You know what happens when bad boys get what they wish for? Everything. . . New York Times Bestselling Author Lori Foster Playing Doctor Attitude makes a huge difference in bed. It could be Axel Dean's motto. The sexy physician likes his women with sensual moxie, and Libby Preston definitely seems to fit that bill. There's that naughty grin. That hot bod. Her eager kisses and cheeky insults. Her. . .admitted virginity. Whoa. Okay, cue cold shower. Axel may not be an honorable man, but he has his limits. Except Libby won't take no for an answer. She's determined to have someone show her what she's been missing, and suddenly, Axel can't bear to think of Libby playing doctor with anyone else. . . USA Today Bestselling Author Erin McCarthy The Lady of the Lake Pro baseball player Dylan Diaz is pretty sure he's going to hell. When you rescue a drowning woman from a lake your first

thought should be, "Are you okay?" not, "Can I make mad, passionate love to you?" But the minute sputtering kindergarten teacher Violet Caruthers is on Dylan's boat, that's all he can think about. Maybe it's the potent combo of a nun's personality inside a stripper's body. Maybe it's the way she drives him crazy with desire and laughter. Or maybe, Dylan's finally found what's been missing in his life, and he's not about to let go. . .

Katie's Cabbage is the inspirational true story of how Katie Stagliano, a third grader from Summerville, South Carolina, grew a forty-pound cabbage in her backyard and donated it to help feed 275 people at a local soup kitchen. In her own words, Katie shares the story of the little cabbage seedling and the big ideas of generosity and service that motivated her to turn this experience into Katie's Krops, a national youth movement aimed at ending hunger one vegetable garden at a time. Katie's Cabbage reminds us of how small things can grow and thrive when nurtured with tender loving and care and of how one person, with the support of family, friends, and community, can help make a powerful difference in the lives of so many. Katie's Cabbage was illustrated by Karen Heid, associate professor of art education at the University of South Carolina School of Visual Art and Design. Editorial assistance was provided by Michelle H. Martin, a dedicated gardener and the Augusta Baker Chair in Childhood Literacy at the University of South Carolina School of Library and Information Science. Patricia Moore-Pastides, First Lady of the University of South Carolina and author of Greek Revival from the Garden: Growing and Cooking for Life, offers a foreword about her friendship with Katie and her admiration of Katie's dream to end hunger one garden at a time.

In this Open Access publication Claudia Lemke develops a comprehensive Multi-Level Sustainable Development Index (MLSDI) that is applicable to micro, meso, and macro objects by conducting methodological and empirical research. Multi-level comparability is crucial because the Sustainable Development Goals (SDGs) at macro level can only be achieved if micro and meso objects contribute. The author shows that a novel information-theoretic algorithm outperforms established multivariate statistical weighting methods such as the principal component analysis (PCA). Overcoming further methodological shortcomings of previous sustainable development indices, the MLSDI avoids misled managerial and political decision making.

Firsthand accounts from the attorneys and advocates who brought the historic cases and fought to secure the freedom to marry for same-sex couples. The June 2015 decision in Obergefell v. Hodges was a sweeping victory for the freedom to marry, but it was one step in a long process. Love Unites Us is the history of activists' passion and persistence in the struggle for marriage rights for same-sex couples in the United States, told in the words of those who waged the battle. Launching the fight for the freedom to marry had neither an obvious nor an uncontested strategy. To many activists, achieving marriage equality seemed far-fetched, but the skeptics were proved wrong in the end. Proactive arguments in favor of love, family, and commitment were more effective than arguments that focused on rights and the goal of equality at work. Telling the stories of people who loved and cared for one another, in sickness and in health, cut through the antigay noise and moved people—not without backlash and not overnight, but faster than most activists and observers had ever imagined. With compelling stories from leading attorneys and activists including Evan Wolfson, Mary L. Bonauto, Jon W. Davidson, and Paul M. Smith, Love Unites Us explains how gay and lesbian couples achieved the right to marry. “An exceptional piece of work by courageous and innovative leaders.” —Eric H. Holder Jr., 82nd US

attorney general “Captures the amazing story of the fight for marriage equality—in California and around the country. A remarkable journey recounted with truth and eloquence.” —Gavin Newsom, governor of California

