steers you to address issues head on; challenges you to challenge yourself; opens your mind; helps you understand behaviors, experiences and patterns; gets you in touch with yourself; fuels a sense of purpose and passion; and escorts you to chart a new course to life. He never judges, but relentlessly encourages and empowers you. He's truly a brilliant, genuine and a humane person with an infectious enthusiasm to make you seize your inborn potential." —Adrian "If I had to sum up my experience with Bruno in one word, it would be 'awakened.' Bruno helped me see life from a different perspective, which is what I needed, but most importantly, he showed me how to do that myself without being dependent on him.... Bruno got me to step outside of my comfort zone and do things I normally wouldn't have done otherwise, which is undoubtedly the key to growth." —Blaine Thinking she finally has her chance at happiness, Sarah Price quits her less than stellar job. With her brother in better health, she doesn't need the extra money to help her parents with his medical bills. After a fleeting crush on business owner Braydon O'Donnell, she turns to him for employment. Finding herself falling for her new boss Brent, seems too good to be true. Is she in getting too deep, too fast? Brent Jacobs never thought he would fall hard for a stripper. After learning her reasons for turning to undressing for money, he can't help respecting her for her selflessness. One night he loses it all when someone he thought was in his past and wishing to hell she'd stay there shows up at his door. Can they overcome this obstacle? Or will Brent have to fight to put away his desire for Sarah?

This work is a compilation of 25 thoughts that could direct your path towards peace, thoughtfulness and action. The thoughts in this space came to me as I witnessed truths of life unfolding for me through my own experiences. It is because of my desire to find tools for purpose in every event of my life that I find peace in both letting go and embracing that which is necessary. My hope is that: \* You will find complete freedom and blessings in loss as it was intended for your destiny. \* You will learn to look at your mistakes as natural lessons in your life rather than failures. \* You will understand how your burdens are really the fuel for your motivation towards perfection. \* You will realize that the thorns in your flesh can literally be the very tools you need to complete your assignment. \* You will see all is not lost and what you thought was tragic is just another stepping stone towards your true fulfillment. \* At the end of your spiritual literary journey with me, you will realize that you can be used AS IS for the fulfillment of your destiny.

What if you knew who the people in your current life were in your past lives? What if you found out that your inherent talents and interests, and your feelings of familiarity with people and places, stem from particular past lives? Michael Goddard's unique, extraordinary account of his recovery of 88 past lives answers these questions.

A planet plagued with tumult from outsiders and divided by its own religious dichotomy could face extinction if their faiths are not united and an unholy artifact is destroyed. Safiro, the God of Death, and Sanguina, the Goddess of Life, created two heroes (Vytametas) -- mirror twins separated at birth yet destined to meet in a place where the future of their world will be decided by their powers. The only people who know not the ultimate purpose of the legendary Vytametas are the young heroes themselves. While the teenage Vytametas learn of their world and of their mission, they will be turned against each other by the two faiths they are meant to save: the demented Safiric Brotherhood and the shady Sanguinic Sisterhood.

The book that helped make Michael Pollan, the New York Times bestselling author of *How to Change Your Mind*, *Cooked* and *The Omnivore's Dilemma*, one of the most trusted food experts in America Every schoolchild learns about the mutually beneficial dance of honeybees and flowers: The bee collects nectar and pollen to make honey and, in the process, spreads the flowers' genes far and wide. In *The*

Botany of Desire, Michael Pollan ingeniously demonstrates how people and domesticated plants have formed a similarly reciprocal relationship. He masterfully links four fundamental human desires—sweetness, beauty, intoxication, and control—with the plants that satisfy them: the apple, the tulip, marijuana, and the potato. In telling the stories of four familiar species, Pollan illustrates how the plants have evolved to satisfy humankind's most basic yearnings. And just as we've benefited from these plants, we have also done well by them. So who is really domesticating whom?

Shortly after the Civil War, the U.S. Army is commissioned to oversee Yellowstone Park in a bid to protect the wildlife within its bounds from trappers, miners and hunters. But some beasts will always be considered more valuable than others, and some men will do anything to acquire wealth. Within days, two rogue cavalry officers furtively enter the park and steal a white she-wolf from her den. Little do those men realize, however, that the she-wolf is also highly valued by her pack, and that they will do anything to retrieve her... Three Wolves is a fable, told not through the eyes of men, but wolves, as they engage on a very dangerous quest to return the she-wolf to her den in the Unnamed Valley. It is a tale of hope and courage, of omens, dreams and superstition, and one in which you may at last be persuaded to believe that wolves know more about nature and the earth than men.

