Papers presented at various proceedings of the Indian History Congress.

It is the eighteenth century, and turmoil is brewing all over India. In the country's south, Hyder Ali, an ordinary soldier, rises through the ranks to take over Mysore, a small kingdom that is in danger of being swallowed by the Marathas and the Nizam of the Deccan. Despite overwhelming odds, Hyder Ali forges an empire right under their noses through tact, bravery and unparalleled military strategy. Before long, he holds sway over a kingdom that spans from the dry lands near the Krishna River to the lush forests of the Malabar. But the angry Marathas are thirsting for revenge, and the English are fast gaining ground. Will the Sultan of Mysore be able to crush these formidable enemies? Will his son Tipu come to his aid? Or will he be forced to surrender the vast and powerful kingdom he has so passionately built?

This book examines the reasons behind the Great Divergence. Kaveh Yazdani analyzes India's socio-economic, techno-scientific, military, political and institutional developments. The focus is on Gujarat between the 17th and early 19th centuries and Mysore during the second half of the 18th century.

In a rapidly urbanizing India, what is the future of nature conservation? How does the march of development impact the conflict between nature and people in India's cities? Exploring these questions, *Nature in the City* examines the past, present and future of nature in Bengaluru, one of India's largest and fastest growing cities. Once known as the Garden City of India, Bengaluru's tree-lined avenues, historic parks and expansive water bodies have witnessed immense degradation and destruction in recent years, but have also shown remarkable tenacity for survival. This book charts Bengaluru's journey from the early settlements in the 6th century CE to the 21st century city and demonstrates how nature has looked and behaved and has been perceived in Bengaluru's home gardens, slums, streets, parks, sacred spaces and lakes. A fascinating narrative of the changing role and state of nature in the midst of urban sprawl and integrating research with stories of people and places, this book presents an accessible and informative story of a city where nature thrives and strives.

History of Kerala, 1766-1800, period under Mysorean rulers.

"This book is a pioneering work on an area which has received scant attention in the past. Studies on the period of Haider Ali and Tipu Sultan - the 'Mysore Sultans' inevitably focus on the dominant narrative of political history of the time and its attendant romantic anecdotes. Consequently, the study of art and architecture of the period has so far remained in the shadows. This book is a detailed aesthetic study of the art and architecture of the palaces, forts, mosques, mausoleum at Srirangapatna, Bangalore and the neighbourhood. Further, this book closely examines the exquisite murals in the summer palace at Srirangapatna. It also incorporates the scientific investigation of the pigment composition of the paintings. Finally, the appendix has a survey of the coins of the Mysore Sultans from the National Museum collection. This book is based on extensive fieldwork and photo-documentation and an in-depth study of contemporary Indian, Persian and English literary sources, paintings, illustrated imperial manuscripts and inscriptions. It is replete with over three hundred spectacular photographs, contemporary maps, topographic surveys and line drawings, highlighting all nuances of the subject. The attempt is to examine the art and architecture of the Mysore Sultans from every possible point of view and the book will surely be of immense value to scholars, students and art-lovers."--book jacket.

This book is part of a series of books aimed at disseminating the accurate history of India drawn from the primary sources. History writing, especially about the medieval Muslim rule has been fraught with political correctness, controversy, and in several cases, downright falsification. This has occurred mostly with official state patronage. As a result, any attempts to correct this course has been virulently opposed with the result that most urban-educated Indians have now internalized a politically correct version of

Indian history. The history of Tipu Sultan too, stands as a glaring instance of this distorted historical narrative. Indeed, we have seen, read, and heard about a lot of people claiming to be freedom fighters and receiving pensions from the Government. Several of these worthies would not have been born before Independence yet they succeed in such blatant manipulations. There are instances of portraying certain rulers and chieftains as true heroes who fought against the British Empire. One such ruler happens to be Tipu Sultan. Tipu Sultan is widely known as the Tiger of Mysore. Indeed, the image of Tipu battling a tiger barehanded crosses the mind whenever his name is mentioned. But is this the truth? Was Tipu Sultan truly the warrior as he has been portrayed? What exactly is his record of fighting the British? Was he really a freedom fighter as is widely claimed? Sandeep Balakrishna in this well-researched book, explores both the myths and the truth surrounding Tipu Sultan. A must-read for those who wish to learn the true story of Tipu Sultan.

Chatterjee analyzes how writing over the period of a century justified and was affected by the introduction and extension of British domination of India, demonstrating the link between written representations and the ideological, economic and political climate and debates. By showing how the representations of Britons in India, Indian religion and society and government evolved over the period 1740 to 1840, the author fills the gap between the early colonial 'exotic East' and the later 'primitive subject nation' perceptions.
