Find the right candidate for the job every time Adler's insightful new POWER hiring methods enable managers to attract, assess, and recruit the best candidates through the integration of online tools and offline behavior modifications. New information on hiring and the Internet, diversity, and legal compliance issues is included.

Book & CD-ROM. Ask any manager today and they will say their biggest concern is the competition for talented, good employees. The business costs and impact of employee turnover can be grouped into four major categories: costs resulting from a person leaving, hiring costs, training costs and lost productivity costs. The estimated cost to replace an employee is at least 150 percent of the persons base salary. As you can see, managers must learn to hire, train and keep your employees highly motivated. This book will help you to learn the fundamentals of sound hiring, how to identify high-performance candidates and how to spot evasions. You will learn to create a workplace full of self-motivated employees who are highly purpose-driven. The book contains a wide assortment of carefully worded questions that help to make the process more effective. Innovative step-by-step descriptions of how to recruit, interview, hire, train and keep the best people for every position in your organisation. This book is filled to the brim with innovative and fun training ideas (that cost little or nothing) and ideas for increasing employee involvement and enthusiasm. When you get your employees involved and enthused, you will keep them interested and working with you, not against you. With the help of this book, get started today on building your workplace into one that inspires employees to do excellent work because they really want to!

Hire with Your Head Updated with new case studies and more coverage of the impact and importance of the Internet in the hiring process, this indispensable guide has shown tens of thousands of managers and human resources professionals how to find the perfect candidate for any position. Lou Adler's Performance-based Hiring is more powerful than ever! "We have chosen Performance-based Hiring because it's a comprehensive process, it's behaviorally grounded, managers and recruiters find it easy to use, and it works." -Marshall Utterson, Director Staffing, AIG Enterprise Services, LLC "Everyone's looking for the perfect means to make effective hiring decisions. A trained interviewer armed with the right tools is the best solution. Performance-based Hiring is a proven methodology to get these results." -John Ganley, Vice President and Chief Talent Officer, Quest Software "Any staffing director that doesn't send all of their people through Performance-based Hiring training is missing out on top talent, plain and simple. This should be the standard throughout the industry." -Dan Hilbert, Recruiting Manager, Valero Energy Corporation "Performance-based Hiring has been the most successful recruitment tool that we have added to our organization over the past few years. In fact, these tools have not only produced amazing outcomes-in terms of selecting the best fit in an extremely tight labor market-but with a level of success among our operations customers that I have rarely seen with other HR products." -Trudy Knoepke-Campbell, Director, Workforce Planning, HealthEast(r) Care System

Offers tips on how to analyze the strengths and weaknesses of a job candidate through an interview.

Every day, rising companies stumble because management hired available people, not the right people. Then after making one too many of these mistakes, especially in key positions, the once-promising business that had the world to offer to its consumers is no longer. Because they didn't learn: Hiring. Is. King. In Hire Smart from the Start, author and entrepreneur Dave Carvajal distills lessons learned from 20 years of both successful and poor hiring decisions as he built and staffed two enormously successful Internet startups and helped firms like Tumblr,

This book will be appreciated by people who don't ever need to be involved in the hiring of a new staff member. Everybody has to work in recruitment at some point in their life – even if it's only to find a job. Mitch Sullivan has experienced recruitment from a number of different perspectives – not least those of a hiring manager and a job seeker. He's spent nearly 30 years in the industry – in agencies, in large corporates and as a recruitment copywriter. His blogging style has been described as “three cords and the truth” – partly because each blog generally takes less than a couple of minutes to read and partly because of the unapologetic sarcasm (or wit if you're feeling generous) he uses to deliver this honesty. This book is a collection of some of the 160 blogs he's written on recruitment, covering areas of the industry as diverse as agency culture, retained recruitment, assessment, employer branding, job advertising, the candidate experience and even employee engagement.

