

## Hitlers Suppressed And Still Secret Weapons Science And

"Original Polish edition was published in 2002 by WIS-2 Publishing Company, Warsaw."

A book examining the strange terrain of Nazi sympathizers, nonintervention campaigners and other voices in America who advocated on behalf of Nazi Germany in the years before World War II. Americans who remember World War II reminisce about how it brought the country together. The less popular truth behind this warm nostalgia: until the attack on Pearl Harbor, America was deeply, dangerously divided. Bradley W. Hart's *Hitler's American Friends* exposes the homegrown antagonists who sought to protect and promote Hitler, leave Europeans (and especially European Jews) to fend for themselves, and elevate the Nazi regime. Some of these friends were Americans of German heritage who joined the Bund, whose leadership dreamed of installing a stateside Führer. Some were as bizarre and hair-raising as the Silver Shirt Legion, run by an eccentric who claimed that Hitler fulfilled a religious prophecy. Some were Midwestern Catholics like Father Charles Coughlin, an early right-wing radio star who broadcast anti-Semitic tirades. They were even members of Congress who used their franking privilege—sending mail at cost to American taxpayers—to distribute German propaganda. And celebrity pilot Charles Lindbergh ended up speaking for them all at the America First Committee. We try to tell ourselves it couldn't happen here, but Americans are not immune to the lure of fascism. *Hitler's American Friends* is a powerful look at how the forces of evil manipulate ordinary people, how we stepped back from the ledge, and the disturbing ease with which we could return to it.

"An extraordinary saga." —David Grann, *New York Times* bestselling author of *Killers of the Flower Moon* The mesmerizing account of a granddaughter's search for a World War II family history hidden for sixty years Growing up in Paris as the daughter of a German mother and an Irish father, Svenja O'Donnell knew little of her family's German past. All she knew was that her great-grandparents, grandmother, and mother had fled their home city of Königsberg near the end of World War II, never to return. But everything changed when O'Donnell traveled to the city—now known as Kaliningrad, and a part of Russia—and called her grandmother, who uncharacteristically burst into tears. "I have so much to tell you," Inge said. In this transporting and illuminating book, the award-winning journalist vividly reconstructs the story of Inge's life from the rise of the Nazis through the brutal postwar years, from falling in love with a man who was sent to the Eastern Front just after she became pregnant with his child, to spearheading her family's flight as the Red Army closed in, her young daughter in tow. Ultimately, O'Donnell uncovers the act of violence that separated Inge from the man she loved; a terrible secret hidden for more than six decades. A captivating World War II saga, *Inge's War* is also a powerful reckoning with the meaning of German identity and inherited trauma. In retracing her grandmother's footsteps, O'Donnell not only discovers the remarkable story of a woman caught in the gears of history, but also comes face-to-face with her family's legacy of neutrality and inaction—and offers a rare glimpse into a reality too long buried by silence and shame.

As the Nazi advance across Europe stalled, Adolf Hitler repeatedly told his military advisers and inner circle that Germany possessed Wunderwaffen - miracle weapons - that would turn the tide and bring the Germans ultimate victory. But was he simply boasting out of desperation, or were the 'miracle weapons' real? Ideas that other governments considered too outrageous were funded by the Third Reich. At this time, German scientists and engineers led the world in the fields of aviation research, rocketry, and the quest for alternative sources of energy. They even came perilously close to beating the British and Americans in the search to build the first atomic bomb. This book describes the Nazis' secret plans to produce weapons of mass destruction, and shows how they almost succeeded in defeating the Allies in World War II.

A fresh and insightful history of how the German arts-and-letters scene was transformed under the Nazis Culture was integral to the smooth running of the Third Reich. In the years preceding WWII, a wide variety of artistic forms were used to instill a Nazi ideology in the German people and to manipulate the public perception of Hitler's enemies. During the war, the arts were closely tied to the propaganda machine that promoted the cause of Germany's military campaigns. Michael H. Kater's engaging and deeply researched account of artistic culture within Nazi Germany considers how the German arts-and-letters scene was transformed when the Nazis came to power. With a broad purview that ranges widely across music, literature, film, theater, the press, and visual arts, Kater details the struggle between creative autonomy and political control as he looks at what became of German artists and their work both during and subsequent to Nazi rule.