"Me and E: A Baseball Odyssey is a reflection on parenting a highly skilled, nationally-ranked and difficult baseball prodigy, told through the author's eyes as he witnessed and participated in the successes and failures of his son playing baseball and growing up in Central Florida. It deals with the changing world of competitive youth sports, over-involved parents, fanatical coaches, the hypocrisies inherent in high school athletics, the college recruiting process and how we teach our kids to grow up and become decent human beings - despite ourselves. It involves well-known sports figures as well as local sports icons with traits and characteristics that everyone will recognize. It's a book about flawed parenting, about living vicariously through a gifted child and learning, finally, that being a good father is as much about letting go as it is about being there. Call it Moneyball meets Everything I Know I Learned in Kindergarten.

The groundbreaking, provocative book that uses evolutionary psychology to explain human mating and the mysteries of love. If we all want love, why is there so much conflict in our most cherished relationships? To answer this question we must look into our evolutionary past, argues prominent psychologist David M. Buss. Based on one of the largest studies of human mating ever undertaken, encompassing more than 10,000 people of all ages from thirty-seven cultures worldwide, *The Evolution of Desire* is the first work to present a unified theory of human mating behavior. Drawing on a wide range of examples of mating behavior -- from lovebugs to elephant seals, from the Yanomamö tribe of Venezuela to online dating apps -- Buss reveals what women want, what men want, and why their desires radically differ. Love has a central place in human sexual psychology, but conflict, competition, and manipulation also pervade human mating -- something we must confront in order to control our own mating destiny. Updated to reflect the very latest scientific research on human mating, this definitive edition of this classic work of evolutionary psychology explains the powerful forces that shape our most intimate desires.

The book on sex in the twenty-first century “Alfred Kinsey only scratched the surface. Interviewing a mere 18,000 horny humans? Please . . . Drs. Ogas and Gaddam [offer] hot new scientific findings.”—The Washington Post Want to know what really turns your partner on? A Billion Wicked Thoughts offers the clearest picture ever of the differences between male and female sexuality and the teeming diversity of human desire. What makes men attracted to images and so predictable in their appetites? What makes the set up to a romantic evening so important for a woman? Why are women's desires so hard to predict? Neuroscientists Ogi Ogas and Sai Gaddam reveal the mechanics of sexual relationships based on their extensive research into the mountains of new data on human behavior available in online entertainment and traffic around the world. Not since Alfred Kinsey in the 1950s has there been such a revolution in our knowledge of what is really going on in the bedroom. What Ogas and Gaddam learned, and now share, will deepen and enrich the way you, and your partner, think and talk about sex.

Scholarly proposals are presented for the pre-biblical origin in Mesopotamian myths of the Garden of Eden story. Some Liberal PhD scholars (1854-2010) embracing an Anthropological viewpoint have proposed that the Hebrews have recast earlier motifs appearing in Mesopotamian myths. Eden's garden is understood to be a recast of the gods' city-gardens in the Sumerian Edin, the floodplain of Lower Mesopotamia. It is understood that the Hebrews in the book of Genesis are refuting the Mesopotamian account of why Man was created and his relationship with his Creators (the gods and goddesses). They deny that Man is a sinner and rebel because he was made in the image of gods and goddesses who were themselves sinners and rebels, who made man to be their agricultural slave to grow and harvest their food and feed it to them in temple sacrifices thereby ending the need of the gods to toil for their food in the city-gardens of Edin in ancient Sumer.

This book details a pragmatic approach to the ethical and religious implications of a Darwinian perspective, drawing on the work of thinkers both secular and religious. The

approach taken by James, Santayana, Addams, and Dewey should be of interest to scholars of religious naturalism and humanistic ethics.

