One of the most magnetic and esteemed poets in today's literary landscape, Patricia Smith fearlessly confronts the tyranny against the black male body and the tenacious grief of mothers in her compelling new collection, *Incendiary Art*. She writes an exhaustive lament for mothers of the "dark magicians," and revisits the devastating murder of Emmett Till. These dynamic sequences serve as a backdrop for present-day racial calamities and calls for resistance. Smith embraces elaborate and eloquent language— "her gorgeous fallen son a horrid hidden / rot. Her tiny hand starts crushing roses—one by one / by one she wrecks the casket's spray. It's how she / mourns—a mother, still, despite the roar of thorns"— as she sharpens her unerring focus on incidents of national mayhem and mourning. Smith envisions, reenvisions, and ultimately reinvents the role of witness with an incendiary fusion of forms, including prose poems, ghazals, sestinas, and sonnets. With poems impossible to turn away from, one of America's most electrifying writers reveals what is frightening, and what is revelatory, about history.

A New York Times Bestseller! An Instant Indie Bestseller! A dark, twisty modern fairytale where three sisters discover they are not exactly all that they seem and evil things really do go bump in the night. Iris Hollow and her two older sisters are unquestionably strange. Ever since they disappeared on a suburban street in Scotland as children only to return a month a later with no memory of what happened to them, odd, eerie occurrences seem to follow in their wake. And they're changing. First, their dark hair turned white. Then, their blue eyes slowly turned black. They have insatiable appetites yet never gain weight. People find them

disturbingly intoxicating, unbearably beautiful, and inexplicably dangerous. But now, ten years later, seventeen-year-old Iris Hollow is doing all she can to fit in and graduate high school on time--something her two famously glamorous globe-trotting older sisters, Grey and Vivi, never managed to do. But when Grey goes missing without a trace, leaving behind bizarre clues as to what might have happened, Iris and Vivi are left to trace her last few days. They aren't the only ones looking for her though. As they brush against the supernatural they realize that the story they've been told about their past is unraveling and the world that returned them seemingly unharmed ten years ago, might just be calling them home.

Browsing an antiques shop in Wiltshire, Alison Bannister stumbles across a delicate old portrait—identified as the doomed Tudor queen, Anne Boleyn. Except Alison knows better. The subject is Mary Seymour, the daughter of Katherine Parr, who was taken to Wolf Hall in 1557 and presumed dead after going missing as a child. And Alison knows this because she, too, lived at Wolf Hall and knew Mary...more than four hundred years ago. The painting of Mary is more than just a beautiful object for Alison—it holds the key to her past life, the unlocking of the mystery surrounding Mary's disappearance and how Alison can get back to her own time. To when she and Mary were childhood enemies yet shared a pact that now, finally, must be fulfilled, no matter the cost. Bestselling author of *House of Shadows* Nicola Cornick offers a provocative alternate history of rivals, secrets and danger, set in a time when a woman's destiny was determined by the politics of men and luck of birth. A spellbinding tale for fans of Kate Morton, Philippa Gregory and Barbara Erskine.

War, Law and Humanity tells the story of the transatlantic campaign to either mitigate the destructive forces of the battlefield, or prevent wars from being waged altogether, in the

decades prior to the disastrous summer of 1914. Starting with the Crimean War of the 1850s, James Crossland traces this campaign to control warfare from the scandalous barracks of Scutari to the shambolic hospitals of the American Civil War, from the bloody sieges of Paris and Erzurum to the combative conference halls of Geneva and The Hague, uncovering the intertwined histories of a generation of humanitarians, surgeons, pacifists and utopians who were shocked into action by the barbarism and depravities of war. By examining the fascinating personal accounts of these figures, Crossland illuminates the complex motivations and influential actions of those committed to the campaign to control war, demonstrating how their labours built the foundation for the ideas – enshrined in our own times as international norms – that soldiers need caring for, weapons need restricting and wars need rules.