He's the worst Nazi war criminal you've never heard of Sidekick to SS Chief Heinrich Himmler and supervisor of Nazi rocket scientist Wernher von Braun, General Hans Kammler was responsible for the construction of Hitler's slave labor sites and concentration camps. He personally altered the design of Auschwitz to increase crowding, ensuring that epidemic diseases would complement the work of the gas chambers. Why has the world forgotten this monster? Kammler was declared dead after the war. But the aide who testified to Kammler's supposed "suicide" never produced the general's dog tags or any other proof of death. Dean Reuter, Colm Lowery, and Keith Chester have spent decades on the trail of the elusive Kammler, uncovering documents unseen since the 1940s and visiting the purported site of Kammler's death, now in the Czech Republic. Their astonishing discovery: US government documents prove that Hans Kammler was in American custody for months after the war—well after his officially declared suicide. And what happened to him after that? Kammler was kept out of public view, never indicted or tried, but to what end? Did he cooperate with Nuremberg prosecutors investigating Nazi war crimes? Was he protected so the United States could benefit from his intimate knowledge of the Nazi rocket program and Germany's secret weapons? *The Hidden Nazi* is true history more harrowing—and shocking—than the most thrilling fiction.

They hid wherever they could for as long as it took the Allies to win the war -- Jewish children, frightened, alone, often separated from their families. For months, even years, they faced the constant danger of discovery, fabricating new identities at a young age, sacrificing their childhoods to save their lives. These secret survivors have suppressed these painful memories for decades. Now, in *The Hidden Children*, twenty-three adult survivors share their moving wartime experiences -- some for the first time. There is Rosa, who hid in an impoverished one-room farmhouse with three others, sleeping on a clay pallet behind a stove; Renee, who posed as a Catholic and was kept in a convent by nuns who knew her secret; and Richard, who lived in a closet with his family for thirteen months. Their personal stories of belief and determination give a voice, at last, to the forgotten. Inspiring and life-affirming, *The Hidden Children* is an unparalleled document of witness, discovery, and the miracle of human courage.

WWII expert Stevens shows us the incredible and suppressed technology of the Third Reich and their desire to create highly advanced "wingless" aircraft--yes, flying saucers! Learn why the Schriever-Habermohl project was actually two projects and read the written statement of a German test pilot who actually flew one of these saucers; about the Leduc engine, the key to Dr. Miethes saucer designs; how US government officials kept the truth about foo-fighters hidden for almost sixty years and how they were finally forced to come clean about the German origin of foo fighters. Learn of the Peenemuende saucer project and how it was slated to go atomic. Read the testimony of a German eyewitness who saw magnetic discs. Read the U.S. government's own reports on German field propulsion saucers. Read how the post-war German KM-2 field propulsion rocket worked. Learn details of the work of Karl Schappeller and Viktor Schauberger. Learn how their ideas figure in the quest to build field propulsion flying discs. Find out what happened to this technology after the war. Find out how the Canadians got saucer technology directly from the SS. Find out about the surviving Third Power of former Nazis. Learn of the US government's methods of UFO deception and how they used the German Sonderbueroll as the model for Project Blue Book.

David Childress, popular author and star of the History Channel show *Ancient Aliens*, brings us the incredible tale of the German flying disk known as the Haunebu. Although rumors of German flying disks have been around since the late years of WWII it was not until 1989 when a German researcher named Ralf Ettl living in London received an anonymous packet of photographs and documents concerning the planning and development of at least three types of unusual craft--craft which we would classify today as UFOs or flying saucers. Ettl went on to make several television documentaries based on the material in the packet and released most of the documents and photos to researchers in Austria and other parts of Europe. What the Ralf Ettl document dump shows us is what many have suspected for a long time: that WWII did not end in the manner in which we have been told, and a remnant of the Nazi military--particularly the SS--continued to operate flying saucers and submarines around the world in the decades after the end of the war. This activity--involving a flying saucer known as the Haunebu--was particularly notable in South America, but it ultimately involved all the continents of the world including Antarctica. Join Childress as he shows us the secret files involving the Haunebu, the Vrill craft, the Andromeda craft, and others. Includes a 16-page color section. Over 120 photographs and diagrams.

**#1 NEW YORK TIMES BESTSELLER • ONE OF TIME MAGAZINE'S 100 BEST YA BOOKS OF ALL TIME** The extraordinary, beloved novel about the ability of books to feed the soul even in the darkest of times. When Death has a story to tell, you listen. It is 1939. Nazi Germany. The country is holding its breath. Death has never been busier, and will become busier still. Liesel Meminger is a foster girl living outside of Munich, who scratches out a meager existence for herself by stealing when she encounters something she can't resist--books. With the help of her accordion-playing foster father, she learns to read and shares her stolen books with her neighbors during bombing raids as well as with the Jewish man hidden in her basement. In superbly crafted writing that burns with intensity, award-winning author Markus Zusak, author of *I Am the Messenger*, has given us one of the most enduring stories of our time. "The kind of book that can be life-changing." —*The New York Times* "Deserves a place on the same shelf with *The Diary of a Young Girl* by Anne Frank." —*USA Today* **DON'T MISS BRIDGE OF CLAY, MARKUS ZUSAK'S FIRST NOVEL SINCE THE BOOK THIEF.**

Hitler's Suppressed and Still-Secret Weapons SCB Distributors

The groundbreaking first edition of *Secret and Suppressed* influenced many in the conspiratorial 90s (including Chris Carter and his *X-Files*). Now comes the second edition, presenting a new set of revelations, rants, visions and nightmares that illuminate the paranoid and nightmarish post-9/11 world.