Now she returns to the territory she pioneered during the sexual revolution—exploring our most taboo sexual desires. Fans of *Fifty Shades of Grey* will love this provocative collection of real fantasies from dozens of women—and for the first time, men. Friday knows that forbidden sex "gets us higher faster" and explores love, lust and power through erotic tales of domination, masturbation, S&M, threesomes, and more. *Beyond My Control: Forbidden Fantasies in an Uncensored Age* shows that our forbidden fantasies are not compensation for a lackluster sex life, but are a critical component of our fullest selves—and how our secret desires can lead to exhilarating and satisfying sexual freedom. Praise for Nancy Friday "YOU'LL BLUSH, YOUR PULSE WILL RACE."—*The New York Times* "Delicious... women can share in their sisters' secrets and not feel that they are alone."—*Los Angeles Times* "Nancy Friday's work... demonstrate[s] beyond doubt that the emancipation of women's bodies begins with the emancipation of our minds." —Faye Wattleton, former president, Planned Parenthood Federation of America

Focusing on a range of twentieth-century texts and including relevant twenty-first century writing, *Garden Plots* explores the ways in which gardens in fiction represent more than just a familiar theme. Bound up with wider aesthetic and ideological issues, gardens, like literary forms, are subject to transformations. The term 'plots' is a keyword in this approach. It refers to garden plots, literary plots, and more generally, the plotting that is political, polemical, and subversive. Each of the six chapters includes four texts that are familiar and representative. Authors include Virginia Woolf, Eudora Welty, Carol Shields, J. M. Coetzee, Toni Morrison, Leslie Marmon Silko, Jamaica Kincaid, and Philip K. Dick.

A collection of women's intimate erotic thoughts by the #1 *New York Times*–bestselling author of *The Secret Garden* and "liberator of the female libido" (*Newsday*). The publication of the groundbreaking expose on women's sexual fantasies, *My Secret Garden*, ushered in a revolution in women's sexual freedom of expression. In *Forbidden Flowers*, Nancy Friday reveals even more erotic, wild, and explicit fantasies expressed by women all over the world, from all ethnic and socioeconomic backgrounds. Like *My Secret Garden* before it, *Forbidden Flowers* is a celebration of the depth, potency, and imaginative breadth of women's inner erotic lives. By giving female readers a glimpse into the ordinary and often extraordinary fantasies of other women, it offers to some an exhilarating freedom from the guilt and shame so often associated with sexual fantasy—and to others, provides fascinating insight into the psychology of female sexual response. "The author whose books about gender politics helped redefine American women's sexuality." —*The New York Times*

An evolutionary and transformative journey through the history of science fiction from the innermost passions and dreams of the human spirit to the farthest reaches of the universe, human imagination, and beyond. '...a grand vision of the role of science fiction in the progress of human consciousness.' Dr. Karlheinz Steinmüller, Winner of the Kurd Lasswitz Award

After the publication of *On the Origin of Species* in 1859, theologians were faced with the dilemma of God creating through evolution. Suddenly, pain, suffering, untimely death and extinction appeared to be

the very tools of creation, and not a result of the sin of humanity. Despite this paradigm shift, the question of non-human suffering has been largely overlooked within theodicy debates, overwhelmed by the extreme human suffering of the twentieth century. This book redresses this imbalance by offering a rigorous academic treatment of the questions surrounding God and the suffering of non-human animals. Combining theological, philosophical, and biblical perspectives, this book explores the relationship between God and Creation within Christian theology. First it dismantles the popular theological view that roots violence and suffering in the animal kingdom in the fall of humanity. Then, through an exploration of the nature of love, it affirms that there are multiple reasons to suggest that God and creation can both be "good", even with the presence of violence and suffering. This is an innovative exploration of an under-examined subject that encompasses issues of theology, science, morality and human-animal interactions. As such, it will be of keen interest to scholars and academics of religion and science, the philosophy of religion, theodicy, and biblical studies.

Amsden Ironwrought is a master blacksmith living in a remote village in Ancient Egypt. Ethan Samuels is an ordinary, fourteen year-old boy living in modern-day Chicago. Though two thousand years separate their intertwined timelines, the two of them have more in common than they would expect. Ethan has spent the last fourteen years of his life moving from city to city with his mother, but after finally laying roots in Chicago, his life seems to have settled down. In a snowy alleyway, an unexpected mugging plunges Ethan into the magical world of the Bloodline and whisks him away to Aschwood Academy, a school for the magically gifted. There, he befriends a quirky mix of loyal friends and finds himself in the midst of a plot by the Blood Host to steal one of the most powerful relics in the world. Amsden's tale centers upon the creation of those very relics nearly two thousand years ago. A group of ambitious foreigners have discovered an unknown material near his homeland that grants them near god-like powers, and the men conquer and mercilessly rule the land fueled by the talismans they had Amsden create. Enraged by the stories of brutality and chaos, he decides to use the powers he has secretly acquired and bring the fight to them. Aschwood Academy: The Bloodline is the debut children's, fantasy novel by M. B. Cohen and is the first book in the Aschwood Academy series.
