Mythology, Madness and Laughter: Subjectivity in German Idealism explores some long neglected but crucial themes in German idealism. Markus Gabriel, one of the most exciting young voices in contemporary philosophy, and Slavoj Žižek, the celebrated contemporary philosopher and cultural critic, show how these themes impact on the problematic relations between being and appearance, reflection and the absolute, insight and ideology, contingency and necessity, subjectivity, truth, habit and freedom. Engaging with three central figures of the German idealist movement, Hegel, Schelling, and Fichte, Gabriel, and Žižek, who here shows himself to be one of the most erudite and important scholars of German idealism, ask how is it possible for Being to appear in reflection without falling back into traditional metaphysics. By applying idealistic theories of reflection and concrete subjectivity, including the problem of madness and everydayness in Hegel, this hugely important book aims to reinvigorate a philosophy of finitude and contingency, topics at the forefront of contemporary European philosophy. MARKUS GABRIEL is Assistant Professor of Philosophy at the New School for Social Research, NY. He has published a number of books and journal articles in German, including *Der Mensch im Mythos* (De Gruyter, 2006), and *Das Absolute und die Welt in Schellings Freiheitsschrift* (Bonn University Press, 2006).

Lobotomy is a lurid and unlikely temperance tract from the underbelly of rock 'n' roll. Taking readers on a wild rollercoaster ride from his crazy childhood in Berlin and Munich to his lonely methadone-soaked stay at a cheap hotel in Earl's Court and newfound peace on the straight and narrow, Dee Dee Ramone catapults readers into the raw world of sex, addiction, and two-minute songs. It isn't pretty. With the velocity of a Ramones song, Lobotomy rockets from nights at CBGB's to the breakup of the Ramones' happy family with an unrelenting backbeat of hate and squalor: his girlfriend ODs; drug buddy Johnny Thunders steals his ode to heroin, "Chinese Rock"; Sid Vicious shoots up using toilet water; and a pistol-wielding Phil Spector holds the band hostage in Beverly Hills. Hey! Ho! Let's go!

Complete Book of Poses for Artists is the perfect resource for artists of all skill levels. The human figure is one of the most difficult subjects to capture in drawing. The Complete Book of Poses for Artists combines photographs and illustrations that demonstrate how to accurately render the human form in hundreds of realistic poses using a variety of drawing media, including graphite pencil, charcoal, and pastel. The book guides artists through the process of drawing the human figure as it pertains to anatomy, proportions, volume, mass, gesture, movement, and expression. From there, the book reveals how these characteristics come together using light, shape, line, and form to accurately depict the human figure in a variety of everyday poses, including standing, sitting, reclining, and action. Each section features color photographs of people in several "core" poses (e.g., sitting, reclining, and action), as well as multiple variations of those poses. Step-by-step artist illustrations demonstrate how to render the core pose, whereas illustrations and professional tips demonstrate how to turn the core pose into a new variation. In addition, step-by-step drawing instructions and techniques demonstrate how to capture realistic poses as they differ from one person to the next across a range of human characteristics, such as age (child, teen, adult, senior citizen); body type (ectomorph, mesomorph, endomorph); gender; and activity (e.g., athlete, dancer, etc.). Packed with helpful photographs, hundreds of techniques, and loads of expert instruction, The Complete Book of Poses for Artists is the perfect resource for artists of all skill levels-and one that will be referred to over and over again.

This groundbreaking study examines nature, wildlife and wilderness filming from all angles. Topics covered include the beginnings of film itself, the first attempts at nature and expedition filming, technical developments of the period involving cameras and lenses, and the role film has played in wilderness preservation. The individual contributions of major figures are discussed throughout, and a filmography lists hundreds of nature films from the period.

People use online social forums for all sorts of reasons, including political conversations, regardless of the site's main purpose. But what leads some of these people to take their online political activity into the offline world of activism? In *Expect Us*, Jessica L. Beyer looks at political consciousness and action in four communities, each born out of chaotic online social spaces that millions of individuals enter, spend time in, and exit moment by moment: Anonymous (4chan), IGN, World of Warcraft, and The Pirate Bay. None of these sites began as places for political organization per se, but visitors to each have used them as places for political engagement to one degree or another. Beyer explains the puzzling emergence of political engagement in these disparate social spaces and offers reasons for their varied capacity to generate political activism. Her comparative ethnography of these four online communities demonstrates that the technological organization of space itself has a strong role in determining the possibility of political mobilization. Overall, she shows that political mobilization rises