*The Secret King* is the first book to explode many myths surrounding the popular idea of Nazi occultism, while presenting the actual esoteric rituals used by Heinrich Himmler's SS under the influence of rune magician Karl-Maria Wiligut, the "Secret King of Germany." Stephen E. Flowers, PhD, is a prolific writer and translator in the fields of runology and the history of occultism. He is also the author of books on magical runic traditions under the pen name Edred Thorsson. Michael Moynihan co-authored the best-selling, award-winning book *Lords of Chaos*. He also co-edits the esoteric journal *Tyr*.

Nazi technology extended far further than has generally been acknowledged, in fact to almost unfathomable levels. This book provides a glimpse into German research. It contains reports of structured bombs of nipolit, N-stoff bombs, cold bombs, oxygen bombs which could destroy all life, atomic bombs and rumours of the mysterious molecular bomb.

Physicist and Oxford educated historian Joseph P. Farrell continues his best-selling series of exposés on secret Nazi technology, Nazi survival, and post-war Nazi manipulation of various manufacturing technologies, economies and whole countries. Beginning with pre-War corporate partnerships in the USA, including the Bush family, he moves on to the surrender of Nazi Germany, and evacuation plans of the Germans. He then covers the vast, and still-little-known recreation of Nazi Germany in South America with help of Juan Peron, I.G. Farben and Martin Bormann. Farrell then covers Nazi Germany's Penetration of the Muslim World including Wilhelm Voss and Otto Skorzeny in Gamel Abdul Nasser's Egypt before moving onto the development and control of New Energy Technologies including the Bariloche Fusion Project, Dr. Philo Farnsworth's Plasmator, and the Work of Dr. Nikolai Kozyrev. Finally, Farrell discusses

the Nazi desire to control space, and examines their connection with NASA, the esoteric meaning of NASA Mission Patches, plus final chapters on: Alchemy, Esotericism, The SS and the Unified Field Theory Craze; 1943-1945: Strange Events from the end of World War II and other "Postwar Shenanigans." This book is literally packed with information.

'Tim Tate, in Hitler's British Traitors, [explores] the entire grimy landscape of British treachery during the Second World War and the astonishing rogues' gallery of traitors working to help Nazi Germany win. [He makes] excellent use of the vast trove of material declassified by MI5 in recent years.' - Ben Macintyre, The Times Hitler's British Traitors is the first authoritative account of a well-kept secret: the British Fifth Column and its activities during the Second World War. Drawing on hundreds of declassified official files - many of them previously unpublished - Tim Tate uncovers the largely unknown history of more than 70 British traitors who were convicted, mostly in secret trials, of working to help Nazi Germany win the war, and several hundred British Fascists who were interned without trial on evidence that they were working on behalf of the enemy. Four were condemned to death; two were executed. This engrossing book reveals the extraordinary methods adopted by MI5 to uncover British traitors and their German spymasters, as well as two serious wartime plots by well-connected British fascists to mount a coup d'etat which would replace the government with an authoritarian pro-Nazi regime. The book also shows how archaic attitudes to social status and gender in Whitehall and the courts ensured that justice was neither fair nor equitable. Aristocratic British pro-Nazi sympathizers and collaborators were frequently protected while the less-privileged foot soldiers of the Fifth Column were interned, jailed or even executed for identical crimes.

The unpublished followup to Hitler's autobiography never published during the dictator's lifetime includes details of his vision for a foreign policy based on continual aggression that would inevitably result in a confrontation with the United States, which he saw as a major stumbling block to his plans.

