In January of 2013 Max was diagnosed with an incurable chronic inflammatory degenerative autoimmune disease. Contrary to all medical prognosis that Max will need multiple surgeries and will suffer in pain for the rest of his life, taking powerful anti-inflammatory and immune suppression drugs, Max completely recovered in 180 days. Dozen's of scientific research papers were published in the past five years and new diagnostic tools were developed revealing the real causes and factors for chronic inflammation, degeneration and premature aging of cells, tissues and organs. When your joints hurt so much that you cannot walk, when inflammation and pain takes over your body, when ulcers bleed inside your stomach cavity, when no medicine brings relief, when physicians tell you there is no medical cure - you don't give up hope. Suffering brings wisdom, strength and most important knowledge that can change everything. We were told so many times that there is no medical cure for this painful, inflammatory, degenerative, auto-immune disease, and they were absolutely right because the cure was at the farm and not at the pharmacy. Max's blood sedimentation rate was reduced 20 folds. From 61 mm/hr to 3 mm/hr in 180 days after changing his diet to real food. Max's calprotectin protein (inflammation marker) was reduced 28 folds. From 504 mcg/g to 18 mch/g in 180 days after changing his diet to real food. Max's C-

Based on a retreat that Thich Nhat Hanh led for Westerners, *You Are Here* offers a range of effective practices for cultivating mindfulness and staying in the present moment—including awareness of breathing and walking, deep listening, and skillful speech. These teachings will empower you to witness the wonder of life and transform your suffering, both within and outside you, into compassion, tenderness, and peace. As Thich Nhat Hanh declares, “the energy of mindfulness is the energy of the Buddha, and it can be produced by anybody.” It is as simple as breathing in and breathing out.

BESTSELLING BOOK In this inspirational guide, Wayne Dyer, the author of the phenomenal bestsellers *Wisdom of the Ages*, *Pulling Your Own Strings*, and *Your Erroneous Zones*, reveals seven beliefs central to working miracles in our everyday lives. When most of us think of magic, we picture a man in a black cape sawing a woman in half, or a sleight-of-hand card trick. But there's another kind of magic – real magic – that can enrich your life. According to Dyer, real magic means creating miracles in everyday life. Quitting smoking or drinking, achieving new Job success, or finding a happy relationship – these are all miracles because they transcend our perceived limitations. From "creating a miracle mind-set" and achieving change in the areas of personal health, prosperity, and fulfilling love relationships to believing in the magic of miracles on a global scale, Dyer shows us that miracles within our reach and within our own minds. In *Real Magic*, Dyer teaches us how to achieve a higher level of consciousness. He asks us to imagine what would make us happy, then offers specific strategies for attaining these goals. In every aspect of our individual lives – physical health, finances, intimate relationships, and personal identity – there is always room for a miracle or two. And with Dyer's help, each and every one of us can be a miracle worker.

friendship. They spend a week at Jess's family holiday house in a small seaside town, Awatangi, intending to make the time to talk things through, but the conversations never happen. Kate makes vague promises, but begins to have second thoughts. Jess wants Kate, and nothing else, and is heartbroken that isn't enough. Jess decides – while everything is changing in her life – that she doesn't want to go on living in the city, that she wants to return to Awatangi. Part of her hopes some physical distance between them may help things with Kate, and part of her – frustrated and upset – simply wants to leave Kate behind. In Awatangi, Jess meets Keri, a local lawyer who has also recently returned home. Like Jess, Keri surfs, and like Jess, she seems to feel some attachment to her family roots in Awatangi. Jess is drawn to Keri, but forces herself not to let anything happen. Despite everything, Kate is still Jess's closest friend, and she has loved Kate all her life. She feels she has to give the situation with Kate as long as she can to work itself out. Awatangi is about coping with feelings for a close friend that are not returned, set in a small holiday township on the West Coast of the South Island of New Zealand. It is an exploration of getting what you've always wanted and it not being enough, of being in love with one person and wanting another, and of finding out that life doesn't always turn out as expected.

