Bill Hood, the afternoon operator, was sitting in his shirt sleeves with his receivers "Beasts of Prey" asserts that men cannot be bound in lengthy relationships for good without crossing the line from time to time. The writer refers to well established theories, social, and biological research on men's hormonal and psychological structures to show how men's inclination to have sex with multiple women outside their bonds is at the heart of the matter. "Beasts of Prey" delves into the basics of males' cheating habits, tactics and schemes, and their sexual, social and cultural monopoly in the world. Following history of relationships from ancient times to the Internet revolution of our postmodern generation, "Beasts of Prey" exposes the stereotypes that lurk beneath the surface of male manipulated societies and their cultural taboos.

Who am I? This question has defied answer since time immemorial! World famous psychologists and scientists have tried to find an answer to this question without success. In fact, you know me very well. You meet me daily, live with me, work with me, work for me, supervise me, make me work for you; and my mistakes cause disasters, in which you and I perish! You meet me as a father, mother, brother, sister, husband, wife, friend, lover, employer, employee... the list is endless. No venture or activity can ever be accomplished without me. You need me. You cannot get anything done without me. It is I with whom you want a relationship; who creates the greatest love story or heartbreak; makes any undertaking a success or a failure; is the single largest cost item in any company's balance sheet; and matters the most in any activity. Yet, I am least understood and cared! Your inability to understand me leads to most of the organizational and interpersonal problems, even accidents and disasters, in the world today. Disasters, in relationships - between families, friends, colleagues and lovers; in work-place interactions leading to organizational conflicts; in development or implementation of policies, procedures or processes I cannot be relied upon to follow, leading to accidents; these result from your inability to understand me. I cannot be managed or controlled. I can only be led, motivated, mentored and developed. Love me, or hate me, you cannot live without me! You got me and the sooner you understand me, the better will it be for both of us! I am a human, and this... is my story.

The remarkable journey of an award-winning writer struck with a rare and devastating affliction that prevented him from reading even his own writing One hot midsummer morning, novelist Howard Engel picked up his newspaper from his front step and discovered he could no longer read it. The letters had mysteriously jumbled themselves into something that looked like Cyrillic one moment and Korean the next. While he slept, Engel had experienced a stroke and now suffered from a rare condition called alexia sine agraphia, meaning that while he could still write, he could no longer read. Over the next several weeks in hospital and in rehabilitation, Engel discovered that much more was affected than his ability to read. His memory failed him, and even the names of old friends escaped his tongue. At first geography eluded him: he would know that two streets met somewhere in the city, but he couldn't imagine where. Apples and grapefruit now looked the same. When he returned home, he had trouble remembering where things went and would routinely find cans of tuna in the dishwasher and jars of pencils in the freezer. Despite his disabilities, Engel prepared to face his dilemma. He contacted renowned neurologist Dr. Oliver Sacks for advice and visited him in New York City, forging a lasting friendship. He bravely learned to read again. And in the face of tremendous obstacles, he triumphed in writing a new novel. An absorbing and uplifting story, filled with sly wit and candid insights, The Man Who Forgot How to Read will appeal to anyone fascinated by the mysteries of the mind, on and off the page.

