Financial Management: Theory and Practice celebrates the 23rd Anniversary of its publication. Over these two decades, Indian business and finance have considerably changed owing to deregulation, liberalisation, privatisation, globalisation, and the ascendance of the services sector. The book has kept pace with these changes and captures the central themes and concerns of corporate financial management-making it both contemporary and comprehensive. The book seeks to:

- *Build understanding of the central ideas and theories of modern finance
- *Develop familiarity with the analytical techniques helpful in financial decision making
- *Furnish institutional material relevant for understanding the environment in which financial decisions are taken
- *Discuss the practice of financial management.

The rules presented in this volume of the "Principles of European Law" deal with sales contracts. The sales contract has served as the paradigm for contracts in general. Moreover, it is also probably the most common contract, and certainly the most common consumer contract, that there is. In fact, sales come in all shapes and sizes: ranging from the purchase of the daily newspaper at the news-stand or the groceries in the supermarket, through to the purchase of a new car and to commodity sales on highly specialised markets. Furthermore, there are many mixed transactions that contain a certain element of sale, such as distribution contracts or all sorts of manufacturing contracts.