In Big Brother: The Orwellian Nightmare Come True, Mark Dice details actual NSA high-tech spy systems, mind-reading machines, secret government projects, and emerging artificial intelligence programs that seem as if they came right out of George Orwell's novel Nineteen Eighty-Four. Orwell's famous book was first published in 1949, and tells the story of a nightmarish future where citizens have lost all privacy and are continuously monitored by the omniscient Big Brother surveillance system which keeps them obedient to a totalitarian government. The novel is eerily prophetic as many of the fictional systems of surveillance described have now become a reality. Mark Dice shows you the scary documentation that Big Brother is watching you, and is more powerful than you could imagine. - The National Security Agency - Facial Recognition Scanners - Mind Reading Machines - Neural Interfaces - Psychotronic Weapons - Orwellian Government Programs - The Nanny State - Orwellian Weapons - Artificial Intelligence - Cybernetic Organisms - A Closer Look at 1984 - Our Social Structure - The Control of Information - Perpetual State of War - The Personification of the Party - Telescreens - A Snitch Culture - Relationships in Shambles - A Heartless Society - Foreign Countries Painted as Enemies - Power Hungry Officials - An Erosion of the Language - Double Think - And More! By the author of The Illuminati: Facts & Fiction

In 1977 in the quiet English countryside a film called Alternative Three was aired. It was so shocking that for more than 30 years it's been discussed and analyzed. But what if Alternative Three was in fact real? Was it the blueprint for surviving the end of the world? How does it connect to the Secret Space Program, Nazi UFO's, SDI and even Chemtrails? Are there bases on the Moon? For the first time ever shocking details about the Secret Space Program and Alternative Three are exposed as is the connections between some of the greatest conspiracies of all time and a secret government program to move to Mars to survive the coming global apocalypse. Contents includes: Coming of Age in the Secret Space Race; Alternative Three—The Most Dangerous Show Ever Produced; Geoengineering, Chemtrails and Global Dimming; D.U.M.B Projects and the End of the World; Agenda 21, The Population Bomb and the Georgia Guidestones; The Nazi Flying Saucers; Close Encounters of the Totally Germanic Kind; Lasers, UFOs, and SDI—Evidence of the War in Space, Space Warden and the Hidden Military Machine in Orbit; Weapons in Orbit—Arming the High Frontier; Moon Bases, Mars Bases and The Great Beyond; Staffing the Solar War Machine—Mysterious Disappearances, National Parks, and the Break Away Civilization; more. Includes 4-page color section.

"A dense and scholarly book about . . . the relationship between the Nazi party and the occult . . . reveals stranger-than-fiction truths on every page."—Daily Telegraph The Nazi fascination with the occult is legendary, yet today it is often dismissed as Himmler's personal obsession or wildly overstated for its novelty. Preposterous though it was, however, supernatural thinking was inextricable from the Nazi project. The regime enlisted astrology and the paranormal, paganism, Indo-Aryan mythology, witchcraft, miracle weapons, and the lost kingdom of Atlantis in reimagining German politics and society and recasting German science and religion. In this eye-opening history, Eric Kurlander reveals how the Third Reich's relationship to the supernatural was far from straightforward. Even as popular occultism and superstition were intermittently rooted out, suppressed, and outlawed, the Nazis drew upon a wide variety of occult practices and esoteric sciences to gain power, shape propaganda and policy, and pursue their dreams of racial utopia and empire. "[Kurlander] shows how swiftly irrational ideas can take hold, even in an age before social media."—The Washington Post "Deeply researched, convincingly authenticated, this extraordinary study of the magical and supernatural at the highest levels of Nazi Germany will astonish."—The Spectator "A trustworthy [book] on an extraordinary subject."—The Times "A fascinating look at a little-understood aspect of fascism."—Kirkus Reviews "Kurlander provides a careful, clear-headed, and exhaustive examination of a subject so lurid that it has probably scared away some of the serious research it merits."—National Review

Even though dozens of top Nazi scientists were persuaded to switch their allegiance to the United States (or other Allied nations) through Operation Paperclip at the end of World War II, many innovators continued working under their original allegiance to the Third Reich. Operating from secret bases in Norway, Greenland, the Canary Islands, Antarctica and South America, these scientists developed astonishing technologies and a postwar Nazi power structure called the 'Dritte Macht' or Third Power. Stevens painstakingly provides the details, function and location, of several of these bases while revealing the underlying technologies being developed—they are interrelated in unexpected ways, and Stevens' fluency in German aids in his being able to present brand new evidence from documents and testaments translated by him for the first time. Stevens details how Hans Kammler survived the war, and set up shop in Prague. Together with Otto Skorzeny and his South American group and Reinhard Gehlen and his crew in Munich, Kammler lifted the 'Nazi International' into the Third Power, an information-based organization integral to the functioning of the Cold War.

