

Go Microsoft Office 2013

Visual QuickStart Guides, designed in an attractive tutorial and reference format, are the quickest, easiest, and most thorough way to learn applications, tasks, and technologies. The Visual QuickStart Guides are a smart choice and guide the learner in a friendly and respectful tone. Visually presented with copious screenshots, the focused discussions by topic and tasks make learning a breeze and quickly take you to exactly what you want to learn. Microsoft Office 2013: Visual QuickStart Guide, written by best-selling author Steve Schwartz, has been extensively rewritten to provide expanded coverage of the core Office applications: Word, Excel, PowerPoint, and Outlook, provides in-depth instructions on many of the new features and changes introduced in Office 2013, and offers a thorough introduction to the Office Web Apps. Coverage of each application is jam-packed with information and tips that not only explain HOW to perform a task, but WHY you need this procedure and WHEN it's best to use it. Includes eBook In addition to concise, step-by-step explanations of core tools and tasks, with plenty of helpful screen shots to keep you on track as you work, Microsoft Office 2013 for Windows: Visual QuickStart Guide includes the eBook. You can download digital versions of this book to load on the mobile device of

This complete training package makes learning the new Office 2013 even easier! Featuring both a video training DVD and a full-color book, this training package is like having your own personal instructor guiding you through each lesson of learning Office 2013, all while you work at your own pace. The self-paced lessons allow you to discover the new features and capabilities of the new Office suite. Each lesson includes step-by-step instructions and lesson files, and provides valuable video tutorials that complement what you're learning and clearly demonstrate how to do tasks. This essential training package takes you well beyond the basics in a series of short, easy-to-absorb lessons. Takes you from the basics through intermediate level topics and helps you find the information you need in a clear, approachable manner Walks you through numerous lessons, each consisting of easy-to-follow, step-by-step instructions in full color that make each task less intimidating Covers exciting new features of Office 2013 applications: Word, Excel, PowerPoint, Outlook, and Publisher Features a companion DVD that includes lesson files and video tutorials for a complete training experience Shares additional resources available on companion website: www.digitalclassroombooks.com This all-in-one,

value-packed combo teaches you all you need to know to get confidently up and running with the new Office 2013 suite!

Timothy and Linda O'Leary Microsoft Office 2013: A Case Approach Making Office Relevant Timothy and Linda O'Leary and the Computer Information Technology Team at McGraw-Hill Higher Education offer your students a fully integrated learning program with time-tested quality and reliability. Office 2013: A Case Approach offers a running case study throughout the text to help students understand the material in a consistent, relevant environment.

Through the theme "Making Office Relevant," this text helps students understand why they need this course and skills. Updated for Office 2013, student success is assured through clear step-by-step instruction, plentiful screen captures, and conceptual explanations. Each lab, designed to be covered in 1 hour of class time, combines conceptual coverage with detailed software-specific instructions. The labs opens with a running case study that highlights real-world applications of each software program and leads students from problem to solution. The O'Leary Series helps students learn specific applications skills along with skills that cross all Office applications, which is especially important in mastering this version of Office. The O'Leary Series correlates with SIMnet Online, McGraw-Hill's online training and assessment program for Microsoft

Read Book Go Microsoft Office 2013

Office skills and basic computer concepts. Projects, however, are 1:1 within the SIMgrader component and allow students to practice their skills live in the Office application to receive immediate feedback via autograding. This integration with SIMnet helps meet the diverse needs of students and accommodate individual learning styles. Additional textbook resources can be found on the text's Online Learning Center: www.mhhe.com/olearyoffice2013. For more information on O'Leary; Microsoft Office 2013: A Case Approach and SIMnet Online for Office 2013, please visit www.simnetkeepitsimple.com or contact your McGraw-Hill representative.

For use in the Office Applications course Teach the course YOU want in LESS TIME! The primary goal of the GO! You will also be able to capitalize on the great opportunity of sharing your documents with your friends, family or colleagues as you get your most important tasks done with easy and great new features.

Discover tips and trick for Dynamics NAV report

building About This Book Create and customize reports in Dynamics NAV 2015 using RDLC, Word, Power BI, and Reporting Services Work with different elements in the toolbox such as tablix, which can be used as a List, Table, or Matrix and understand the differences between them and when to use which This book is a pragmatic guide with clear instructions and real-world examples to teach you about the reporting capabilities of Dynamics NAV 2015 Who This Book Is For If you are a consultant, developer, customer, user, or just interested in the reporting capabilities of Dynamics NAV, then this book is for you. Basic knowledge of Dynamics NAV will be helpful. What You Will Learn Understand why reports are designed in a specific way and then apply this knowledge to your advantage Develop document reports using different techniques Apply filtering and sorting, and create groups Use RDLC to visualize information Visualize information, KPIs, and trends using expressions, Gauges, Charts, Data bars, Indicators, and Spark lines Create and optimize your dataset for RDLC and for Word layouts Use Power BI with Dynamics NAV to bring your data to life Build Reporting Services reports on top of Dynamics NAV In Detail Microsoft Dynamics NAV is a multi-lingual, multi-currency business management solution that organizations use to manage their accounts, supply chain, sales, payroll, and HR. It is an ERP tool for organizations

