From the #1 New York Times bestselling author of *The Four Winds*, *Angel Falls* is “a tearjerker . . . about the triumphs of family” (Detroit Free Press). When Mikaela Campbell, beloved wife and mother, falls into a coma, it is up to her husband, Liam, to hold the family together and care for their grieving, frightened children. Doctors tell Liam not to expect a recovery, but he believes that love can accomplish what medical science cannot. Daily he sits at Mikaela’s bedside, telling her stories of the precious life they have built together, hoping against hope that she will wake up. But then he discovers evidence of his wife’s secret past: a hidden first marriage to movie star Julian True. Desperate to bring Mikaela back at any cost, Liam knows that he must turn to Julian for help. But will that choice cost Liam his wife, his family, and everything he holds dear? One of Kristin Hannah’s most moving novels, *Angel Falls* is a poignant and unforgettable portrait of marriage and commitment, of an ordinary man who dares to risk everything in the name of love.

Roger Angell, the acclaimed *New Yorker* writer and editor, steps up with a selection of writings that celebrate a view from the tenth decade of an engaged, vibrant life. Whether it’s a Fourth of July in rural Maine, the opening game of the 2015 World Series, editorial exchanges with John Updike, a

letter to a son, or his award-winning essay on aging, "This Old Man," what links the pieces is Angell's unique perceptions and humor, his utter absence of self-pity, and his appreciation of friends and colleagues encountered over a fruitful career unlike any other.

"A ... memoir from the cultural icon, gay rights activist, and four-time Tony Award winner, [whose] stellar career has taken him from Broadway to Hollywood and back. He's received accolades and awards for acting--Hairspray, Fiddler, Mrs. Doubtfire, Independence Day--and writing: La Cage Aux Folle, Torch Song Trilogy (for which he also won a Tony for acting) and Kinky Boots. But while he is widely known as one of today's most peerless performers, Harvey has never shared his own story until now"--
NEW YORK TIMES BESTSELLER "An instant sports classic." —New York Post * "Stellar." —The Wall Street Journal * "A true masterwork...880 pages of sheer baseball bliss." —BookPage (starred review) * "This is a remarkable achievement." —Publishers Weekly (starred review) A magnum opus from acclaimed baseball writer Joe Posnanski, The Baseball 100 is an audacious, singular, and masterly book that took a lifetime to write. The entire story of baseball rings through a countdown of the 100 greatest players in history, with a foreword by George Will. Longer than Moby-Dick and nearly as ambitious,?The Baseball 100 is a one-of-a-kind work

by award-winning sportswriter and lifelong student of the game Joe Posnanski that tells the story of the sport through the remarkable lives of its 100 greatest players. In the book's introduction, Pulitzer Prize-winning commentator George F. Will marvels, "Posnanski must already have lived more than 200 years. How else could he have acquired such a stock of illuminating facts and entertaining stories about the rich history of this endlessly fascinating sport?" Baseball's legends come alive in these pages, which are not merely rankings but vibrant profiles of the game's all-time greats. Posnanski dives into the biographies of iconic Hall of Famers, unfairly forgotten All-Stars, talents of today, and more. He doesn't rely just on records and statistics—he lovingly retraces players' origins, illuminates their characters, and places their accomplishments in the context of baseball's past and present. Just how good a pitcher is Clayton Kershaw in the twenty-first-century game compared to Greg Maddux dueling with the juiced hitters of the nineties? How do the career and influence of Hank Aaron compare to Babe Ruth's? Which player in the top ten most deserves to be resurrected from history? No compendium of baseball's legendary geniuses could be complete without the players of the segregated Negro Leagues, men whose extraordinary careers were largely overlooked by sportswriters at the time and unjustly lost to history.

Posnanski writes about the efforts of former Negro Leaguers to restore sidelined Black athletes to their due honor, and draws upon the deep troves of the Negro Leagues Baseball Museum and extensive interviews with the likes of Buck O'Neil to illuminate the accomplishments of players such as pitchers Satchel Paige and Smokey Joe Williams; outfielders Oscar Charleston, Monte Irvin, and Cool Papa Bell; first baseman Buck Leonard; shortstop Pop Lloyd; catcher Josh Gibson; and many, many more. The Baseball 100 treats readers to the whole rich pageant of baseball history in a single volume. Chapter by chapter, Posnanski invites readers to examine common lore with brand-new eyes and learn stories that have long gone unheard. The epic and often emotional reading experience mirrors Posnanski's personal odyssey to capture the history and glory of baseball like no one else, fueled by his boundless love for the sport. Engrossing, surprising, and heartfelt, The Baseball 100 is a magisterial tribute to the game of baseball and the stars who have played it.