Don Newman's first volume of Savannah centric poetry reflects the close personal relationship between poet and subject often found in work dedicated to a particular place. Such intimate subjectivity may seem lofty at times. But this Savannah native has a way of bringing grandiose notions of his hometown down to earth. Here, the author's regional sensibilities-together with his stretch toward the universal-offer the reader a unique perspective and a tour of Savannah unattainable during a typical day of sightseeing. While by no means a comprehensive poetic look at the city, Newman's Little Poetry Book of Savannah will surely augment the traveler's backpack, give visitors

a distinctive literary keepsake, and make the perfect gift for those back home who would like an authentic little piece of Savannah. Meditative, descriptive, fun, quirky, and enjoyably honest, Newman bares parts of his soul in this down-to-earth, head-in-the-clouds "poetry for everyone." The year is 4518 BCE. Halim, a Shakti warrior initiate, lives with his family in Harappa, a fortified city in the Indus River Valley. His father is injured, so the task falls to Halim to find a cure for his mother, who has fallen prey to a mysterious, debilitating disease. Sanjit, a seasoned Shakti, agrees to accompany Halim to the Kunlun Mountains in search of a sacred medicine from an ancient monastery. Halim's impulsive sister, Taja, insists on joining them too. When the three travellers confront the Ignogai, a barbaric tribe with a bloodthirsty shaman, they must flee across hazardous and unfamiliar terrain to avoid being captured and persecuted for their Shakti Prana. an inexplicable rush of power within her, leading to strange, recurring dreams and encounters with even stranger creatures. After being saved from a demon by her classmate Finn, she finally starts getting some answers. Meg, he explains, is now an awakened witch; a person whose dormant magic has been brought out by trauma. Real witches, she learns, are nothing like the broomstick-riding figures she's used to from movies. The descendants of an ancient tribe who made an alliance with the Fae, Witani are born with magic and have the ability to see the spirits who oversee the natural world. She receives another shock looking through study abroad brochures when she finds a picture of the same standing stone from her dreams. This prompts her to choose Scotland as her destination, where the stone is located. As she's drawn ever deeper into the secret world of magic and Fae, she wrestles with the dilemma of whether or not to tell her parents about her new life. But it's not long before she has far more to worry about. Her arrival in Scotland sets a series of events in motion that will change her forever; bringing with it new friends, love, and danger.

Humanity is a part of Nature, yet every thinking person at one time or another asks herself or himself, "How did we get here? What makes me different from the rest of Nature?" In *The Course of Nature* an artist and a scientist ask those questions with full respect for all contexts, both scientific and not. Amy Pollack's figures stand on their own as elegant summaries of one or another aspect of Nature and our place in it. Robert Pollack's one-page essays for each illustration lay out the underlying scientific issues

along with the overarching moral context for these issues. Together the authors have created a door into Nature for the non-scientist, and a door into the separate question of what is right, for both the scientist and the rest of us.

A cyanide capsule and a bullet to the head. This is how Adolf Hitler is about to kill himself. The date is the 30th of April, the year is 1945. Hitler and his wife of less than two days, Eva Braun, are together in the Fuhrerbunker, an underground complex near the Reich Chancellery in Berlin. Berlin itself is not yet under siege, but it is apparent to all that it soon will be. For the Allies have defeated the Wehrmacht in the Belgian Ardennes and have already crossed the Rhine into Germany. While at the same time, the Red Army are advancing westwards towards the German capital, unstoppable since their decisive victory at Stalingrad. As a result, SS generals are now refusing to obey Hitler's orders. Stuck down in his bunker and feeling powerless, Hitler has begun to suffer a mental breakdown. The war is lost and he knows it now. Germany surrendered, unconditionally, a week after Hitler's death, on the 7th of May, 1945. The following day was declared Victory in Europe Day. The Second World War on the European continent was formally confirmed over. The war would continue in Asia for another three months, eventually ending on the 15th of August, 1945 - just

