

Geldard And Geldard Counselling

Most of us find ourselves listening to other people's problems at some time or another - either our friends' or, in the course of our work, patients, pupils, clients, colleagues. This book, written clearly in user friendly language, takes the reader step by step through a range of skills to help them become a better listener, communicator and helper in their everyday lives, progressing from inviting the person to talk to ending a helping conversation. Using plenty of examples, tips, exercises and sample conversations, the authors show how the skills described can be easily learned and can fit comfortably into everyday life. This book is essential reading for everyone interested in improving their communication and helping skills as well as those students taking introductory courses in counselling and counselling skills.

KATHERYN GELDARD is a Child and Family Therapist and a visiting lecturer at the Queensland University of Technology, Australia. DAVID GELDARD is a Counselling Psychologist. Together they are the authors of several books on counselling. They jointly manage a counselling practice where they specialise in working with children, adolescents, and their families. They also run training programmes for helping professionals who wish to enhance their counselling skills.

"For anyone in a caring, facilitative or managing role, Counselling Skills provides a uniquely comprehensive, accessible and practical guide to interpersonal helping. It introduces a way of working that is both focused and personalised: tailored to an individual client's specific goals and preferences. The book will be invaluable to anyone who wants to help others deal with their problems." Mick Cooper, University of Strathclyde, UK "Not everyone possesses the skills required to ensure that professional communication is compassionate and supportive, but the skills can be learned and this book on Counselling Skills provides just the resource needed. Its authors have the experience as practitioners and teachers to imbue the text with wisdom derived from life, academia and counselling. The book is carefully crafted and beautifully written; it includes exercises and examples that enhance learning; it is comprehensive and completely relevant for anyone who seeks to use counselling skills competently in their work." Professor Sue Wheeler, University of Leicester, UK "The book offers a sound and accessible introduction for anyone considering formal counselling skills training ... As a bereavement counsellor I will gladly keep a place for this book on my bookshelf, as it offers a useful refresher in basic skills. I would certainly recommend it to colleagues within pastoral caring roles and other caring professions." Sally Smith, Counselling Psychology student at The University of Wolverhampton, UK This bestselling book is designed to help counselling trainees acquire and develop the skills and techniques needed to have therapeutic impact with their clients. It also provides those in the helping professions with an easy-to-follow model of 'embedded counselling' that provides tools and strategies for offering counselling relationships within a diversity of work settings. The new edition is thoroughly revised and features nine new chapters, addressing such topics as: an A-Z of practical counselling skills, dealing with difficult relationships, issues caused by cultural diversity or life transitions, and issues in loss and bereavement. The book also covers: Key counselling skills such as caring, listening, questioning and reframing, reflection, attunement to a client, challenging and giving advice Building a counselling relationship Developing understanding of clients' issues Resolving difficult feelings and emotions Ethical principles of counselling practice Working together to change behaviour Counselling Skills, 2nd edition is packed with exercises and information on recent studies, to help readers relate theory to their own practice. Written in an accessible, engaging style, with numerous case examples, this book is suitable for students taking courses or modules in counselling skills, counsellors in training, and any professionals who may provide counselling support within their roles, including teachers, doctors, community workers, social workers and nurses.

Written by a renowned expert in the field, this book provides a basic grounding in play therapy intervention.

Ethics and Law for School Psychologists is the single best source of authoritative information on the ethical and legal issues school psychologists face every day. Designed specifically to meet the unique needs of psychologists in school settings, this book includes the most up-to-date standards and requirements while providing an introduction to ethical codes, ethical decision making, and the legal underpinnings that protect the rights of students and their parents. This new seventh edition has been extensively updated with the latest research and changes to the law, with an increased focus on ethical-legal considerations associated with the use of digital technologies. Coverage includes new case law on privacy rights, electronic record keeping, the 2014 Standards for Educational and Psychological Testing, digital assessment platforms, the latest interpretations of the Individuals with Disabilities Education Act, and more. Ethics texts for counseling and psychology are plentiful, and often excellent—but this book is the only reference that speaks directly to the concerns and issues specific to psychologists in school settings. Case vignettes, end-of-chapter questions, and discussion topics facilitate deeper insight and learning, while updated instructor's resources bring this key reference right into the classroom. Keeping up with the latest research and legal issues is a familiar part of a psychologist's duties, but a practice centered on children in an educational setting makes it both critical and more complex. Ethics and Law for School Psychologists provides a central resource for staying up to date and delivering ethically and legally sound services within a school setting.

This introduction to personal counselling is a comprehensive, easy to read volume for professional and volunteer counsellors and those who train them. This book is an excellent complement to practical training courses in counselling, social work, psychology, welfare or nursing - in fact it is invaluable for any community worker wishing to develop practical interpersonal skills.