This book seeks to answer three vital questions about the worldwide response to Hitler's "Final Solution": When did information about the genocide first become known to Jews and non-Jews? Through what channels was this information transmitted? What was the reaction of those who received word of the slaughter? Walter Laqueur's quest focuses on the period between June 1941, when Germany invaded the Soviet Union, and December 1942, by which time the United Nations had confirmed the news about the mass killings in a common declaration. By the end of 1942, Chelmno, Belzec, Auschwitz, Maidanek, Sobibor, and Treblinka were fully operational and two and a half million Jews had already been killed. According to Laqueur, word started to spread soon after extermination began. But there is no easy, straightforward answer to the wider question of why there was a failure to read and correctly interpret the signs in 1941; why so many individuals and governments actually chose to deny the reality of

genocide when faced with incontrovertible evidence. A probing and disturbing work, *The Terrible Secret* explores one of the most perplexing aspects of the Holocaust, a political and psychological riddle of general significance to the understanding of the history of our times.

"First published in Great Britain by Allen Lane."--Title page verso

*Human Rights after Hitler* reveals thousands of forgotten US and Allied war crimes prosecutions against Hitler and other Axis war criminals based on a popular movement for justice that stretched from Poland to the Pacific. These cases provide a great foundation for twenty-first-century human rights and accompany the achievements of the Nuremberg trials and postwar conventions. They include indictments of perpetrators of the Holocaust made while the death camps were still operating, which confounds the conventional wisdom that there was no official Allied response to the Holocaust at the time. This history also brings long overdue credit to the United Nations War Crimes Commission (UNWCC), which operated during and after World War II. From the 1940s until a recent lobbying effort by Plesch and colleagues, the UNWCC's files were kept out of public view in the UN archives under pressure from the US government. The book answers why the commission and its files were closed and reveals that the lost precedents set by these cases have enormous practical utility for prosecuting war crimes today. They cover US and Allied prosecutions of torture, including "water treatment," wartime sexual assault, and crimes by foot soldiers who were "just following orders." Plesch's book will fascinate anyone with an interest in the history of the Second World War as well as provide ground-breaking revelations for historians and human rights practitioners alike.

Was Hitler rational? This question has spawned vociferous debates among historians, and has fascinated every layman who has ever dipped into a biography of Hitler. In *Hitler and Abductive Logic*, Ben Novak argues that Hitler was rational—one of the most logical political leaders of modern times—but not according to ordinary inductive or deductive logic. Instead, Hitler used a new form of logic called abductive logic, which he used as a "trick" to seduce crowds and rise to power. Now, for the first time, the method that Hitler employed is revealed so that it can be recognized and combated.

"Revealing and well-written. . . . A significant book."—Houston Chronicle It is one of the most enduring mysteries of the twentieth century: how, exactly, Adolf Hitler died and what happened to his remains. With access to the Russians' Hitler Archive, this book reveals not only what happened after the Russians captured Hitler's bunker but also why the Soviets felt the details of his death had to be suppressed. A New York Times Bestseller A New York Times Book Review Editors' Choice The "highly evocative, deeply moving" true account of the extraordinary life and brutal death of Mildred Harnack, the American leader of one of the largest underground resistance groups in Germany during WWII—"a stunning literary achievement" (Kai Bird, author of *The Outlier* and co-author of Pulitzer Prize-winning *American Prometheus*) Born and raised in Milwaukee, Mildred Harnack was twenty-six when she enrolled in a PhD program in Germany and witnessed the meteoric rise of the Nazi party. In 1932, she began holding secret meetings in her apartment—a small band of political activists that by 1940 had grown into the largest underground resistance group in Berlin. She recruited working-class Germans into the resistance, helped Jews escape, plotted acts of sabotage, and collaborated in writing leaflets that denounced Hitler and called for revolution. Her coconspirators circulated through Berlin under the cover of night, slipping the leaflets into mailboxes, public restrooms, phone booths. When the first shots of the Second World War were fired, she became a spy, couriering top-secret intelligence to the Allies. On the eve of her escape to Sweden, she was ambushed by the Gestapo. At a Nazi military court, a panel of five judges sentenced her to six years at a prison camp, but Hitler overruled the decision and ordered her execution. On February 16, 1943, she was strapped to a guillotine and beheaded. Historians identify Mildred Harnack as the only American in the leadership of the German resistance, yet her remarkable story has remained almost unknown until now. Harnack's great-great-niece Rebecca Donner draws on her extensive archival research in Germany, Russia, England, and the U.S. as well as newly uncovered documents in her family archive to produce this astonishing work of narrative nonfiction. Fusing elements of biography, real-life political thriller, and scholarly detective story, Donner brilliantly interweaves letters, diary entries, notes smuggled out of a Berlin prison, survivors' testimony, and a trove of declassified intelligence documents into a powerful, epic story, reconstructing the moral courage of an enigmatic woman nearly erased by history.