that is fast to implement, easy to configure, and simple to use. It is widely used because simplicity is a part of its development, product design, usability, and implementation. This book will help you to master, analyze, and deliver the most challenging reporting requirements in Dynamics NAV 2015. The book starts by explaining report development and its different phases such as data model, layout, and testing you go through. It introduces you to RDLC and the different controls in the toolbox, such as the Tablix, in its many forms. You will learn to use expressions to make your layout dynamic and to overcome typical problems. Moving on, the book will teach you to visualize data and be able to understand and read a report as it is intended. You will also learn to use Microsoft Word to create a layout for a report. With Power BI and Power Pivot, Power View, and Power Map, you will learn how easy and powerful it is to bring your data to life, so you can spot trends and perform in depth analysis of your business. Reporting Services is also explained as another way that you can apply the knowledge you have about RDLC to build RDL layouts outside of Dynamics NAV. By the end, you will create different types of charts so you can visualize key performance indicators inside the Dynamics NAV application. Style and approach This book is an essential guide in to understanding what is involved in creating reports in Dynamics NAV and its

reporting capabilities.

Both an unparalleled reference and an exceptionally practical deskside resource, Office 2013 In Depth is the beyond-the-basics, beneath-the-surface guide for Office 2013 users who wants to maximize their productivity. ¿ Renowned Office 2013 expert and college instructor Joe Habraken delivers specific, proven solutions through a task-based approach that introduces features within the context of how they are used in the real world. Throughout, Habraken illuminates the most valuable new features in Word, Excel, PowerPoint, Outlook, and Publisher. ¿ Straightforward and conversational, Office 2013 In Depth presents comprehensive coverage, breakthrough techniques, exclusive shortcuts, quick access to information, troubleshooting help for tough problems, and real-world examples with nothing glossed over or left out. Packed with insights, techniques, tips, and shortcuts, it's all you need to master all these programs: Word 2013, Excel 2013, PowerPoint 2013, Outlook 2013, Publisher 2013, and OneNote 2013! ¿

For use in the Office Applications course. This book is also suitable for students and individuals seeking an introduction to Microsoft Office 2013. The primary goal of the GO! PowerPoint, and keep it all organized with Outlook. With additional books covering Access, OneNote, and common Office tasks, this is the only Office book you need on your shelf. Get insight into tools common to all Office applications Find full coverage of Word, Excel, PowerPoint, Outlook, and Access Benefit from updated information based on the newest software release Discover the tricks Office pros use to enhance efficiency If you need to make sense of Office 2019 and don't have time to waste, this is the all-in-one reference you'll want to keep close by!

ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. Packages Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase. Used or rental books If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code. Access codes

Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase. --

This year, millions of beginner-to-intermediate-level users will be searching for the easiest possible way to master Office 2013's new features. If you're one of them, Easy Office 2013 will give you exactly what you're looking for. This full-color, utterly simple, step-by-step tutorial is carefully crafted to provide instant access to the 100+ tasks you'll find most useful and valuable. Like all Easy series books, it teaches visually: you're never forced to work through lengthy text explanations. Its large typeface makes it even more accessible to all readers - especially senior readers whose needs are disregarded by most computer books. Written by two of the world's most experienced authors of Microsoft Office books for beginners, Easy Office 2013 presents the easiest, fastest, most direct procedures for getting the results you're looking for. Learn how to...

- * Get super productive with Office 2013's powerful new tools
- * Create, edit, and read Office files on the Web and mobile devices
- * Craft high-impact documents with powerful visuals
- * Prepare and analyze data visually with Excel charts and PivotTables
- * Make winning presentations with PowerPoint's new tools; even add audio and video
- * Work with others to review and refine your documents
- * Use Outlook to take

control of your messages, schedules, and tasks *

Take notes anywhere with OneNote: never forget a great idea again! * Publish Office content straight to Facebook, Twitter, or LinkedIn * And more

This Microsoft Excel 2013, Exam 77-420 book is the only Microsoft Official Academic Course (MOAC) textbook. This series includes a complete classroom instructional program. This Excel 2013 text is mapped to the Excel 2013 certification exam objectives and is designed to re-enforce workforce skills. With this book students learn to create and edit professional-looking spreadsheets for a variety of purposes and situations. It also covers such skills as charting, creating analytical, financial reports, data entry, developing budgets, formatting numerical (financial, statistical, etc.) reports, creating forms, graphing, processing data, reporting, technical support, trending and much more. The Microsoft Official Academic Course (MOAC) Office series also offers OfficeGrader. This valuable tool corrects your students tasked-based assignments. Students work on real-world problems like the ones they will encounter in the workforce ensuring they are ready for real professional challenges. OfficeGrader allows for efficient and consistent grading saving time for other important teaching activities. Grading is easier than ever allowing faster assignment turnaround to students. Excel 2013 certification can help students with classwork and differentiate job hunters in today's

competitive job market. Students who have earned certification can broaden their employment opportunities in such fields as accounting, office administration, consulting, as executives and managers, help desk personnel, instructors/trainers, program/project managers, and sales careers.