over a week after the dropping of the Little Boy and Fat Man atomic bombs on the Japanese cities of Hiroshima and Nagasaki. Germany was in utter ruins and occupied by the armies of the Soviet Union, France, America, and Britain and her Commonwealth. Meanwhile the world had witnessed the utterly destructive power of atomic weapons. This was how the Second World War ended; it was also how the Cold War began. The Cold War would last nearly half a century, with flashpoints occurring in locations all across the globe; from Afghanistan to Vietnam, Korea to Cuba. The real Cold War battlefield, though, was in Germany. It was here where the militaries of the Soviet Union and the Warsaw Pact countries faced off against the militaries of America and her European NATO allies. It was here where the bulk of the nuclear missiles were located, where the troops were based. Germany - then Germanies - was the true frontier of the Cold War. Following the collapse of the Berlin Wall in 1989, and the dissolution of the Soviet Union shortly after in 1991, the militaries that had based themselves in Germany for the past 50 years started to slowly return to their respective home countries. The military bases, and all the infrastructure that went along with sustaining them, were stripped bare and left behind. The purpose of this book is to document these Cold War sites as they are today, in 2016. They will not be around for much longer; most face imminent demolition, and the ones that don't

are decaying and succumbing to nature. The hope is that by documenting how these bases currently are, as well as providing a short history on each of the sites, an audience unable to visit them themselves will learn something new about the Cold War. It was a military stand-off on a scale of which the world has never seen before. We have history books that communicate that scale; that communicate the dangers faced; the close calls and near misses; the fallibility of all those involved. Perhaps this book, and the pictures it contains, can help to communicate some of these things too, but in a different way.

When Edy Phelps falls hard for her best friend, she knows nothing can come from it. into the world of magic, and his unlikely invitation into an underground secret society of revolutionary magicians from around the world. *Magic Is Dead* is Ian Frisch's head-first dive into a hidden world full of extraordinary characters and highly guarded secrets. It is a story of imagination, deception, and art that spotlights today's most brilliant young magicians—a mysterious club known as the52, who are revolutionizing an ancient artform under the mantra *Magic Is Dead*. Ian brings us with him as he not only gets to know this fascinating world, but also becomes an integral part of it. We meet the52's founding members—Laura London, Daniel Madison, and Chris Ramsay—and explore their personal demons, professional aspirations, and what drew them to their craft. We join them at private gatherings of the most extraordinary magicians working today, follow them to magic conventions in Las Vegas and England, and discover some of the best tricks of the trade. We also encounter David Blaine; hang out with Penn Jillette; meet Dynamo, the U.K.'s most famous magician; and go behind the scenes of a Netflix magic show. *Magic Is Dead* is also a chronicle of magic's rich history and how it has changed in the internet age, as the young guns embrace social media and move away from the old-school take on the craft. As he tells the story of the52, and his role as its most unlikely member, Ian reveals his own connection with trickery and deceit and how he first learned the elements that make magic work from his poker-playing mother. He recalls their adventures in card rooms and casinos after his father's sudden death, and shares a touching moment that he had, as a working journalist, with his childhood idol

For the Owens family, love is a curse that began in 1620, when Maria Owens was charged with witchery for loving the wrong man. Hundreds of years later, in New York City at the cusp of the sixties, when the whole world is about to change, Susanna Owens knows that her three children are dangerously unique. Difficult Franny, with skin as pale as milk and blood red hair, shy and beautiful Jet, who can read other people's thoughts, and charismatic Vincent, who began looking for trouble on the day he could walk. From the start Susanna sets down rules for her children: No walking in the moonlight, no red shoes, no wearing black, no cats, no crows, no candles, no books about magic. And most importantly, never, ever, fall in love. But when her children visit their Aunt Isabelle, in the small Massachusetts town where the Owens family has been

Yet, the children cannot escape love even if they try, just as they cannot escape the pains of the human heart. The two beautiful sisters will grow up to be the memorable aunts in *Practical Magic*, while Vincent, their beloved brother, will leave an unexpected legacy. Alice Hoffman delivers “fairy-tale promise with real-life struggle” (The New York Times Book Review) in a story how the only remedy for being human is to be true to yourself. Thrilling and exquisite, real and fantastical, *The Rules of Magic* is “irresistible...the kind of book you race through, then pause at the last forty pages, savoring your final moments with the characters” (USA TODAY, 4/4 stars).