This revised first edition is a comprehensive, easy-to-read introduction to personal counseling written for professional and volunteer counselors and those who train them. A major new addition to the book, making it particularly attractive to those who train counselors, is the inclusion of training group exercises for all skills chapters. After reading a particular chapter, the exercises relating to that chapter, in part VI of the book, can be used by trainers to greatly enhance the learning process. These exercises have been found to be popular with both students and those teaching them. The chapters describing basic and more advanced counseling skills are arranged in a sequence that is particularly suitable when teaching student counselors to learn and practice using these skills for the first time. The authors adopt an integrative approach that allows the reader to learn, understand, and use skills taken from major counseling approaches, and to integrate these into a sequential process that maximizes the possibility of facilitating change in clients. Of considerable value for new counselors are those sections of the book that describe the fundamental principles of the counseling relationship, and explain the theories of change applicable to the various approaches to counseling. Unique features include: a highly practical integrative approach; discussion of the specific skills required for success; practical suggestions on ways to learn and develop new skills; an understanding of the role of a counselor's supervisor; information on practical issues such as keeping records, arrangement of the counseling room, and ways to look after yourself as a counselor; plus practical information on issues of confidentiality and professional ethics. The text will serve as a valuable resource for workers in a wide variety of helping professions where counseling skills are useful, such as psychology, social work, welfare work, medicine, nursing, human services, and education.

?As a counsellor, supervisor and trainer I find this book such an excellent resource. It is invaluable in my teaching as well as supporting learning in supervision. Culley and Bond use their extensive experience as practitioners to demystify potentially complex ideas, instead presenting them in an accessible and engaging way. Counselling skills are described clearly and case study material is relevant to practice. The third edition brings new and contemporary content that further enhances the value of the book. Integrative Counselling Skills in Action, third edition, is a bestselling introduction to the core counselling skills. It takes you step-by-step through the skills and strategies needed at each

stage of the counselling process -- beginning, middle and end - using illustrative case examples and providing practical checklists and summaries. New to the third edition: · Negotiating and managing a counselling contract · Using self-disclosure · Preparing for and using supervision · An example of supervision included in extended case study · A new preface Integrative Counselling Skills in Action is used by many thousands of students and practitioners who need guidance on using counselling skills in a variety of helping settings.

Most traditional couple therapy models are based on the Eurocentric, middle-class value system and are not effective for today's psychotherapists working in multicultural settings. Multicultural Couple Therapy is the first "hands-on" guide for integrating couple therapy with culture, race, ethnic identity, socioeconomic status, religious beliefs, sexual orientation, and immigration experiences. The editors and a culturally diverse group of contributors follow a common outline of topics across chapters, related to theory, research, practice, and training. They report on the application of major evidence-based models of couple therapy and demonstrate the integral role played by contextually based values involved in relationships, conflict, and resolution. Key Features Presents a multiperspective approach that focuses on specific cultural issues in couple therapy Creates a cultural context for couples to help readers better understand key issues that affect relationships Features a series of compelling "Case Examples" from the authors' personal therapeutic experience in treatment with couples from diverse backgrounds Includes "Additional Resource" sections, including suggested readings, films, and Web sites, as well as experiential exercises and topics for reflection Intended Audience This groundbreaking book provides an in-depth resource for clinicians, supervisors, educators, and students enrolled in courses in couple therapy, marriage and family therapy, and multicultural counseling who are interested in how diverse clients define conflicts and what they consider to be functional solutions.

In this Third Edition of their bestselling text, Kathryn Geldard and David Geldard provide a practical introduction to the principles and practices required for successful counseling, to show that working with young people can be both challenging and effective. The Third Edition has been completely revised and updated, and includes two new chapters. The book is divided into three main parts, covering: How to understand the young client as a person The pro-active approach of working with young people The counseling skills and strategies needed

Readers will be introduced to the three core approaches of counselling, coaching and mentoring, and shown how they work across a variety of settings, including therapy, teaching, social work and nursing. Part 1 takes readers through the theory, approaches and skills needed for helping work, and includes chapters on: The differences and similarities of counselling, coaching and mentoring Foundational and advanced skills for effective helping Supervision and reflective practice Ethical helping and working with diversity Part 2 shows how helping skills look in practice, in a variety of different helping professions. 10 specially-written case studies show you the intricacies of different settings and client groups, including work in schools, hospitals, telephone helplines and probation programs.

