When the world emerges from the current recession will you be the poorer for lack of experience? Having gone through your perceived necessary downsizing, have you left yourself wide open for experience-poor competitors to step into your experience-rich shoes? And if creeping uncompetitiveness is not to overtake you, from where will your next round of productivity gains come? Could it be that the developed world is wrecking its future for the lack of attention it is giving to preserving and applying its hard-won and expensively-acquired organisational memory (OM)? Without its tried and tested experience, the corporate body can't learn incrementally. The result? Having to re-invent the wheel, risk repeating mistakes and even not learning from successes. Corporate amnesia is the symptom. Experiential non-learning is the problem. And is not the current credit crunch a prime example? Identifying some gaping holes in the way modern walkabout managers are taught to make decisions, Corporate DNA outlines both the size of the problem and a solution - and surprise, surprise, it's not rocket science or expensive.

Landmark Cases in Public Law answers the need for an historical examination of the leading cases in this field, an examination which is largely absent from the standard textbooks and journal articles of the day. Adopting a contextualised historical approach, this collection of essays by leading specialists in the field provides both an explanation of the importance and impact of the chosen decisions, as well as doctrinal analysis. This approach enables each author to throw light on the driving forces behind the judicial outcomes, and shows how the final reasoning of the court was ultimately as much dependent upon such human factors as the attitudes, conduct, and personalities of the parties, their witnesses, their counsel, and the judges, as the drive to seek legal realignment with the political developments that were widely perceived to be taking place. In this way, this form of analysis provides an exposition of the true stories behind these landmark cases in public law.