*Horrorific Humor and the Moment of Droll Grimness in Cinema* explores the moment in audience reception where screams and laughter collide. Essays examine the aesthetics and mechanics of the sLaughter moment, the impact of its frisson of humor and horror on the viewer, and sLaughter's implications for the human condition more generally./span David Childress, popular author and star of the History Channel show *Ancient Aliens*, brings us the incredible tale of Nazi submarines and secret weapons in Antarctica and elsewhere. He looks into the strange life and death of Rudolf Hess, as well as the mystery of James Forrestal and the secret group called MJ-12. He examines Operation Highjump led by Admiral Richard Byrd in 1947 and the battle that he apparently had in Antarctica with flying saucers. Through "Operation Paperclip," the Nazis infiltrated aerospace companies, banking, media, and the US government, including NASA and the CIA after WWII. He reveals that the Nazis had built secret bases in a variety of places during WWII, including Greenland, the Canary Islands, Tibet and Antarctica. Childress discusses the secret U-boat fleet that patrolled the Atlantic and Antarctic Oceans for decades after the war. He looks into the secret German space program and its flying disks and tubular aircraft; the secret technology involved, including anti-gravity propulsion technology; underground and under ice bases; strange things happening in South America; and secret bases on the Moon and Mars. Childress looks at the possible merger of Nazi assets in Antarctic with the Americans' and the use of Antarctica as a space base for traffic to secret space stations in orbit and below the surface of the Moon. The author looks at military space programs such as Solar Warden, Lunex and Project Horizon. Does the US Space Force have a secret space program that maintains huge ships in orbit around the Earth and employs hundreds of astronauts as crew for these vehicles? Includes a 16-page color section.

This book tackles one of the most interesting and persistent mysteries pondered by mankind -- the very question of our own roots. Witkowski mounts a painstaking search for answers, and compiles an astonishing array of evidence that points to only one conclusion: in the very deep mists of the past, there existed a highly-advanced civilisation that was able to exert its influence on a world-wide scale, and did so in a purposeful way. These beneficent bringers of knowledge are described in almost every indigenous culture, and the- similarities in the accounts cannot be reasonably overlooked. But Witkowski's conclusions are not based on myth and legend. He brings a multi-disciplinary approach to the problem, comparing archaeological discoveries, ethnological relations, historical documents, linguistics and even the achievements of genetic research. A native of Poland, he accesses many sources not normally cited in American studies, and shows that many "academic truths" still being promulgated simply do not make sense in light of the evidence. You will be amazed as he traces the spread of this civilisation from the Indus Valley, across the Pacific to South America. Thete stand the culture's crowning

achievements, at Tiahuanaco in Bolivia and on Easter Island off Chile. Taken together, the facts presented by Witkowski provide a fresh, new proof that an antediluvian great civilisation flourished many millennia ago. Discover: The Real Mystery of Easter Island; Professor Szalek's Groundbreaking Discoveries; A Lost Land in the Pacific; The Mysterious Origins of the American Indians; The Chain of Traces across the Pacific; Tiahuanaco -- the City that Breaks all the Rules.

Defying Hitler was written in 1939 and focuses on the year 1933, when, as Hitler assumed power, its author was a 25-year-old German law student, in training to join the German courts as a junior administrator. His book tries to answer two questions people have been asking since the end of World War II: "How were the Nazis possible?" and "Why did no one stop them?" Sebastian Haffner's vivid first-person account, written in real time and only much later discovered by his son, makes the rise of the Nazis psychologically comprehensible. "An astonishing memoir... [a] masterpiece." — Gabriel Schoenfeld, The New York Times Book Review "A short, stabbing, brilliant book... It is important, first, as evidence of what one intelligent German knew in the 1930s about the unspeakable nature of Nazism, at a time when the overwhelming majority of his countrymen claim to have know nothing at all. And, second, for its rare capacity to reawaken anger about those who made the Nazis possible." — Max Hastings, The Sunday Telegraph "Defying Hitler communicates one of the most profound and absolute feelings of exile that any writer has gotten between covers." — Charles Taylor, Salon "Sebastian Haffner was Germany's political conscience, but it is only now that we can read how he experienced the Nazi terror himself — that is a memoir of frightening relevance today." — Heinrich Jaenicke, Stern "The prophetic insights of a fairly young man... help us understand the plight, as Haffner refers to it, of the non-Nazi German." — The Denver Post "Sebastian Haffner's Defying Hitler is a most brilliant and imaginative book — one of the most important books we have ever published." — Lord Weidenfeld