PowerPoint 2016 is a presentation program that presents information in the form of slides. This program is developed by Microsoft and was originally called “Presenter” released by another

company Forethought Inc. It was originally launched in May 1990 and was and always been a part of the Microsoft Suite. It is popularly known as a program that helps users to develop slide based presentations and is currently the most used presentation program in the world. The purpose of this guide is to introduce users to the latest version of the Microsoft PowerPoint program. Reviews on the newest issue, purport that it is new and improved; boasting redesigned and creative features. The manual will first look at the genesis of the program's manufacturer; Microsoft Inc. The Microsoft Office suite and its foundation and subsequent growth will then be discussed followed by growth of the actual PowerPoint program. This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Teach the course YOU want in LESS TIME! In today's fast-moving, mobile environment, the GO! with Office 2016 series focuses on the job skills needed to succeed in the workforce. With job-related projects that put Microsoft Office® into context, students learn the how and why at the moment they need to know, all in the appropriate Microsoft procedural syntax. For Office 2016, the hallmark guided-practice to skill-mastery pathway is better than ever. Students have many opportunities to work live in Microsoft office to apply the skills

they've learned. In addition, instructional projects are now available as grader projects in MyITLab, so students can work live in Office while receiving auto-graded feedback. These high-fidelity simulations match the text and provide an effective pathway for learning, practicing, and assessing their abilities. After completing the instructional projects, students can apply their skills with a variety of progressively challenging projects that require them to solve problems, think critically, and create on their own. New GO! Collaborate with Google projects allow students to apply their skills to a new environment that is already popular in many workplaces. Integrated Microsoft Office Specialist (MOS) objectives make GO! your one resource for learning Office, gaining critical productivity skills, and prepare for MOS certification. Also available with MyITLab MyITLab® is an online homework, tutorial, and assessment program designed for Information Technology (IT) courses, to engage students and improve results. HTML5 Simulation exercises and Live-in-Application Grader projects come with the convenience of auto-grading and instant feedback, so students learn more quickly and effectively, and build the critical skills needed for college and career success. ebook version.

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. GO! with Office 2013 is the right solution for students in today's fast-moving, mobile environment. The GO! Series content focuses on the real-world job skills students need to succeed in the workforce. They learn Office by working step-by-step through practical job-related projects that put the core functionality of Office in context. And, as has always been true of the GO! Series, students learn the important concepts when they need them, and they never get lost in instruction, because the GO! Series uses Microsoft procedural syntax. Students learn how and learn why—at the teachable moment. After completing the instructional projects, students are ready to apply the skills in a wide variety of progressively challenging projects that require them to solve problems, think critically, and create projects on their own. And, for those who want to go beyond the classroom and become certified, GO! provides clear MOS preparation guidelines so students know what is needed to ace the Core exam!

Teaching and Learning Experience This program will provide a better teaching and learning experience—for educators and students. Here's how:

Personalize Learning: MyITLab delivers proven results in helping students succeed, provides engaging experiences that personalize learning, and comes from a trusted partner with educational expertise and a deep commitment to helping students and instructors achieve their goals.

Engage Students with a Project-Based Approach: GO!'s project-based approach teaches students to solve real problems as they practice and learn the features.

Motivate Learning with Clear Instruction: Based on professor and student feedback, this text has been designed to offer clear instruction for full student comprehension.

Note: You are purchasing a

standalone product; MyITLab does not come packaged with this content. If you would like to purchase both the physical text and MyITLab, contact your Pearson representative.

MyITLab is not a self-paced technology and should only be purchased when required by an instructor.

Teach the course YOU want in LESS TIME! In today's fast-moving, mobile environment, the GO! with Office 2016 series focuses on the job skills needed to succeed in the workforce. With job-related projects that put Microsoft Office® into context, students learn the how and why at the moment they need to know, all in the appropriate Microsoft procedural syntax. For Office 2016, the hallmark guided-practice to skill-mastery pathway is better than ever. Students have many opportunities to work live in Microsoft office to apply the skills they've learned. In addition, instructional projects are now available as grader projects in MyITLab, so students can work live in Office while receiving auto-graded feedback. These high-fidelity simulations match the text and provide an effective pathway for learning, practicing, and assessing their abilities. After completing the instructional projects, students can apply their skills with a variety of progressively challenging projects that require them to solve problems, think critically, and create on their own. New GO! Collaborate with Google projects allow students to apply their skills to a new environment that is already popular in many workplaces. Integrated Microsoft Office Specialist (MOS) objectives make GO! your one resource for learning Office, gaining critical productivity skills, and prepare for MOS certification. Also available with MyITLab MyITLab® is an online homework, tutorial, and assessment program designed for Information Technology (IT) courses, to engage students and improve results. HTML5 Simulation exercises and Live-in-Application Grader projects come with the convenience of auto-grading and instant feedback, so students learn more quickly and