"With rigorous original scholarship and creative narration, Lisa Brooks recovers a complex picture of war, captivity, and Native resistance during the "First Indian War" (later named King Philip's War) by relaying the stories of Weetamoo, a female

Wampanoag leader, and James Printer, a Nipmuc scholar, whose stories converge in the captivity of Mary Rowlandson. Through both a narrow focus on Weetamoo, Printer, and their network of relations, and a far broader scope that includes vast Indigenous geographies, Brooks leads us to a new understanding of the history of colonial New England and of American origins. In reading seventeenth-century sources alongside an analysis of the landscape and interpretations informed by tribal history, Brooks's pathbreaking scholarship is grounded not just in extensive archival research but also in the land and communities of Native New England."--Jacket flap.

Technology and increasing levels of education have exposed people to more information than ever before. These societal gains, however, have also helped fuel a surge in narcissistic and misguided intellectual egalitarianism that has crippled informed debates on any number of issues. Today, everyone knows everything: with only a quick trip through WebMD or Wikipedia, average citizens believe themselves to be on an equal intellectual footing with doctors and diplomats. All voices, even the most ridiculous, demand to be taken with equal seriousness, and any claim to the contrary is dismissed as undemocratic elitism. Tom Nichols' *The Death of Expertise* shows how this rejection of experts has occurred: the openness of the internet, the emergence of a customer satisfaction model in higher education, and the transformation of the news industry into a 24-hour entertainment machine, among other reasons. Paradoxically, the increasingly democratic dissemination of information, rather than producing an educated public, has instead created an army of ill-informed and angry citizens who

denounce intellectual achievement. When ordinary citizens believe that no one knows more than anyone else, democratic institutions themselves are in danger of falling either to populism or to technocracy or, in the worst case, a combination of both. An update to the 2017 breakout hit, the paperback edition of *The Death of Expertise* provides a new foreword to cover the alarming exacerbation of these trends in the aftermath of Donald Trump's election. Judging from events on the ground since it first published, *The Death of Expertise* issues a warning about the stability and survival of modern democracy in the Information Age that is even more important today.

A provocative satire of love, sex, money, and politics that unfolds over four wild days in so-called “paradise”—the long-awaited first novel from the acclaimed author of Sam the Cat “I seriously, deeply love this book.”—Michael Cunningham NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES AND THE WASHINGTON POST Every summer, a once-sort-of-famous cartoonist named Rich Fischer leaves his wife and two kids behind to teach a class at a weeklong arts conference in a charming New England beachside town. It's a place where, every year, students—nature poets and driftwood sculptors, widowed seniors, teenagers away from home for the first time—show up to study with an esteemed faculty made up of prizewinning playwrights, actors, and historians; drunkards and perverts; members of the cultural elite; unknown nobodies, midlist somebodies, and legitimate stars—a place where drum circles happen on the beach at midnight, clothing optional. Once more, Rich finds himself, in this seaside paradise, worrying about his family's nights without him and trying not to think about his book, now out of print, or his future as an illustrator at a glossy magazine about to go under, or his back taxes, or the

shameless shenanigans of his colleagues at this summer make-out festival. He can't decide whether his own very real desire for love and human contact is going to rescue or destroy him. A warped and exhilarating tale of love and lust, *Who Is Rich?* goes far beyond to address deeper questions: of family, monogamy, the intoxicating beauty of children, and the challenging interdependence of two soulful, sensitive creatures in a confusing domestic alliance. **ONGLISTED FOR THE CENTER FOR FICTION FIRST NOVEL PRIZE** “Funny, maddening . . . defiantly original . . . [Matthew] Klam’s prose is so clean, so self-assured, that it feels a little like a miracle.”—The New York Times “A dazzling meditation on monogamy [and] parenthood . . . full of sound and fury and signifying pretty much everything.”—The Boston Globe “Comic, wondrous, and sad.”—The New Yorker “Almost scarily astute.”—People “An electric amalgam of frustration and tenderness, wonder and rebellion: a paean to the obliterating power of parental love.”—Jennifer Egan “A contemporary masterpiece.”—Salon

This Element ambitiously surveys fictional professors in texts marketed towards children, who are overwhelmingly white and male, tending to be elderly scientists. Professors fall into three stereotypes: the vehicle to explain scientific facts, the baffled genius, and the evil madman. By the late twentieth century, the stereotype of the male, mad, muddlehead, called Professor SomethingDumb, is formed in humorous yet pejorative fashion. This Element provides a publishing history of the role of academics in children's literature, questioning the book culture which promotes the enforcement of stereotypes regarding intellectual expertise in children's
