This engagingly written, jargon-free challenge to the misguided and dangerous global obsession with cultural difference critiques the popular notion that world affairs are determined by civilizations with immutable and conflicting cultures. Culture is too often understood as a straightjacket of values that make people act in a certain way. A more accurate and constructive approach is to see culture as a changing system of meaning, which individuals deploy selectively to make sense of the world.

Seeker of Spirituality? Lover of Exquisite Poetry? Look No Beyond "One Hundred Poems of Tukaram"! This book is a collection of selected poems of Tukaram, the greatest poet from India, who finely blends worldly wisdom with spirituality. Though written in the seventeenth century, Tukaram's poetry hold its relevance in our own twenty-first century that is facing so many self-created evils! These poems will heal your bruised mind with their spiritual touch and at the same time enrich it with their worldly wisdom! Much needed fine balance indeed!!! Tukaram was a seventeenth century Indian poet who challenged the norms of the day, whether literary, social or religious in his poems that not only energized a decaying society but also influenced the centuries to come. Tukaram's poetry hold its rejuvenating powers even in the turbulent times of our own twenty-first century. One Hundred Poems of Tukaram is a translation of selected poems of this visionary poet who makes his reader see every aspect of life in a new light, enabling them to rethink the whole world in more positive terms. Tukaram's reputation as one of the greatest poets born in India resides on his four thousand or so extant poems which he composed in Marathi, his mother tongue. Unlike most of the poets of the seventeenth century, Tukaram did not write in highly Sanskritised Marathi, instead he chose the colloquial language spoken by the common-most people of his times. This has given a distinct vigour to his compositions which appeal straight to the heart of his readers. By temperament, Tukaram is as candid and as forthright as imaginable and does not hesitate to write about anything under the sun nor does he consider anything too holy to be left untouched. This makes his poems penetratingly consistent in taking aim at the very core of the questions grappling human existence. Though he wrote almost four hundred years ago, in a very different social milieu than today's globalised and digitized world, somehow he seems to be dealing with and overcoming exactly the same dilemmas faced by the human populace in the twenty first century the world over. This continuum of human condition is what draws us more and more to the poems of Tukaram. While reading Tukaram, one gets an eerie feeling that Tukaram is a contemporary poet, that the content of his poems is of the present times, that he writes for the current generations. Thus we come across in his poems all that angst that we today experience on seeing innocent people suffering at the hands of the terrorists, when he exclaims: "Eyes cannot bear to see Such is the devastation Pains of others grieve My heart" It hardly matters that Tukaram is writing in this poem about the horrific droughts of his times that wiped out an entire generation; this becomes an expression of my heart writhing in pain seeing the images of the thousands of Nigerians killed in the Boko Haram attack. It hardly matters that Tukaram is talking about a nature-inflicted calamity, while our miseries today are self-inflicted. Tukaram's words catch hold of our aching nerve like no contemporary of ours can.

How does a company constantly win more business than its rivals? A key factor is the ability to create proposals that outshine those from even the strongest competitors.

Powerful Proposals helps businesses maximize the selling power of their proposals, with proven strategies for going beyond "this is what we do" documents in favor of customer-centered offers that highlight the tangible benefits your company offers. This powerful process offers tools and techniques that will let any firm: * assess their "winner or loser" proposal status and take proactive steps to become a winner * address the ""Big Four"" questions that a proposal must answer to be successful * create "A+" proposals in less time with less wasted effort via a simple, repeatable process * neutralize the issue of price when the firm is not the low-price provider Powerful Proposals takes readers step by step through designing executive summaries, writing themes, and generating the text. There is also valuable information on strategy, graphics, callouts, and other visual elements.

It is the sunset of the Mughal Empire. The splendour of imperial Delhi flares one last time. The young daughter of a craftsman in the city elopes with an officer of the East India Company. And so we are drawn into the story of Wazir Khanam: a dazzlingly beautiful and fiercely independent woman who takes a series of lovers, including a Navab and a Mughal prince—and whom history remembers as the mother of the famous poet Dagh. But it is not just one life that this novel sets out to capture: it paints in rapturous detail an entire civilization. Beginning with the story of an enigmatic and gifted painter in a village near Kishangarh, *The Mirror of Beauty* embarks on an epic journey that sweeps through the death-giving deserts of Rajputana, the verdant valley of Kashmir and the glorious cosmopolis of Delhi, the craft of miniature painting and the art of carpet designing, scintillating musical performances and recurring paintings of mysterious, alluring women. Its scope breathtaking, its language beguiling, and its style sumptuous, this is a work of profound beauty, depth and power.