**NEW YORK TIMES BESTSELLER WALL STREET JOURNAL BESTSELLER** The Globe and Mail Top Leadership and Management Book Forbes Top Creative Leadership Book From the visionary head of Google's innovative People Operations comes a groundbreaking inquiry into the philosophy of work-and a blueprint for attracting the most spectacular talent to your business and ensuring that they succeed. "We spend more time working than doing anything else in life. It's not right that the experience of work should be so demotivating and dehumanizing." So says Laszlo Bock, former head of People Operations at the company that transformed how the world interacts with knowledge. This insight is the heart of **WORK RULES!**, a compelling and surprisingly playful manifesto that offers lessons including: Take away managers' power over employees Learn from your best employees-and your worst Hire only people who are smarter than you are, no matter how long it takes to find them Pay unfairly (it's more fair!) Don't trust your gut: Use data to predict and shape the future Default to open-be transparent and welcome feedback If you're comfortable with the amount of freedom you've given your employees, you haven't gone far enough. Drawing on the latest research in behavioral economics and a profound grasp of human psychology, **WORK RULES!** also provides teaching examples from a range of industries-including lauded companies that happen to be hideous places to work and little-known companies that achieve spectacular results by valuing and listening to their employees. Bock takes us inside one of history's most explosively successful businesses to reveal why Google is consistently rated one of the best places to work in the world, distilling 15 years of intensive worker R&D into principles that are easy to put into action, whether you're a team of one or a team of thousands. **WORK RULES!** shows how to strike a balance between creativity and structure, leading to success you can measure in quality of life as well as market share. Read it to build a better company from within rather than from above; read it to reawaken your joy in what you do.

**HIRE with FIRE** is an inspiring hiring book about how to hire the best people. It provides insight into the mind of the candidate and acts as an interview guide for managers. It is designed to improve the candidate experience, teach you how to interview, how to hire the best people, build your employer brand & create an engaging work culture.

learn how to recruit the most competent and motivated people to work in your company. You will also learn that : half of all hires are disappointing because recruiters don't know how to objectively evaluate candidates; a good interview is not synonymous with job performance. The best people are not always the ones you think they are; to attract the best, it is more important to offer them serious career prospects than a good salary; by recruiting on performance alone, you will develop growth and diversity within your company. The key to success for any company is to recruit the best performing employees. Current recruiting methods do not meet this objective: they are too expeditious and not objective enough. Lou Adler, a professional headhunter for the largest American companies, offers you an efficient and systematic method: performance-based hiring process. This method involves, among other things, distributing an attractive job ad, knowing how to conduct an objective interview, and evaluating candidates according to a unique performance grid. So are you ready to get rid of your preconceived ideas and bad recruitment habits? \*Buy now the summary of this book for the modest price of a cup of coffee!

A ten-year study by milewalk, which included more than ten thousand employees and two hundred companies, surfaced the hidden reasons why employers have difficulty hiring and retaining top talent. A job candidate's often faulty decision-making approach coupled with short-term emotions and other external influencers exacerbate an already-systemic issue regarding how employers evaluate job seekers. Companies will struggle with these challenges until they fully understand and account for the real reasons they have difficulty recruiting the right resources. In *The Hiring Prophecies: Psychology behind Recruiting Successful Employees*, a milewalk Business Book, learn a proven recruitment methodology that counteracts these ever-present challenges when evaluating job candidates. Once employers understand and implement the methods that address the true predictors of recruiting and retention success, they will be on their way to hiring employees who stay!

Recruiting the right people is one of the most important activities organisations can undertake. Getting it right can mean fast, healthy growth and the fulfilment of business goals; getting it wrong can mean heavy costs, sinking morale and stunted growth. *The Complete Guide to Recruitment* is a practical self-help guide to best practice in recruitment. With international case studies demonstrating how recruitment contributes to business success, it covers every aspect of the recruitment process including: developing an effective recruitment strategy; relationship building for long-term hiring; assessing and selecting candidates; designing the contract of employment; and creating a great place to work. Also incorporating a broad range of sample adverts, contracts and assessment tests which are available to download and edit, *The Complete Guide to Recruitment* is ideal for companies of all types and sizes who want to attract and retain top talent.

Recruitment The single greatest opportunity that an organization has to improve both performance and culture in one stroke lies in the hiring of a new executive—the right executive. The fresh thinking of a skilled leader has the potential to unleash innovation, empower employees, and generate wealth for the company. Similarly, a bad hire may mortally wound the organization and cause ripple effects throughout the entire economy. Hiring Greatness contains valuable insider strategies and tactics—previously only known to a handful of America's wealthiest, elite head-hunters—to attract, recruit, and retain star executives. Authors David E. Perry and Mark J. Haluska have completed more than 1800 search projects across five continents, maintaining a 99.97% success rate, and negotiating more than \$380 million in salaries. Like magicians unveiling the hidden 'tricks of the trade,' Perry and Haluska reveal: How to systematically secure—and retain—the perfect talent for your company How to keep recruiters from poaching your star executives (a good hire is relatively meaningless if they leave the company) Twenty-three questions you must ask a potential headhunter The language that makes your company the most compelling, and how HR lingo can repel the best talent Four critical turnoffs that drive great candidates away from top companies One company created \$3.8 million of market value each hour, for six months, simply by hiring the right leader. Hiring Greatness takes you behind the scenes of one of the world's most profitable and secretive industries, meticulously showing how any organization can make monumental hiring decisions that lead to massive success.