Out of the massive research for an authoritative 1,500-page biography emerges this wunderkammer of 99 delightfully odd facts about Kafka. In the course of compiling his highly acclaimed three-volume biography of Kafka, while foraging to libraries and archives from Prague to Israel, Reiner Stach made one astounding discovery after another: unexpected photographs, inconsistencies in handwritten texts, excerpts from letters, and testimonies from Kafka’s contemporaries that shed surprising light on his personality and his writing. *Is that Kafka?* presents the crystal granules of the real Kafka: he couldn’t lie, but he tried to cheat on his high-school exams; bitten by the fitness fad, he avidly followed the regime of a Danish exercise guru; he drew beautifully; he loved beer; he read biographies voraciously; he made the most beautiful presents, especially for children; odd things made him cry or made him furious; he adored slapstick. Every discovery by Stach turns on its head the stereotypical version of the tortured neurotic—and as each one chips away at the monolithic dark Kafka, the keynote, of all things, becomes laughter. For *Is that Kafka?* Stach has assembled 99 of his most exciting discoveries, culling the choicest, most entertaining bits, and adding his knowledge-able commentaries. Illustrated with dozens of previously unknown images, this volume is a singular literary pleasure.

For the Lost Cathedral delves deeply into the human relationship with the divine and its capacity for empathy, transformation, and the tolerance of difference and doubt. Bruce Bond seeks neither to praise nor to attack institutional religions, instead choosing to explore their interactions with the inner lives of those who hold them sacred. Faith can offer comfort and security in difficult times, yet it may also create the temptation to hold to absolutes. For the Lost Cathedral examines the tensions inherent in spiritual devotion as well as the impact of such devotion on our most defining conflicts, creativities, and acts of sacrifice. In poems whose formal simplicity belies the depth of their complexity and insight, Bond explores a dialogue between the spiritual and the religious. A tour de force of emotional truth and focus, For the Lost Cathedral embodies a spirit of wonder in the face of difficulties that might otherwise appear intractable.

Proteinases and their Inhibitors: Structure, Function, and Applied Aspects documents the proceedings of an international symposium organized by the Department of Biochemistry, Jozef Stefan Institute, E. Kardelj University, Ljubljana, and the Department of Organic Chemistry and Biochemistry, Rudjer Boskovic Institute, Zagreb, held in Portoroz, Yugoslavia, September 29-October 3, 1980. The volume contains 34 papers that are organized into four parts. Part I on biological functions includes studies such as muscle protein breakdown in human catabolic state and age-dependent changes in intracellular protein turnover. The papers in Part II, which deals with properties and

structure of enzymes, cover topics such as structures and biological functions of cathepsin B and L; and human erythrocytes peptidases. Part III is devoted to industrial applications, such as exogenous proteinases in dairy technology and the application of immobilized proteinases. Part IV on proteinase inhibitors includes papers on thiol inhibitors of proteases and and intracellular neutral proteinases and inhibitors. The papers in this volume provide new data, concepts, and visions which will not only prove useful, but will also stimulate further investigations of proteinases and their inhibitors.

Gustav Meyrink (1868-1932), best known as the author of *The Golem* (1915), experimented with the occult in a time rife with occult experimentation. As a seeker of esoteric truth, he practiced and wrote about elements of Western Esotericism--alternative religious movements that pursued methods of tapping into secret spiritual wisdom that helped define the age. In doing so, Meyrink developed his own theories of salvation, which featured yoga as a means to open the door to supernatural and paranormal experience. In this way, his life, as well as his fiction, exemplifies liminality, existence on the margins. The core symbol of this liminal experience is the somnambulist: a figure existing between material and spiritual states of consciousness, having access to both yet belonging to neither. His oeuvre features characters entering trances, wandering the borders between "waking" and "metaphysical" worlds, gaining access to secret truths, and realizing salvation via a *unio mystica*. Meyrink, therefore, has much to say about the cultural climate of the *fin de siècle*: by viewing the turn of the twentieth century as a time defined by searches for certitude, by locating Western Esotericism as a meaningful movement of the age, by situating Meyrink on the periphery of social and spiritual spheres, and by identifying the sleepwalker as a seminal figure of the period as well as in Meyrink's work, this study echoes Meyrink's own attempts to find lucidity in the ambiguity of somnambulism.

Research on the frontiers of urban studies was the subject of a conference on nineteenth-century cities held in November 1968 at Yale University. These papers from the conference attempt to define what is coming to be known as the "new urban history." The cities studied range from small communities - such as Springfield, Massachusetts, and Poughkeepsie, New York - to giants like Philadelphia, Chicago, and Boston. While the majority of the contributions deal with American cities, four essays examine cities in Canada, England, France, and Colombia. The studies focus on the dimensions of mobility and stability in the social structure of nineteenth-century cities. Within this general frame, the essays explore such areas as urban patterns of class stratification, changing rates of occupational and residential mobility, social origins of particular elite groups, the relations between political control and social class, differences in opportunities for various ethnic groups, and the relationships between family structure and