Hiroshima is the story of six people--a clerk, a widowed seamstress, a physician, a Methodist minister, a young surgeon, and a German Catholic priest--who lived through the greatest single manmade disaster in history. In vivid and indelible prose, Pulitzer Prize-winner John Hersey traces the stories of these half-dozen individuals from 8:15 a.m. on August 6, 1945, when Hiroshima was destroyed by the first atomic bomb ever dropped on a city, through the hours and days that followed. Almost four decades after the original publication of this celebrated book, Hersey went back to Hiroshima in search of the people whose stories he had told, and his account of what he discovered is now the eloquent and moving final chapter of Hiroshima.

"Pure food" became the rallying cry among a divergent group of campaigners who lobbied Congress for a law regulating foods and drugs. James Harvey Young reveals the complex and pluralistic nature not only of that crusade but also of the broader Progressive movement of which it was a significant strand. In the vivid style familiar to readers of his earlier works, *The Toadstool Millionaires* and *The Medical Messiahs*, Young sets the pure food movement in the context of changing technology and medical theory and describes pioneering laws to control imported drugs and domestic oleomargarine. He explains controversy within the pure food coalition, showing how farming and business groups sought competitive commercial advantage, while consumer advocates wished to promote commercial integrity and advance public health. The author focuses on how the public became increasingly fearful of hazards in adulterated foods and narcotic nostrums and how Congress finally achieved the compromises necessary to pass the Food and Drugs Act and

the meat inspection law of 1906. Originally published in 1989. “We think of English as a fortress to be defended, but a better analogy is to think of English as a child. We love and nurture it into being, and once it gains gross motor skills, it starts going exactly where we don’t want it to go: it heads right for the goddamned electrical sockets.” With wit and irreverence, lexicographer Kory Stamper cracks open the obsessive world of dictionary writing, from the agonizing decisions about what to define and how to do it to the knotty questions of ever-changing word usage. Filled with fun facts—for example, the first documented usage of “OMG” was in a letter to Winston Churchill—and Stamper’s own stories from the linguistic front lines (including how she became America’s foremost “irregardless” apologist, despite loathing the word), *Word by Word* is an endlessly entertaining look at the wonderful complexities and eccentricities of the English language.

Baseball's best writer offers an extraordinarily candid and

thorough exploration of the inner craft of pitching from one of the games best, David Cone. There is no big league pitcher who is more respected for his skill than David Cone. In his stellar career Cone has won multiple championships and countless professional accolades. Along the way, the perennial all-star has had to adjust to five different ballclubs, recover from a career-threatening arm aneurysm, cope with the lofty expectations that are standard for the games highest paid players, and overcome a humbling three-month, eight-game losing streak in the summer of 2000. Cone granted exclusive and unlimited access to baseballs most respected writer Roger Angell of The New Yorker. The result is just what baseball fans everywhere would expect from Angell: an extraordinary inside account of a superstar.

A provocative, elegantly written analysis of female desire, consent, and sexuality in the age of MeToo Women are in a bind. In the name of consent and empowerment, they must proclaim their desires clearly and confidently. Yet sex

researchers suggest that women's desire is often slow to emerge. And men are keen to insist that they know what women—and their bodies—want. Meanwhile, sexual violence abounds. How can women, in this environment, possibly know what they want? And why do we expect them to? In this elegant, searching book—spanning science and popular culture; pornography and literature; debates on Me-Too, consent and feminism—Katherine Angel challenges our assumptions about women's desire. Why, she asks, should they be expected to know their desires? And how do we take sexual violence seriously, when not knowing what we want is key to both eroticism and personhood? In today's crucial moment of renewed attention to violence and power, Angel urges that we remake our thinking about sex, pleasure, and autonomy without any illusions about perfect self-knowledge. Only then will we fulfil Michel Foucault's teasing promise, in 1976, that "tomorrow sex will be good again."

Sam, a frightened rabbit of a child, rejected by his family because of lameness and pebble specs is the next to join the foster family and then Brent arrives dramatically in the middle of the night - a tearaway teenager totally beyond the control of his unimaginative, intellectual father. All four of Megan's foster children have difficulties to overcome in the house high above the river, where each one of them becomes involved in some way with the mysterious river woman. MOTION PICTURE • Dr. Bennet Omalu discovered something he could not ignore. The NFL tried to silence him. His courage would change everything. “A gripping medical mystery and a dazzling portrait of the young scientist no one wanted to listen to . . . a fabulous, essential read.”—Rebecca Skloot, author of *The Immortal Life of Henrietta Lacks*

