Written especially for professionals in nonprofit organizations, this is a comprehensive, step-by-step guide to finding funds for programs and writing effective grant proposals. The author bases her work on 10 years of experience in successful funding and teaching in the nonprofit sector. She takes the reader through every phase of the funding and grant writing process. Notable for its comprehensive coverage and practical hands-on orientation to the subject, the book is also distinguished by its coverage of the specific areas of program planning and evaluation, topics usually ignored in other works on grant writing. Following an overview of the basic funding strategies, Gilpatrick moves to a sequential discussion of the various aspects of the grant writing process. Of particular help are detailed case examples showing the application of the manual's principles in real situations. The author follows five project ideas, taken from a broad range of nonprofit organizations, from the initial idea to the final proposal. She presents strategies on finding funding sources and writing proposals and includes a set of cumulative writing steps that build toward the final application for funding. In addition, the guide

provides, for the first time, a coherent, underlying intellectual/theoretical structure for the funding and grant writing process, making this an ideal text for students in public administration programs as well as an indispensable resource for practicing professionals in nonprofit organizations.

Each year, states receive hundreds of billions of dollars in grants-in-aid from the federal government. Gubernatorial success is often contingent upon the pursuit and allocation of these grants. In *Governors, Grants, and Elections*, Sean Nicholson-Crotty reveals the truth about how U.S. governors strategically utilize these funds. Far from spending federal money in apolitical ways, they usually pursue their own policy interests in the hopes of maximizing their or their party's electoral success. Nicholson-Crotty analyzes three decades of data on the receipt and expenditure of grants in all fifty states. He also draws compelling evidence from governors' public speeches and interviews with state officials. Ultimately, he demonstrates that incumbent governors' use of grants to deliver policies desired by core constituents—along with their opportunistic funding of public and private goods that appeal to noncore median voters—enables them to increase approval, legislative success, and, ultimately, vote share for themselves or their parties. The inaugural book in the Johns Hopkins Studies in American Public Policy and Management series, *Governors,*

A Review of the HHS Family Planning Program provides a broad evaluation of the Title X family planning program since its establishment in 1970. The program successfully provides family planning services to its target audience of low-income individuals, but there is room for improvement. While the program's core goals are apparent, a secondary set of changing priorities has emerged without a clear, evidence-based strategic process. Also, funding for the program has increased in actual dollars, but has not kept pace with inflation or increased costs. Several aspects of the program's structure could be improved to increase the ability of Title X to meet the needs of its target population. At the same time, the extent to which the program meets those needs cannot be assessed without a greater capacity for long-term data collection. A Review of the HHS Family Planning Program recommends several specific steps to enhance the management and improve the quality of the program, as well as to demonstrate its direct contribution to important end results, such as reducing rates of unintended pregnancy, cervical cancer, and infertility. The book will guide the Office of Family Planning toward improving the

effectiveness of the program. Other parties who will find the research and recommendations valuable include programs receiving Title X funding from the Office of Family Planning, policy makers, researchers, and professional organizations. The focus of this report is the 25,431 U.S. citizen federal offenders released from prison or placed on probation in calendar year 2005. Recidivism refers to a person's relapse into criminal behavior, often after the person receives sanctions or undergoes interventions for a previous crime. Recidivism is typically measured by criminal acts that resulted in the re-arrest, re-conviction, and/or re-incarceration of the offender over a specified period of time. Recent developments, particularly public attention to the size of the federal prison population and the cost of incarceration have refocused the Commission's interest on the recidivism of federal offenders. This report takes into account chapters four and two of the Guidelines Manual (ISBN: 9780160934896) in establishing the Commission's methods for evaluation. Scoring points for evaluation of the study group, and criminal history category identification. The Appendix comprised of tables and figures section offers the Study group's offender race, median age, re-conviction rates, re-incarceration rates, offenses categories, and more. A tiny American town's plans for radical self-government overlooked one hairy detail: no one told the bears. Once upon a time, a group of libertarians got together and hatched the Free Town Project, a plan to take over an American town and completely eliminate its government. In 2004, they set their sights on Grafton, NH, a barely populated settlement with one paved road. When they descended on Grafton, public funding for pretty much everything shrank: the fire department, the library, the schoolhouse. State and federal laws became meek

suggestions, scarcely heard in the town's thick wilderness. The anything-goes atmosphere soon caught the attention of Grafton's neighbors: the bears. Freedom-loving citizens ignored hunting laws and regulations on food disposal. They built a tent city in an effort to get off the grid. The bears smelled food and opportunity. A Libertarian Walks Into a Bear is the sometimes funny, sometimes terrifying tale of what happens when a government disappears into the woods. Complete with gunplay, adventure, and backstabbing politicians, this is the ultimate story of a quintessential American experiment -- to live free or die, perhaps from a bear.