Evil isn't simply an abstract theological or philosophical talking point. In our society, the idea of evil feeds entertainment, manifests in all sorts of media, and is a root concept in our collective psyche. This accessible and appealing book examines what evil means to us. • Includes the insights of scholars from widely different academic fields to inspect evil from various points of view, giving readers a broader perspective on the topic • Compiles expert opinions from American, American expatriate, European, Asian, and Middle Eastern contributors • Covers the portrayal of evil in many different forms of media—film, television, music, art, video games, literature, poetry—as well as in politics, current events, and the legal arena

When Hitler's deputy Rudolf Hess set off for Britain on a peace mission in May 1941, he launched one of the great mysteries of the Second World War. Had he really acted alone, without Hitler's knowledge? Who were the British he had come to see? Was British intelligence involved? Award-winning historian Peter Padfield presents striking new evidence that demands the wholesale reappraisal of the episode. For, allied to a powerful argument that Hess must have had both Hitler's backing and considerable encouragement from Britain, Padfield demonstrates that he also brought with him a draft peace treaty committing Hitler to the evacuation of occupied European countries. Made public, this would have destroyed Churchill's campaign to bring the United States into the war. Expertly woven into a compelling narrative that touches on Lord (Victor) Rothschild and the Cambridge spy ring, possible British foreknowledge of Operation Barbarossa and the 'final solution', MI6's use of Hess to prevent the bombing of London and the mysterious circumstances of his death in Spandau prison – including the previously unseen witness accounts from that day – Hess, Hitler and Churchill is among the most important history books of recent years.

Between 1939 and 1945, more than seventy Allied men and women were convicted—mostly in secret trials—of working to help Nazi Germany win the war. In the same period, hundreds of British Fascists were also interned without trial on specific and detailed evidence that they were spying for, or working on behalf of, Germany. Collectively, these men and women were part of a little-known Fifth Column: traitors who committed crimes including espionage, sabotage, communicating with enemy intelligence agents and attempting to cause disaffection amongst Allied troops. Hundreds of official files, released piecemeal and in remarkably haphazard fashion in the years between 2002 and 2017, reveal the truth about the Allied men and women who formed these spy rings. Several were part of international espionage rings based in the United States. If these men and women were, for the most part, lone wolves or members of small networks, others were much more dangerous. In 1940, during some of the darkest days of the war, two well-connected British Nazi sympathizers planned overlapping conspiracies to bring about a "fascist revolution." These plots were foiled by Allied spymasters through radical—and often contentious—methods of investigation.

Tells the story of the financial calculation, exploitation, and greed at the core of the Third Reich, and includes revelations about those who provided Hitler with money The German Third Reich had the most technologically advanced and innovative weapons industries in World War II, with aircraft, tanks and bombs that could match and beat anything else in the World. What is less known is the extent of Germany's secret weapons development. Germany pioneered rocket and jet-propelled aircraft, the pilotless plane, long-range rocket technology and 'robot bombs', and the world's first super-heavy tanks. Many of these weapons had a real impact on the course of the war. Following the invasion of the Soviet Union and the realization that the war could continue for years, Hitler put great resources into the development of new and technologically advanced weaponry, in the belief that the production of 'wonder weapons' were the key to winning the war. 'World War II Data Book: Germany's Secret Weapons, 1939-45' gets behind this little-known aspect of the Nazi war machine to reveal the real extent of German secret weapons' development. Broken down by weapon types, the book includes exhaustive reference tables, diagrams, colorful maps and charts, presenting all the core data in easy-to-follow formats. 'World War II Data Book: Germany's Secret Weapons, 1939-45' is an essential reference guide for anyone interested in the history and make-up of Germany's secret weapons industry.

In April 1997, United States Secretary of Defense William Cohen declared that there are terrorists at work who "... are engaging even in an eco-type of terrorism whereby they can alter the climate, set off earthquakes, volcanoes remotely through the use of electromagnetic waves..." Weather modification in the form of cloud seeding to increase snow packs in the Sierras or suppress hail over Kansas is now an everyday affair. Hundreds of environmental and weather modifying technologies have been patented in the United States alone-and hundreds more are being developed in civilian, academic, military and quasi-military laboratories around the world at this moment! This book lays bare the grim facts of who is doing it and why. The earth and the sky have themselves been turned into weapons! Underground nuclear tests in Nevada have set off earthquakes. A Russian company has been offering to sell typhoons on demand since the 1990s. Scientists have been searching for ways to move hurricanes for over 50 years-the same timeframe that took us from the Wright Brothers to Neil Armstrong. In this book, Jerry E. Smith picks up where his 1998 book about the High-frequency Active Auroral Research Program (HAARP) left off. He reports on recent developments at HAARP, including its possible connection to the crash of the Space Shuttle Columbia and what role, if any, it played in certain "natural" disasters, like Hurricane Katrina. Tackling the chemtrail controversy, Smith examines claims that particles called aerosols are being deliberately injected into the atmosphere. Edward Teller, father of the hydrogen bomb, proposed putting up a "sun screen" of aerosols to save the earth from global warming-is someone actually doing it? Numerous ongoing military programs do inject aerosols at high altitude for communications and surveillance operations. Could these include mind control or population control applications? Smith puts these technologies into context by examining the geopolitical conflicts that are driving their development from Globalization to the rise of Neo-Con Neo-Fascism.

