This Pulitzer Prize-winning author's true account of the thief behind the famed 1972 heist is "an engrossing crime biography and a fast-paced romp" (Kirkus Reviews). Growing up in Rochester, New York, Bobby Comfort wanted to be a good something. He turned out to be great at being a criminal. In January 1972, men in tuxedos robbed the Pierre, the luxurious Manhattan hotel, and got away with eleven million dollars' worth of cash and jewelry. The police were baffled by how such a large-scale operation could go off so smoothly. The answer lay in the leader of the thieves, a man by the name of Bobby Comfort. He had taken to crime from a young age with card sharpening and petty theft. Eventually, taking money from the rich was where he excelled. Sort of like Robin Hood—except for the part where he kept the loot himself—Comfort masterminded what was, at the time, the most lucrative heist in history, while appearing to his neighbors like an ordinary suburban family man. In this blend of insightful biography and true crime, Pulitzer Prize-winning journalist Ira Berkow chronicles the story, using first-hand accounts to weave together a fascinating portrait of a criminal and "a corking good cops-and-robbers tale" (Library Journal).

Making Peace with God and Money This is not a book about how to make money ... or spend it ... or give it away. Rather, it's a book for anyone who has ever worried about money -- about having enough -- and it begins with a startling assumption: No amount of money will ever lift your anxiety. This may seem counterintuitive, but in Gregory Jeffrey we have an experienced guide. With degrees in business and theology, he has worked as a development consultant for two decades. In meeting with thousands of individuals to ask their support for various causes, he discovered -- to his amazement -- that some people with millions worried constantly about money; others, of very modest means, seemed immune. Apparently, making peace with money entails something other than money. This insight led Jeffrey to question every fundamental assumption we hold about wealth. With warmth, humor, and a writing style as simple as the Dakota prairie he grew up on, he offers a unique perspective on the interplay between our spiritual and financial lives. Rich with images, stories, and compassion for the millions now burdened with financial worries, Jeffrey teases out what is required of the soul who wishes to be free of anxiety. "Practical and timely, this book...will challenge you to grow in wisdom, trust, frugality, and generosity." -- Scott Hahn, best-selling author, speaker, and Scripture scholar "In striving for holiness, conversion is needed in all parts of our lives. Jeffrey goes to that place rarely examined: the intersection where wealth and God meet, and often come into conflict. As a remedy and balm, he shares with visual examples and heartwarming stories a sobering insight: to be at peace with money, you must first be at peace with God." -- The Most Reverend Samuel J. Aquila, Bishop of Fargo

This book focuses on the problem of moving in a cluttered environment with pedestrians and vehicles. A framework based on Hidden Markov models is developed to learn typical motion patterns which can be used to predict motion on the basis of sensor data.

What makes you passionate about working with SQL Server? What lessons have you learned, perhaps the hard way, on how to get the best performance and scalability out of your SQL Server databases? We challenged a group of talented, up-and-coming 'new voices' in SQL Server to share their passion and knowledge with the Community. A DBA's core responsibilities are constant. A DBA must maintain and enforce security mechanisms on the data, prepare effectively for disaster recovery, ensure the performance and availability of all the databases in their care. As such, we have chapters providing tips on how to get the most out of features such as data compression, backup verification, performance tuning with traces and extended events, auditing, SSIS, and more. Side by side with these, we have chapters on the importance to a DBA of communicating clearly with their co-workers and business leaders, presenting data as useful information that the business can use to make decisions, adopting a more Agile approach to their work, and sound project management skills. The resulting book, *Tribal SQL*, is a reflection of how a DBA's core and long-standing responsibilities sit alongside new thinking and fresh ideas about where the DBA role is going, and what it means to be a DBA in today's businesses.

Newlywed vampires Sarah and Thierry de Bennicoeur have their whole undead lives ahead of them. And with Thierry's job as a consultant for the Ring sending them across the globe to solve one vampire crisis after another, eternity may never have a dull moment. Sarah was hoping the honeymoon would literally last forever, but when Thierry receives a mysterious invitation to an auction held in an old Beverly Hills mansion, it's clearly time to get back to work. Thierry hopes to win a powerful amulet containing a wish-granting djinn that has eluded him for centuries. Unfortunately, Atticus Kincade, head of the vampire council, also has his eye on the item. When the auction's host reveals his unpleasant history with Thierry, and Sarah discovers a talking head in the freezer, things get even weirder than usual. But when the amulet goes missing, and everyone is suddenly trapped inside the mansion, the undead guests find themselves in mortal danger—and Sarah had better be careful what she wishes for.

