The world economy in which we are living poses challenges that lead to a realization that 'more of the same' will be difficult to sustain. This provides an illustration that, in order to create new or modified knowledge practices, strengthen customer relationships and thus positively influence customer satisfaction, organizations must be flexible in configuring (combining) knowledge and knowledge structures in a way that is appropriate for delivering value to the customer. It must simultaneously develop effective strategies for updating the knowledge of its staff members necessary for underpinning the creation and delivery of appropriate knowledge services. Thus, unlearning (forgetting) becomes a critical means for organizational success. The ECKM community of scholars has already initiated dialogue that links its particular strengths to innovation issues. This conference aims to further that dialogue by attracting leading edge work that leverages the ECKM community's in-depth understanding of learning and unlearning to better understand knowledge management. Our aim is to stimulate breakthrough research streams linking learning, unlearning and knowledge management. How can organizations tailor, use, and extend techniques and tools from knowledge management for improving their business practices and processes? Building upon existing work on knowledge management (KM) and organizational learning, the conference will promote interdisciplinary approaches from computer science and information systems, business, management and organization science as well as cognitive science. Emphasis will be put on systematic learning from experience, KM tools and KM success factors. A special interest belongs to knowledge management initiatives which are lightweight (i.e., do not place considerable additional burden on users and KM experts), allow an incremental adoption (i.e., do not require large up-front investment before any return of investment is at least visible), and are flexible regarding frequent changes in experts and topics. Continuing the success of the ECKM conference series since 2000, the 2015 conference will provide an international communication forum bringing together academia and industry for discussing the progress made and addressing the challenges faced by continuous learning in knowledge-intensive organizations.

Now in its fifteenth edition, The Rough Guide to Paris brings the perfect mix of fresh research and expert knowledge to Europe's most enchanting city. Each neighbourhood is explored in depth, with all the sights - from the must-sees to the more offbeat - covered by Rough Guides' experienced authors. The surrounding region features too in the "Day-trips from Paris" chapter, and the whole lot is illustrated with beautiful photography throughout the guide. Full-colour maps ensure you'll find your way from sight to sight (or from bar to bar) with the minimum of fuss. Combine this with accurate practical information on everything from public transport to opening hours and museum passes, and you'll soon be browsing the Marais, gliding on a boat along the Seine and sampling the best bistros like a true Parisian. The best of the Paris' cafés, restaurants and nightlife - from the high-end and exclusive to edgier new hotspots - are reviewed in Rough Guides' trademark honest and to-the-point style. All accommodation budgets are catered for, too, whether you're after a grande dame city institution or a backpacker-friendly party hostel. Both for weekend breaks and longer stays, The Rough Guide to Paris fits the bill.

Guide to the Sixth Form is a book that addresses the educational needs of sixth formers. The book starts by introducing the influence of sixth formers and their role as schoolmasters, doctors, lawyers, and

other professionals in British society. The author traces the establishment and growth of the sixth form or stage of education. The author points out the usual academic path taken by the sixth form, by passing tests conducted at O-level, and then proceeding onto the university level. Since other sixth formers are shown as not desiring to go onto the university level, the author asks whether the notion of a sixth form is still worth continuing in a changing modern British society. The Crowther Report is then cited as a way to understand this dilemma. The necessity for a university education and entry to other institutions of higher education is also analyzed as a sort of academic extensions of the sixth form. The degree of government assistance rendered to different students is noted, with focus on the state of financial dependence or independence for the sixth form student. The text can be of interest for a great majority of parents, school administrators, and government education officials.

Reasoning which is a equally weighed section in many competitive examinations tests the thinking power and mind applicability skills of the candidates. The questions of reasoning asked in various competitive examinations are not easy to solve without having enough practice. The Hand on Guide to Analytical Reasoning & Logical Reasoning will help aspirants master the 'Tricks of the Trade' as it covers analytical reasoning and logical reasoning comprehensively. This book has been divided into two Sections – Analytical Reasoning and Logical Reasoning each sub-divided into number of chapters with different types of questions of multiple patterns asked in various exams. The Analytical Reasoning section covers Seating Arrangement, Complex Arrangement, Ranking & Time Sequence Test, Blood Relations, Direction Sense Test, Conditions & Grouping and Simple & Coded Inequality whereas the Logical Reasoning section covers Syllogism, Statement & Assumptions, Statement & Arguments, Passage & Conclusion, Statement & Course of Action, Decision Making, Assertion & Reason, Cause & Effect and Input-Output. Ample numbers of solved problems have been covered in each chapter followed by practice exercises at the end to help aspirants revised and practice the concepts discussed in each chapter. Also the book contains previous years' solved questions of different competitive examinations like CAT, MAT, CMAT, Bank (PO/Clerk), UPSC, SSC and other state PSC Exams, etc to help aspirants get an insight into the types of reasoning questions asked. The book will be highly useful for aspirants preparing for Management (CAT, XAT, CMAT, IIFT, SNAP & other), Bank (PO & Clerk), SSC (CGL/CPO), UPSC & other state PSC Exams, etc. As the book covers Logical and Analytical Reasoning both in detail with ample number of solved problems, it for sure will help aspirants prepare both the types in a thorough manner and will act as a hand on guide to analytical reasoning & logical reasoning.