This was one of the 6 science fiction stories published in the first issue (April 1926) of the first magazine devoted to science fiction, Amazing Stories, edited and published by Hugo Gernsback, now considered to be the father of the science fiction genre. He described this story in an inset panel: "In 'Alice in the Looking Glass', the beautiful play of fancy which gave immortal fame to a logician and mathematician, we read of the mysterious change in size of the heroine, the charming little Alice. It tells how she grew large and small according to what she ate. But here we have increase in size pushed to its utmost limit. Here we have treated the growth of a man to cosmic dimensions. And we are told of his strange sensation and are led up to a sudden startling and impressive conclusion, and are taken through the picture of his emotions and despair." The goddess weeps for me. She places the golden mask on my face as her glittering tears fall like fluttering rose petals through air that trembles with light. Her eyes are fixed upon the golden mask. The mask shines, ornamenting the grim contours of my loveless visage. Moments ago, Clytemnestra drove daggers through me. Her murderous eyes fell upon the merciless stream of blood coursing through the now-uninhabited citadel of my body. The sight of the sacrificed Iphigenia was still emblazoned on her grieving mind. My wife watched as my life flooded out me, and I slowly felt myself being swept by a dark tide into the underworld. I felt a golden world slip away, and all that is left of it is the mask that now covers my lifeless face. I was told that the mask would allow my face to remain untouched while the rest of my body decomposed. I was told that a thousand years from now, someone will remove the mask and marvel at the immortal complexion underneath. The goddess continues to weep for me as everyone else has ceased to pour wordless whispers of longing upon my empty throne. The mask blissfully seared into my flesh and began its act of preserving my features so that they would live on. Destiny wears a mask, and now it will reveal its visage to me. It removes its mask as it stands before. I am young again, but this time I am wearing the golden mask. I realize that destiny will show its face to me as my face remains hidden behind gold. Moments ago, destiny entered the throne room with a shroud. My mask allowed me to see each movement destiny made. I wonder whether things will be different now. I already know everything that will transpire in the future: the abduction of Helen, the sacrifice of Iphigenia, the siege of Troy, the death of Achilles, and my own murder at the hands of Clytemnestra. I wonder whether I can prevent my daughter from being needlessly sacrificed. I wonder whether the voices of the gods will no longer push me to the brink of madness. Now, destiny holds its mask. The moment I look into its eyes, I know that everything that happened will happen again. I am wearing the mask now because I will wear it during my funeral. It is, after all, a funeral mask. Everything will happen as before because whether destiny is masked and unmasked is of no consequence to me anymore. Death has already come, for destiny spoke it.

A SYNTHESIS OF MODERN LIFE: A VISIONARY OVERVIEW OF THE EFFORT AND MISSION OF HUMANITY by Shamcher Bryn Beorse (Brynjolf Bjorset) The book Man and this Mysterious Universe was originally described as a synthesis of the many aspects of modern civilization, bringing within its scope the contribution of the East as well as of the West, showing how it has grown from the civilization of the past and how it will probably develop into the civilization of

the future. Or as the author put it more simply: a survey of Western and Eastern Sciences. Ranging through various disciplines from Everyday Life, Art, Education, World Events and Mysticism, Beorse describes the evolution of humanity and the responsibilities of each of us in this process. Seen all together, they convey an image of the totality of the human endeavour: occurring both outside of time and in time, on schedule, as a great play. "This comprehensive and refreshing picture is sorely needed at this time of narrow outlook and overspecialization," wrote the distinguished psychologist, educator and author, Dr. Philip B. Ballard. Inspired to write by the great sage, Inayat Khan, Beorse combined three former works into one for Man and This Mysterious Universe. Written during WWII, then added to with new information, the book was first published in 1949. His previous work, Distribute or Destroy, had been in the field of economics. Beorse further widened his scope in this publication, whose title refers to the popular physics book by James Jeans, This Mysterious Universe. Here Beorse inserts humanity into this assessment of a universe of vibrations and events, creating Man and This Mysterious Universe. "There is no great difference between rock, a tree, a man or a loving thought carving its way through the universe like a ray of the sun."

In this wonderfully informative and important book, Ted Braude provides practical steps for parents in helping their children, their boys, become good men. Written in clear language, this book will help any parent fulfill one of the most important responsibilities in life. An amazingly helpful guide, filled with clear practices that work!

NO TIME FOR BOOKS? Michael Ashe, an antiquarian bookseller in Los Angeles, suddenly finds his business in decline. Even librarians have turned their backs on books, while pouring money into electronic resources. But Ashe refuses to admit defeat: he continues the hunt for rare tomes in Mexico City and Paris, while struggling with his loneliness and searching for a woman to love. Then he learns the startling story of "the best read man in France." This epiphany leads him into a public battle to save the life of the book itself. This cautionary tale about the demise of the printed book, the decline of reading, and the conflict of print and digital culture, represents a progress report on our drift toward the chilling world of Ray Bradbury's Fahrenheit 451. Read it while you still can--before more books are "disappeared"! PETER BRISCOE, a former academic library administrator, has translated Jose Cabanis' novel, Night Games (1993), and has also written Reading the Map of Knowledge: The Art of Being a Librarian (2001).