There are an estimated 600,000,000 passenger cars in the world, and that number is increasing every day. So too is Earth's supply of parking spaces. In some cities, parking lots cover more than one-third of the metropolitan footprint. It's official: we have paved paradise and put up a parking lot. In *ReThinking a Lot*, Eran Ben-Joseph shares a different vision for parking's future. Parking lots, he writes, are ripe for

transformation. After all, their design and function has not been rethought since the 1950s. With this book, Ben-Joseph pushes the parking lot into the twenty-first century. Ben-Joseph shows that parking lots can be aesthetically pleasing, environmentally and architecturally responsible, and used for something other than car storage. He introduces us to some of the many alternative and nonparking purposes that parking lots have served -- from RV campgrounds to stages for "Shakespeare in the Parking Lot." He shows us parking lots that are lushly planted with trees and flowers and beautifully integrated with the rest of the built environment. With purposeful design, Ben-Joseph argues, parking lots could be significant public places, contributing as much to their communities as great boulevards, parks, or plazas. For all the acreage they cover, parking lots have received scant attention. It's time to change that; it's time to rethink the lot.

This book reinforces the need for understanding and support for children with dyslexia from parents and teachers, but also the importance of the children's own understanding of their strengths and weaknesses in order to fulfil their potential. It should be recommended reading for all those involved in dyslexia. - Professor Angela Fawcett, Director of the Centre for Child Research, Swansea University What is it like living with dyslexia on a day-to-day basis? Based on interviews with dyslexic children and their families, this insightful book presents first-hand accounts of how dyslexia affects the children themselves and the people around them. *Living with Dyslexia, Second Edition* places the original fascinating findings within the context of current research and practice in the UK, Europe, Australia and the USA. The author: examines issues of confidence and self-esteem; explores the coping strategies adopted by children and adults with dyslexia; investigates the concept of dyslexia-friendly schools; studies how children were first identified as having dyslexia, and the social and emotional difficulties they encountered; offers guidance on how teachers and parents can best support children with specific learning difficulties; considers the cognitive, educational, social and emotional perspectives in order for teachers and parents to gain a better understanding of dyslexia. This new edition provides an updated account of cognitive research and examines important changes in relation to Special Educational Needs policy and practice in the last ten years, including the Revised SEN Code of Practice (2001), *Removing Barriers to Achievement* (2004) and the National Literacy Strategy (2006). *Living with Dyslexia* recognises that the voices of children with dyslexia are increasingly important in developing good educational practice and makes an important contribution to the literature on dyslexia.

Funny, thought-provoking, and incredibly disturbing, *Slow Death by Rubber Duck* reveals that just the living of daily life creates a chemical soup inside each of us. Pollution is no longer just about belching smokestacks and ugly sewer pipes - now, it's personal. The most dangerous pollution has always come from commonplace items in our homes and workplaces. Smith and Lourie ingested and inhaled a host of things that surround all of us all the time. This book exposes the extent to which we are poisoned every day of our lives. For this book, over the period of a week - the kind of week that would be familiar to most people - the authors use their own bodies as the reference point and tell the story of pollution in our modern world, the miscreant corporate giants who manufacture the toxins, the weak-kneed government officials who let it happen, and the effects on people and families across the globe. Parents and concerned citizens will have to read this book. Key concerns raised in *Slow Death by Rubber Duck*: • Flame-retardant chemicals from electronics and household dust polluting our blood. • Toxins in our urine caused by leaching from plastics and run-of-the-mill shampoos, toothpastes and deodorant. • Mercury in our blood from eating tuna. • The chemicals that build up in our body when carpets and upholstery off-gas. Ultimately hopeful, the book empowers readers with some simple ideas for protecting themselves and their families, and changing things for the better.

The witchfinder stood on the edge of the square at some distance from the burning stake, savouring his moment of triumph. He saw those witches fly. Did the crowds notice? No! Elspeth, her beauty melting before their eyes as if she were a fragrant candle, charmed them. But Matthew saw. He knew Elspeth survived. Wherever she is, he will find her. He will hunt her down, and one will die. Their soul cast down. It is his solemn vow. He will not suffer a witch to live. She rose with the hot swirling smoke, and tumbled through the centuries, from the clear cool air. All Hallows' Eve looms. A special day when the veil lifts and Elspeth has organised a party . . . A bewitchingly dark fairy tale set in the seventeenth and twenty-first centuries, Somerset.