Counselling and Supporting Children and Young People is the ideal introduction to counselling and supporting children and young people. Taking a person-centered approach, Mark Prever offers readers a clear understanding of the theory and practice of working with children and young people in difficulty – whether in a therapeutic, school or social work setting. This practical text: specifically addresses both the counsellor and the 'helper', who may be unfamiliar with counselling jargon contains exercises, points for further thought and discussion, and boxed notes throughout, highlighting exactly how the theory applies to the child or young person discusses ethics, the current political agenda and evidence-based practice This book is a must-read for trainees and professionals working with children and young people in the fields of counselling and psychotherapy, education, mental health, nursing, youth work and social work.

The book does provide an excellent resource offering a holistic and flexible approach and a variety of techniques. These provide a useful toolkit of practitioners working closely with young people. However its core readership is counsellors with young people. Though there are now many different kinds of counselling leading to qualification (and careful selection is necessary), there are few that are particularly oriented towards counselling young people. Counselling Adolescents goes a good way towards filling that gap. It will be an effective support to the professional counselor working with young people. In fact many wonder how they functioned without it!? - Youth & Policy This book is a useful text for professionals with knowledge of counselling skills, and the ideas are well presented. The book gave me the opportunity to question my counselling skills, especially with regard to adolescents, and in so doing identify areas for progression and further training? - Emotional & Behavioural Difficulties Counselling Adolescents, Second Edition includes two new important chapters. The first discusses how counsellors can make use of adolescent communication processes. Counsellors who understand these processes are better equipped to connect with young clients. The second new chapter explores the way in which the psychotherapeutic process can promote change in adolescents. The authors suggest that to be an effective counsellor of young people, these processes need to be fully understood. The book closes with practical case studies to show how counsellors can work pro-actively with adolescents. This book will be invaluable to those working with emotionally distressed adolescents, and will provide an excellent resource for students and professionals working in a range of helping professions. When it comes to working with adolescents in a therapeutic setting, counsellors are divided. Some work exclusively with adolescents in a successful and fulfilling way, however, others find it difficult to work with them. In this new edition of Counselling Adolescents, Kathryn and David Geldard provide a practical introduction to the principles and practices required for successful counselling, to show that working with adolescents can be both challenging and effective. The book is divided into three main parts, covering: - how to understand the adolescent as a person - the pro-active approach of working with adolescents - the counselling skills and strategies needed. This book is an empirical study of naturally occurring interaction between child counselling professionals and young children experiencing parental separation or divorce. Based on tape recordings of the work of a London child counselling practice, it offers the reader a unique and sustained look inside the child counselling consultation room at the talk that occurs there. The book uses conversation analysis against a backdrop of sociological work in childhood and family studies to situate the discourse of child counselling at an interface between the increasing incitement to communicate in modern society, the growing recognition of children's social competence and agency, and the enablements and constraints of institutional forms of discourse participation. Chapters include overviews of recent developments in the sociology of childhood and the sociolinguistics of children's talk; conversation analysis and institutional discourse; and detailed empirical studies of the linguistic techniques by which counsellors draw out children's concerns about family trauma and the means by which children, through talking and avoiding talking, either cooperate in or resist their therapeutic subjectification. This book will be of interest to readers in counselling psychology and practitioners of child counselling; to researchers and advanced students in social psychology, sociology and sociolinguistics; and to others interested in childhood and family studies, interactionism, qualitative methodology and conversation analysis.

This is a comprehensive course text for training new counsellors in basic and more advanced counselling micro-skills which come from a number of therapeutic approaches. The book enables new trainees to learn how to make informed choices about the type of skill to use and how to integrate it within a sequential counselling process. It discusses practical issues including ethics and culture, record-keeping, supervision, and the counselling environment, and offers explanation of the therapeutic approaches related to particular micro-skills and the ways to best combine them to facilitate change and provide effective practice. This accessible introduction to counselling skills is essential reading for teachers and trainees alike, an excellent course text for training new counsellors from a number of theoretical approaches.

The discipline of school psychology has been shaped over the course of its existence by a series of professional and scientific controversies, and by how researchers and practitioners have responded to those controversies. Should there be an entry-level degree requirement for school psychologists? What should a school psychologist's role be with regard to student mental health? Should school psychologists work outside of school settings? Designed for students entering school psychology training programs, *Introduction to School Psychology: Controversies and Current Practice* examines the debates that have influenced the nature and scope of the profession, and that continue to do so today. This edited textbook is divided into five sections, the first of which describes current practices. The second offers coverage of ethics and relevant legal concerns for school psychologists; cultural competence; and consultation. The third section provides readers with the theoretical foundations of practice and includes a brief chapter on theoretical orientations. The fourth and largest section of the book examines the controversies that shape practice, presenting chapters on idiographic and nomothetic approaches; diagnostic frameworks; assessment and treatment of behavioral disorders; and much more. The final section of the book focuses on contexts and the future of the profession, with chapters on practice in urban and rural communities, technology, and the Futures Conferences.
