The shocking and affecting memoir from a gold-star widow searching for the truth behind her Green Beret husband's death, this book bears witness to the true sacrifices made by military families. When Green Beret Bryan Black was killed in an ambush in Niger in 2017, his wife Michelle saw her worst nightmare become a reality. She was left alone with her grief and with two young sons to raise. But what followed Bryan's death was an even more difficult journey for the young widow. After receiving very few details about the attack that took her husband's life, it was up to Michelle to find answers. It became her mission to learn the truth about that day in Niger--and *Sacrifice* is the result of that mission. In this heartbreaking and revelatory memoir, Michelle uses exclusive interviews with the survivors of her husband's unit, research into the military leadership and accountability, and her own unique vantage point as a gold-star widow to tell a previously unknown story. *Sacrifice* is both an honest, emotional look inside a military marriage and a searing investigation of the people and decisions at the heart of the US military.

Of the approximately 20 million veterans of the U.S. armed forces, less than half utilize the Veteran's Health Administration health care system. That means the majority of veterans are receiving care from nurses and healthcare professionals who may not be trained in treating or caring for patients who have served in the military. This unique book guides nurses and healthcare professionals through the specific needs veterans can present, including but not limited to PTSD. Topics covered include, defining military culture and how to apply that knowledge to provide informed treatment, transitioning from service to civilian life and the many challenges expected during re-adjustment and re-entry, recognizing and treating substance use disorders, identifying suicidal behaviors and warning signs, long-term care for elderly veterans, and many more topics unique to the

This book provides an accessible guide to price index and hedonic techniques, with a focus on how to best apply these techniques and interpret the resulting measures. One goal of this book is to provide first-hand experience at constructing these measures, with guidance on practical issues such as what the ideal data would look like and how best to construct these measures when the data are less than ideal. A related objective is to fill the wide gulf between the necessarily simplistic elementary treatments in textbooks and the very complex discussions found in the theoretical and empirical measurement literature. Here, the theoretical results are summarized in an intuitive way and their numerical importance is illustrated using data and results from existing studies. Finally, while the aim of much of the existing literature is to better understand official price indexes like the Consumer Price Index, the emphasis here is more practical: to provide the needed tools for individuals to apply these techniques on their own. As new datasets become increasingly accessible, tools like these will be needed to obtain summary price measures. Indeed, these techniques have been applied for years in antitrust cases that involve pricing, where economic experts typically have access to large, granular datasets.

My Haunted Chicago book series turns 10 years old this year (Oct 2015) and as part of that celebration I'm releasing this fan requested special edition ahead of the regular release due out later this year. For years you people have asked for a family friendly entry into this series, so here it is... almost completely devoid of my wit, charming personality, twisted sense of humor and wicked commentary... in short a Dead Lee book without Dead Lee. To achieve this, this book has been aggressively edited down to a rather anemic 88 locations and 317 pages. Outside of a few stray words here and there, this is as close to family friendly as I can get.

This one-of-a-kind reference investigates the music and the musicians that set the popular trends of the last half century in America.

- Provides a selected discography and bibliography for further listening and reading for each entry
- Covers a wide variety of styles from classic rock to surf rock to hip hop
- Features sidebar entries which tie together larger popular music concepts such as the rise and influence of MTV and the phenomenon of girl bands

selling debut album Look At Us spent 8 consecutive weeks at #2 on the Billboard 200 and was one of 14 hit albums by the duo - the epitome of "super-couple". Later honoured with a Hollywood Walk of Fame star for their television work, the often-controversial tabloid-favourites - whom had undisputed significance in Phil Spector's success and the folk-rock era - also put their stamp on variety show history with their much-loved 1970's The Sonny & Cher Comedy Hour, which received 19 Emmy Award nominations. Due to the late-Sonny's conspicuously-crafted hits still being re-issued and played or imitated on TV shows such as The Simpsons, Mad Men, The Big Bang Theory and American dad!, and Cher's outstandingly-successful career still going strong in 2016 - plus son Chaz Bono's colossal amount of column inches - the beat goes on for this legendary duo....