Jeanne Marie Laskas first met the young forensic pathologist Dr. Bennet Omalu in 2009, while reporting a story for *GQ* that would go on to inspire the movie *Concussion*. Omalu told her about a day in September 2002, when, in a dingy morgue in downtown Pittsburgh, he picked up a scalpel and made a discovery that would rattle America in ways he’d never intended. Omalu was new to America, chasing the dream, a deeply spiritual man escaping the wounds of civil war in Nigeria. The body on the slab in front of him belonged to a fifty-year-old named Mike Webster, aka “Iron Mike,” a Hall of Fame center for the Pittsburgh Steelers, one of the greatest ever to play the game. After retiring in 1990, Webster had suffered a dizzyingly steep decline. Toward the end of his life, he was living out of his van, tasing himself to relieve his chronic pain, and fixing his rotting teeth with Super Glue. How did this happen?, Omalu asked himself. How did a young man like Mike Webster end up like this? The search for answers would change Omalu’s life forever and put him in the crosshairs of one of the most powerful corporations in America: the National Football League. What Omalu discovered in Webster’s brain—proof that Iron Mike’s mental deterioration was no accident but a disease caused by blows to the head that could affect everyone playing the game—was the one truth the NFL wanted to ignore. Taut, gripping, and gorgeously told, *Concussion* is the stirring story of one unlikely man’s decision to stand up to a multibillion-dollar colossus, and to tell the world the truth.

'To have more we must first become more', is the very essence of the philosophy of personal development, success and happiness addressed by America's foremost business philosopher in this book. An irreverent and charming collection of deeply personal essays about the joys of low pop culture and bad taste, exploring coming of age in the 2000s in the age of Hot Topic, Creed, and frosted lip gloss—from the James Beard Award-nominated writer of the Catapult column "Store-Bought Is Fine" Tacky is about the power of pop culture—like any art—to imprint itself on our lives and shape our experiences, no matter one's commitment to "good" taste. These fourteen essays are a nostalgia-soaked antidote to the millennial generation's obsession with irony, putting the aesthetics we hate to love—snakeskin pants, Sex and the City, Cheesecake Factory's gargantuan menu—into kinder and sharper perspective. Each essay revolves around a different maligned (and yet, Rax would argue, vital) cultural artifact, providing thoughtful, even romantic meditations on desire, love, and the power of nostalgia. An essay about the gym-tan-laundry exuberance of Jersey Shore morphs into an excavation of grief over the death of her father; in "You Wanna Be On Top," Rax writes about friendship and early aughts girlhood; in another, Guy Fieri helps her heal from an abusive relationship. The

result is a collection that captures the personal and generational experience of finding joy in caring just a little too much with clarity, heartfelt honesty, and Rax King's trademark humor. A VINTAGE ORIGINAL

The history of race and religion in the American South is infused with tragedy, survival, and water—from St.

Augustine on the shores of Florida's Atlantic Coast to the swampy mire of Jamestown to the floodwaters that nearly destroyed New Orleans. Determination, resistance, survival, even transcendence, shape the story of race and southern Christianities. In *Christianity and Race in the American South*, Paul Harvey gives us a narrative history of the South as it integrates into the story of religious history, fundamentally transforming our understanding of the importance of American Christianity and religious identity. Harvey chronicles the diversity and complexity in the intertwined histories of race and religion in the South, dating back to the first days of European settlement. He presents a history rife with strange alliances, unlikely parallels, and far too many tragedies, along the way illustrating that ideas about the role of churches in the South were critically shaped by conflicts over slavery and race that defined southern life more broadly. Race, violence, religion, and southern identity remain a volatile brew, and this book is the persuasive historical examination that is essential to making sense of it.

A searching essay on the fraught bonds between daughters and their fathers from one of our most perceptive feminist writers and the author of *Tomorrow Sex Will Be Good Again*. In *Daddy Issues*, critically acclaimed writer Katherine Angel examines the place of

fathers in contemporary culture with her characteristic mix of intellectual boldness and capacity for nuance, and her elegant, searching prose. In this long essay, Angel asks how the mixture of love and hatred we feel towards our fathers--and patriarchal father figures--can be turned into a relationship that is generative rather than destructive. Moving deftly between developmental psychology and psychoanalysis (Winnicott and Freud), cultural visions of fathering from King Lear and Virginia Woolf to Ivanka Trump, and issues from incest to #MeToo, Angel probes the fraught bond of daughters and fathers, women and the patriarchal regime. What, she asks, is this discomfiting space of love and hate--and how are we to reckon with both fealty and rebellion? Sabrina travels into the future to find a powerful wizard. Provides a list of nearly seven hundred children's books published between 2000 and 2004 that deal with international themes and topics.
