#1 NEW YORK TIMES, WALL STREET JOURNAL, AND BOSTON GLOBE BESTSELLER • One of the most acclaimed books of our time: an unforgettable memoir about a young woman who, kept out of school, leaves her survivalist family and goes on to earn a PhD from Cambridge University “An amazing story, and truly inspiring. It’s even better than you’ve heard.”—Bill Gates NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW • ONE OF PRESIDENT BARACK OBAMA’S FAVORITE BOOKS OF THE YEAR • BILL GATES’S HOLIDAY READING LIST • FINALIST: National Book Critics Circle’s Award In Autobiography and John Leonard Prize For Best First Book • PEN/Jean Stein Book Award • Los Angeles Times Book Prize Born to survivalists in the mountains of Idaho, Tara Westover was seventeen the first time she set foot in a classroom. Her family was so isolated from mainstream society that there was no one to ensure the children received an education, and no one to intervene when one of Tara’s older brothers became violent. When another brother got himself into college, Tara decided to try a new kind of life. Her quest for knowledge transformed her, taking her over oceans and across continents, to Harvard and to Cambridge University. Only then would she wonder if she’d traveled too far, if there was still a way home. “Beautiful and propulsive . . . Despite the singularity of [Westover’s] childhood, the questions her book poses are universal: How much of ourselves should we give to those we love? And how much must we betray them to grow up?”—Vogue NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post • O: The Oprah Magazine • Time • NPR • Good Morning America • San Francisco Chronicle • The Guardian • The Economist • Financial Times • Newsday • New York Post • theSkimm • Refinery29 • Bloomberg • Self • Real Simple • Town & Country • Bustle • Paste • Publishers Weekly • Library Journal • LibraryReads • BookRiot • Pamela Paul, KQED • New York Public Library

In *Reading Researchers in Search of Common Ground*, Second Edition, Rona F. Flippo revisits her groundbreaking Expert Study, in which she set out to find common ground among experts in the much-fragmented field of reading research. The original edition, featuring contributions from participants in the Expert Study, commentary from additional distinguished literacy scholars with specialized experiences and vantage points from which to view it, and recommendations for use of its findings, was published in 2001 and has become a classic in the field. The Expert Study’s findings and discussions related to it remain provocative, viable, and highly relevant. Taking a fresh look at it, and its current implications for literacy education and common ground in light of the newest thinking and research of today, the Second Edition includes four new chapters from leaders in the field who discuss the Study from their unique vantage points (literacy trends, emergent writing development, a comprehensive literacy curriculum, and a comparative analysis of the study’s findings and recommendations). It is a must-read resource for the entire literacy community ? researchers, teacher educators, graduate students, administrators, practitioners, and policymakers.

A collection of stories about characters from every walk of Indian life - merchants, beggars, herdsmen, rogues - all of whose lives are microcosms of the human experience.

This integrated collection of perspectives on the spaces of teaching and learning uses ‘learning space’ to place educational practice in context. It considers the complex relationships involved in the design, management and use of contemporary learning spaces. It sheds light on some of the problems of connecting the characteristics of spaces to the practices and outcomes of teaching and learning. The contributions show how research into learning spaces can inform broader educational practices and how the practices of teaching, learning and design can inform research. The selection of chapters demonstrates the value of gathering together multiple sources of evidence, viewed through different epistemological lenses in order to push the field forward in a timely fashion. The book provides both a broad review of current practices as well as a deep-dive into particular educational and epistemological challenges that the various approaches adopted entail. Contrasts and commonalities between the different approaches emphasise the importance of developing a broad, robust evidence-base for practice in context. This is the inaugural book in the series *Understanding Teaching-Learning Practice*.

This project explores the manner in which one form of political legitimacy came to overtake another, the enfranchisement of the Volk at the expense of monarchy during World War I Germany. The project begins with the "festive year" 1913, when the Wilhelmine regime celebrated the centennial of the Wars of Liberation as well as Kaiser Wilhelm II's Silver Jubilee. In these ceremonies the monarchy attempted to legitimize itself before the German public, but failed to achieve broad, popular participation. The study then shifts to the nationalist demonstrations of July-August 1914, their problematic relationship to the police, and the regime that ultimately came to fear these aggressive and spontaneous patriotic displays. Not only does the kaiser never engage the crowds, but he emerges as a distant and shadowy figure when juxtaposed to these vibrant throngs. The project then investigates the persistent translation of the war from an official to a popular version beginning in August 1914, which the government was unable to shape, direct, or control. These popular manifestations of the war included the interactions of rumors and crowds, celebrations of new wartime heroes independent of the kaiser, and new forms of popular mobilization that contributed to the ultimate collapse of the Wilhelmine monarchy in November 1918.