Riley Walker makes all the right decisions and knows exactly where her life is headed. She does not make mistakes and she doesn't make spontaneous decisions. But when Riley gets dumped, she is feeling more than just a little bit angry. Suddenly the girl who has always done everything right feels like doing something completely wrong. Garrett Bellows, lead guitarist for the local band Generation Rejects, is shocked to find himself drawn to the snarky girl with a chip on her shoulder. Alcohol and a hefty dose of lust leads to a night both Riley and Garrett immediately regret. Her embarrassment, his pride and the weight of rumors and misconceptions convince them that their one-time indiscretion will never be repeated. But how do you reconcile a head that wants to go with a heart that keeps holding on? And what happens when your biggest regret begins to seem almost perfect?

For every one of us life is a journey filled with beauty and pitfalls. It was my good fortune to make the journey through a very climactic period in history in a job I loved, blessed with family and friends. Flying revealed the powerful forces of nature and was a great teacher. When the hail rattles off the fuselage, lightning flashes all around, updrafts and downdrafts send you soaring 3 000 feet a minute; focus, keep it an even keel and on course because this too shall pass. So it is in life. Flying as in life, history is important. The same basic procedures for flying through turbulence have not changed over the years.

Anticipate, slow down to turbulence speed before penetrating so you enter with a stable attitude and power setting. We learn from predecessors mistakes. The reason for writing this book was to share this rather remarkable journey and give a small personal peek into the turbulent 20th Century.

The term Wearable Technology encompasses a wide spectrum of devices, services and systems for wireless communications and the web. This book discusses characteristics and design elements required for wearable devices and systems to be embraced by the mainstream population for use in their everyday lives, introducing concepts such as Operational Inertia. The book discusses social and legal issues that may pose the greatest impediment to adoption of wearables. The book is structured to meet the needs of researchers and practitioners in industry, and can also be used as a secondary text in advanced-level courses in computer science and electrical engineering.

The first important fictional treatment of the werewolf theme in English literature, this Victorian thriller traces Wagner's blood-soaked trail through 16th-century Italy in a gothic feast of murder and intrigue.

THE DEATH OF THE LORD JESUS CHRIST is a subject of never-failing interest to all who study prayerfully the scripture of truth. This is so, not only because the believer's all both for time and eternity depends upon it, but also, because of its transcendent uniqueness. Four words appear to sum up the salient features of this mystery of mysteries: the death of Christ was natural, unnatural, preternatural, and supernatural. The death of Christ was natural. By this we mean that it was a real death. It is because we are so familiar with the fact of it that the above statement appears simple and commonplace, yet, what we here touch upon is to the spiritual mind one of the main elements of wonderment. The one who was "taken, and by wicked hands" crucified and slain was none other than Jehovah's "Fellow". The blood that was shed on the accursed tree was divine - "The church of God which he purchased with his own blood"

Glittering angels brighten the world with their luminous glow. How much risk should we take? A Short Guide to Risk Appetite sets out to help all those who need to decide how much risk can be taken in a particular risky and important situation. David Hillson and Ruth Murray-Webster introduce the RARA Model to explain the complementary and central roles of Risk Appetite and Risk Attitude, and along the way they show how other risk-related concepts fit in. Risk thresholds are the external expression of inherent risk appetite, and the challenge is how to set the right thresholds. By progressively deconstructing the RARA Model, the authors show that the essential control step is our ability to choose an appropriate risk attitude. The book contains practical guidance to setting risk thresholds that take proper account of the influences of organisational risk culture and the individual risk preferences of key stakeholders. Alongside this, individuals and organisations need to choose the risk attitude that will optimise their chances of achieving the desired objectives.

In The Trap, one of the most successful businessmen of the era brings his challenging perspective to such key issues as the true effects of global economic integration, the environmental and economic dangers of modern industrial agriculture, and our destabilized society, and offers answers and solutions that will help determine the shape of our world in the 21st century.

Anyone who has heard of chiasmus is likely to think of it as no more than a piece of rhetorical playfulness, at times challenging, though useful for supplying a memorable sententious note or for performing a pirouette of syntax and thought. Going beyond traditional rhetoric, this volume is concerned with the possibility of using the figure of chiasmus to model a broad array of phenomena, from human relations to artistic creation. In the process, it provides the first book-length study not of chiasmus, the rhetorical figure, but of chiastic thought. The contributors are concerned with chiastic inversion and its place in social interactions, cultural creation, and more generally human thought and experience. They explore from a variety of angles what the unsettling logic of chiasmus (from the Greek meaning "cross-wise"), has to tell us about the world, human relations, cultural patterns, psychology, and artistic and poetic creation.