Thirty years after World War II, in the depths of an Amazonian swamp, a crack team of young Israeli Nazi hunters come upon a grizzled and ravaged but alive Adolph Hitler and carry him back to civilization. Now we know what spooked the Allies in the closing months of the war and why they were in such a panic to win quickly. The Allies assembled intelligence reports of supermetals, electric guns, and ray weapons able to stop the engines of Allied aircraft in addition to their worst fears of x-ray and laser weaponry. Then there were the bombs. Contained in this book are reports of structured bombs of nipolit, N-stoff bombs, cold bombs, oxygen bombs which destroyed all life, atomic bombs and rumors of the mysterious molecular bomb. The true history of the fuel-air bomb is revealed by our own military. There is even a probability that the SS black alchemists of the 3rd Reich were experimenting with red mercury bomb technology. This book documents very large mystery rockets under development in Germany, far beyond the V-2. Technological history is also examined. Guess who invented the computer, magnetic tape and computer programs? How about refining crude oil using sound waves or producing gasoline for 11 cents per gallon or the synthetic penicillin substitute, "3065"? Very exotic technologies are also discussed including German experiments in time, sustained fusion reactions, zero point energy and travel in deep space. Chapters include: The Kammler Group; German Flying Disc Update (Witness to a German Flying Disc); The Electromagnetic Vampire; Liquid Air; Synthetic Blood; German Free Energy Research; German Atomic Tests; "Project Hexenkessel" The Fuel-Air Bomb; Supermetals; Red Mercury; Means To Stop Engines; Magnetic Wave-Motorstopmittel; "Death Rays"; Distillation of Crude Oil Using Sound Waves; What is Happening in Antarctica?; Large German Mystery Rockets; Experiments in Time; tons more.

Explores the role of ETs in the military, government, technology, history, and the coming new age • Surveys contact with ETs, abductions, alien technology and exopolitics, genetic tampering by ETs, and the history behind the Nazis and UFOs • Contains interviews with Jesse Marcel, Michael Salla, Paul LaViolette, Robert Bauval, Helen Wambach, and others at the forefront of the ET-derived New Science movement. The extraterrestrial presence on Earth is widening and, as we enter the Aquarian Age, will be admitted officially, causing shock and an urgent universal need to understand the social and technological changes derived from our space brothers. A primer for the explosive advances humanity will experience scientifically and spiritually in the coming years, this compendium explores the ET phenomenon and its influence on humanity past and present. The book surveys contact with ETs and abduction accounts, unexplained public and undisclosed military technology from aliens including anti-gravity devices, exopolitics (the influence of ETs in human affairs), the Iraqi Stargate, the Hybrid Project of alien interbreeding by abduction, Nazi ties to UFOS and their secret underground base in Antarctica, government cover-ups of alien interactions including Roswell, and the transformation triggered by the Hale-Bopp comet. Based on interviews with people who are witnessing the coming changes as well as those visionaries who are actually bringing them about--including John Mack, Major Jesse Marcel, Paul LaViolette, Robert Bauval, Michael Salla, and Helen Wambach--this book sketches out a breathtaking vision of the planetary revolution just around the corner.

In the last year of World War II, most of Germany realized defeat was imminent. Facing the overwhelming power and equipment of the Allies, Hitler authorized the construction of Wunderwaffe (wonder weapons). This story offers an explanation of the focus on the "Die Glocke" project. There were other Wunderwaffe projects but "The Bell" was the one most-cloaked in secrecy. If its powers could be harnessed by the Nazis, it could be the bargaining chip to bring the Allies to the negotiating table and improve the surrender terms of the Third Reich. Its powers were believed to be so staggering that at the end of World War II, all of the scientists and laborers working on "Die Glocke" were murdered. The bell, General Hans Kammler (SS general in charge of the Die Glocke project), two Nazi U-boats, and many Nazi war criminals ended up missing. This work of fiction attempts to explain this mystery.