Dallas, New Year's Eve 1999, when he gathers with the congregation of his grandfather's black evangelical church to see which of them will be carried off. His beautiful, fragile mother disappears frequently and mysteriously; for a brief idyll, he and his sister live like Boxcar Children on her disability checks. When Casey--following in the footsteps of his father, a gridiron legend who literally broke his back for the team--is recruited to play football at Yale, he enters a world he's never dreamed of, the anteroom to secret societies and success on Wall Street, in Washington, and beyond. But even as he attains the inner sanctums of power, Casey sees how the world crushes those who live at its margins. He sees how the elite perpetuate the salvation stories that keep others from rising. And he sees, most painfully, how his own ascension is part of the scheme. *There Will Be No Miracles Here* has the arc of a classic rags-to-riches tale, but it stands the American Dream narrative on its head. If to live as we are is destroying us, it asks, what would it mean to truly live? Intense, incantatory, shot through with sly humor and quiet fury, *There Will Be No Miracles Here* inspires us to question--even shatter--and reimagine our most cherished myths.

The award-winning New York Times bestseller about the extraordinary things that can happen when we harness the power of both the brain and the heart Growing up in the high desert of California, Jim Doty was poor, with an alcoholic father and a mother chronically depressed and paralyzed by a stroke. Today he is the director of the Center for Compassion and Altruism Research and Education (CCARE) at Stanford University, of which the Dalai Lama is a founding benefactor. But back then his life was at a dead end until at twelve he wandered into a magic shop looking for a plastic thumb. Instead he met Ruth, a woman who taught him a series of exercises to ease his own suffering and manifest his greatest desires. Her final mandate was that he keep his heart open and teach these techniques to others. She gave him his first glimpse of the unique relationship between the brain and the heart. Doty would go on to put Ruth's practices to work with extraordinary results—power and wealth that he could only imagine as a twelve-year-old, riding his orange Sting-Ray bike. But he neglects Ruth's most important lesson, to keep his heart open, with disastrous results—until he has the opportunity to make a spectacular charitable contribution that will virtually ruin him. Part memoir, part science, part inspiration, and part practical instruction, *Into the Magic Shop* shows us how we

I never planned to fall in love. Least of all with a woman, you. But I did, and telling you was the hardest thing I ever did. I knew how you would reach first, but I never anticipated how hard it will be for me or how you reacted next. I had to write, for the first time ever, and now we face book number two. I wrote just to tell you how I feel, what I think. All the things I wanted to say to you but you didn't want to listen. So I wrote, and wrote, and wrote. Flood of thoughts, feelings, whatever came to my mind. Just to give me five minutes of strength to get out of bed. I wrote for me. I wrote for you. Most of them are here. My pain, my love, my longing, my hesitations, My certainty. I know you don't want to hear from me, don't want to read what I have to tell you. But I have to get them out of me, if not to you then just out there, to the world who doesn't know me. Maybe some day you will find your courage and return. Until then my love, You Still don't Know How Much I Love You.

An extraordinary memoir about finding wonder in everyday life, from magician Nate Staniforth. Nate Staniforth has spent most of his life and all of his professional career trying to understand wonder--what it is, where to find it, and how to share it with others. He became a magician because he learned at a young age that magic tricks don't have to be frivolous. Magic doesn't have to be about sequins and smoke machines--rather, it can create a moment of genuine astonishment. But after years on the road as a professional magician, crisscrossing the country and performing four or five nights a week, every week, Nate was disillusioned, burned out, and ready to quit. Instead, he went to India in search of magic. Here Is Real Magic follows Nate Staniforth's evolution from an obsessed young magician to a broken wanderer and back again. It tells the story of his rediscovery of astonishment--and the importance of wonder in everyday life--during his trip to the slums of India, where he infiltrated a three-thousand-year-old clan of street magicians. Here Is Real Magic is a call to all of us--to welcome awe back into our lives, to marvel in the everyday, and to seek magic all around us.
