American children need books that draw on their own history and circumstances, not

just the classic European fairy tales. They need books that enlist them in the great democratic experiment that is the United States. These were the beliefs of many of the authors, illustrators, editors, librarians, and teachers who expanded and transformed children's book publishing between the 1930s and the 1960s. Although some later critics have argued that the books published in this era offered a vision of a safe, secure, simple world without injustice or unhappy endings, Gary D. Schmidt shows that the progressive political agenda shared by many Americans who wrote, illustrated, published, and taught children's books had a powerful effect. Authors like James Daugherty, Laura Ingalls Wilder, Lois Lenski, Ingri and Edgar Parin D'Aulaire, Virginia Lee Burton, Robert McCloskey, and many others addressed directly and indirectly the major social issues of a turbulent time: racism, immigration and assimilation, sexism, poverty, the Great Depression, World War II, the atomic bomb, and the threat of a global cold war. The central concern that many children's book authors and illustrators wrestled with was the meaning of America and democracy itself, especially the tension between individual freedoms and community ties. That process produced a flood of books focused on the American experience and intent on defining it in terms of progress toward inclusivity and social justice. Again and again, children's books addressed racial discrimination and segregation, gender roles, class differences, the fate of Native Americans, immigration and assimilation, war, and the role of the United States in the world. Fiction and nonfiction for children urged them to see these issues

as theirs to understand, and in some ways, theirs to resolve. Making Americans is a study of a time when the authors and illustrators of children's books consciously set their eyes on national and international sights, with the hope of bringing the next generation into a sense of full citizenship.

William Blake (1757 - 1827) is one of the great figures in literature, by turns poet, artist and visionary. Profoundly libertarian in outlook, Blake's engagement with the issues of his day is well known and this - along with his own idiosyncratic concerns - flows through his poetry and art. Like Milton before him, the prodigality of his allusions and references is little short of astonishing. Consequently, his longer visionary poems can challenge the modern reader, who will find in this avowedly open edition all they might need to interpret the poetry. W. H. Stevenson's Blake is a masterpiece of scrupulous scholarship. It is, as the editor makes clear in his introduction, 'designed to be widely, and fluently, read' and this Third Edition incorporates many changes to further that aim. Many of the headnotes have been rewritten and the footnotes updated. The full texts of the early prose tracts, *All Religions are One* and *There is no Natural Religion*, are included for the first time. In many instances, Blake's capitalisation has been restored, better to convey the expressive individuality of his writing. In addition, a full colour plate section contains a representation of Blake's most significant paintings and designs. As the 250th anniversary of his birth approaches, Blake has perhaps more readers than ever before; Blake: The Complete Poems will stand those readers, new and old, in

The predominant anointing or grace that was upon the New Testament was the apostolic anointing. One does not have to walk in the office of the apostle in order to walk in an apostolic anointing. The First Century Church was established upon the ministry of the apostles and prophets. The church that arose walked in power, authority, revelation, wealth, etc. The Apostolic Call gives a clear understanding of what the apostolic anointing is and how to function in it.

will, but as you will. Matt. 26:39 This verse shows Jesus in the Garden of Gethsemane, just before he endured the ultimate suffering. There will be times in our lives when we will go through a similar Garden Experience. These will be times of sorrow, distress, loneliness, pain and rejection. We may enter with feelings of despair and anxiousness, but can come out comforted and renewed in hope. If we take our cares to the Lord and leave them there, we will have peace. Just as Jesus was willing to accept the will of His heavenly father, we must also accept God's will for us. Prayer is key for turning a Garden Experience, which looks hopeless, into a renewed relationship with the Lord. Whatever you are going through, just know that the Lord is right there, waiting for you to seek Him and accept His will. Our desire should be to be like Jesus, and do the will of the Lord. It is when we accept the will of our Heavenly Father that we obtain victory over our circumstance.

The poem was inspired by the apocryphal story that a young Jesus, accompanied by his uncle Joseph of Arimathea, a tin merchant, travelled to what is now England and visited Glastonbury during the unknown years of Jesus. The legend is linked to an idea in the Book of Revelation describing a Second Coming, wherein Jesus establishes a new Jerusalem. The Christian Church in general, and the English Church in particular, has long used Jerusalem as a metaphor for Heaven, a place of universal love and peace. In the most common interpretation of the poem, Blake implies that a visit by Jesus would briefly create heaven in England, in contrast to the "dark Satanic Mills" of the Industrial Revolution. Blake's poem asks questions rather than asserting the historical truth

of Christ's visit. Thus the poem merely implies that there may, or may not, have been a divine visit, when there was briefly heaven in England. William Blake (1757 – 1827) was a British poet, painter, visionary mystic, and engraver, who illustrated and printed his own books. Blake proclaimed the supremacy of the imagination over the rationalism and materialism of the 18th-century. Largely unrecognised during his lifetime, Blake is now considered a seminal figure in the history of both the poetry and visual arts of the Romantic Age.