The amazing science behind the search for Earth-like planets Ever since Carl Sagan first predicted that extraterrestrial civilizations must number in the millions, the search for life on other planets has gripped our imagination. Is Earth so rare that advanced life forms like us—or even the simplest biological organisms—are unique to the universe? How to Find a Habitable Planet describes how scientists are testing Sagan's prediction, and demonstrates why Earth may not be so rare after all. James Kasting has worked closely with NASA in its mission to detect habitable worlds outside our solar system, and in this book he introduces readers to the advanced methodologies being used in this extraordinary quest. He addresses the compelling questions that planetary scientists grapple with today: What exactly makes a planet habitable? What are the signatures of life astronomers should look for when they scan the heavens for habitable worlds? In providing answers, Kasting explains why Earth has remained habitable despite a substantial rise in solar luminosity over time, and why our neighbors, Venus and Mars, haven't. If other Earth-sized planets endowed with enough water and carbon are out there, he argues, chances are good that some of those planets sustain life. Kasting describes the efforts under way to find them, and predicts that future discoveries will profoundly alter our view of the universe and our place in it. This book is a must-read for anyone who has ever dreamed of finding other planets like ours—and perhaps even life like ours—in the cosmos. In a new afterword, Kasting presents some recent breakthroughs in the search for exoplanets and discusses the challenges facing space programs in the near future.

Revolutionary Desire in Italian Cinema is the first book to draw on psychoanalytical concepts and film theories to examine the critical tendency of Italian cinema and the way in which auteur Italian filmmakers have expressed their counter-ideological thought and criticism against Italian society. The book examines how by being committed to Italian social reality, Italian cinema expresses a desire for revolt against the status quo and the dominant ideological order. Taking as case studies Bernardo Bertolucci's Prima della rivoluzione, Marco Bellocchio's I pugni in tasca, Pier Paolo Pasolini's Porcile, Nanni Moretti's Ecce Bombo and La messa è finita, the book relies on socio-historiographical theories through which Luana Ciavola discusses how plot and characters create a sense of revolt against the both social order and values such as family, religion and bourgeois ethics. The book confirms the central role of Italian cinema in a historical and political context, insofar as it includes a substantial background which highlights aspects of Italian history never considered before in a study on Italian cinema. Revolutionary Desire in Italian Cinema is aimed at academics, researchers, undergraduate and postgraduate students and all lovers of Italian cinema.

More than any rock artist since The Beatles, Radiohead's music inhabits the sweet spot between two extremes: on the one hand, music that is wholly conventional and conforms to all expectations of established rock styles, and, on the other hand, music so radically experimental that it thwarts any learned notions. While averting mainstream trends but still achieving a significant level of success in both US and UK charts, Radiohead's music includes many surprises and subverted expectations, yet remains accessible within a framework of music traditions. In Everything in its Right Place: Analyzing Radiohead, Brad Osborn reveals the functioning of this reconciliation of extremes in various aspects of Radiohead's music, analyzing the unexpected shifts in song structure, the deformation of standard 4/4 backbeats, the digital manipulation of familiar rock 'n' roll instrumentation, and the expected resolutions of traditional cadence structures. Expanding on recent work in musical perception, focusing particularly on form, rhythm and meter, timbre, and harmony, Everything in its Right Place treats Radiohead's recordings as rich sonic ecosystems in which a listener participates in an individual search for meaning, bringing along expectations learned from popular music, classical music, or even Radiohead's own compositional idiolect. Radiohead's violations of these subjective expectation-realization chains prompt the listener to search more deeply for meaning within corresponding lyrics, biographical details of the band, or intertextual relationships with music, literature, or film. Synthesizing insights from a range of new methodologies in the theory of pop and rock, and specifically designed for integration into music theory courses for upper level undergraduates, Everything in its Right Place is sure to find wide readership among scholars and students, as well as avid listeners who seek a deeper understanding of Radiohead's distinctive juxtapositional style.

In this mystery in the bestselling Cat Who series, there's something rotten in the small town of Pickax—at least to the sensitive noses of newspaperman Jim Qwilleran and his Siamese cats Koko and Yum Yum. They soon sniff out a shocking secret, but Koko's snooping into an unusual edition of Shakespeare may prove CATastrophic... because somewhere in Pickax, a lady loves not wisely but too well, a widow is scandalously merry, and a stranger has a lean and hungry look. The

stage is set for Quilleran, Koko, Yum Yum, and the second act of murder most meow...

If the old toy soldier hadn't come to life, Roger would never have discovered the magic. And that would never have happened if he and his sister, Ann, hadn't been sent to stay with their bossy cousins for the summer. And that wouldn't have happened at all if their father hadn't gotten sick and gone into the hospital. But all of that did happen, and now Roger, his sister, and their cousins find themselves in a bygone world of chivalry and knighthood, of Robin Hood and Ivanhoe. In this knightly realm they can make a difference—and perhaps even save the person they most need to save—if only they are smart and brave enough, if only they are true to their hearts.