Gallup presents the remarkable findings of its revolutionary study of more than 80,000 managers in *First, Break All the Rules*, revealing what the world's greatest managers do differently. With vital performance and career lessons and ideas for how to apply them, it is a must-read for managers at every level. The greatest managers in the world seem to have little in common. They differ in sex, age, and race. They employ vastly different styles and focus on different goals. Yet despite their differences, great managers share one common trait: They do not hesitate to break virtually every rule held sacred by conventional wisdom. They do not believe that, with enough training, a person can achieve anything he sets his mind to. They do not try to help people overcome their weaknesses. They consistently disregard the golden rule. And, yes, they even play favorites. This amazing book explains why. Gallup presents the remarkable findings of its massive in-depth study of great managers across a wide variety of situations. Some were in leadership positions. Others were front-line supervisors. Some were in Fortune 500 companies; others were key players in small entrepreneurial companies. Whatever their situations, the managers who ultimately became the focus of Gallup's research were invariably those who excelled at turning each employee's talent into performance. In today's tight labor markets, companies compete to find and keep the best employees, using pay, benefits, promotions, and training. But these well-intentioned efforts often miss the mark. The front-line manager is the key to attracting and retaining talented employees. No matter how

generous its pay or how renowned its training, the company that lacks great front-line managers will suffer. The authors explain how the best managers select an employee for talent rather than for skills or experience; how they set expectations for him or her — they define the right outcomes rather than the right steps; how they motivate people — they build on each person's unique strengths rather than trying to fix his weaknesses; and, finally, how great managers develop people — they find the right fit for each person, not the next rung on the ladder. And perhaps most important, this research — which initially generated thousands of different survey questions on the subject of employee opinion — finally produced the twelve simple questions that work to distinguish the strongest departments of a company from all the rest. This book is the first to present this essential measuring stick and to prove the link between employee opinions and productivity, profit, customer satisfaction, and the rate of turnover. There are vital performance and career lessons here for managers at every level, and, best of all, the book shows you how to apply them to your own situation.

Develop and execute systematic, best-in-class hiring practices to seize—and hold—the competitive edge in your industry Defending your business from the competition through regulations, differentiated technologies, brand recognition, and other methods is no longer a sustainable competitive advantage. In today's fast-paced, ever-changing business environment, you must take an offensive stance to keep your competitors at bay. And this groundbreaking guide provides the inspiration, the know-how, and the tools you need to achieve it. guides you through the process of designing and implementing a data-driven hiring strategy that will secure your business for the foreseeable future. Revealing how today's top innovators—including Netflix and Google—dominate their industries, it shows how you can do the same by implementing systematic and repeatable processes that lead to better, more consistent hiring outcomes. You'll learn how to:

- Envision an evidence-based approach to hiring
- Distinguish useful data from the data you don't need
- Use the best technologies to achieve your recruitment goals
- Build an effective talent-acquisition team
- Improve on-the-job success predictions
- Design well-defined and objective measures to improve hiring outcomes
- Avoid the most common hiring pitfalls

Data and analytics have been reshaping countless industries as they turn from anecdotal to evidence-based practices. The recruiting and hiring processes, however, have been intuition-based. That changes today. Evidence-Based Recruiting introduces an entirely new approach—one that relies on irrefutable facts and data, enabling you and your organization to thrive in the new era of talent acquisition.

The decision of whether to go to college, or where, is hampered by poor information and inadequate understanding of the financial risk involved. Adding to the confusion, the same degree can cost dramatically different amounts for different people. A barrage of advertising offers new degrees designed to lead to specific jobs, but we see no information on whether graduates ever get those jobs. Mix in a frenzied applications process, and pressure from politicians for "relevant" programs, and there is an urgent need to separate myth from reality. Peter Cappelli, an acclaimed expert in employment trends, the workforce, and education, provides hard evidence that counters conventional wisdom and helps us make cost-effective choices. Among the issues Cappelli analyzes are: What is the real link between a college degree and a job that enables you to pay off the cost of college, especially in a market that is in constant change? Why it may be a mistake to pursue degrees that will land you the hottest jobs because what is hot today is unlikely to be so by the time you graduate. Why the most expensive colleges may actually be the cheapest because of their ability to graduate students on time. How parents and students can find out what different colleges actually deliver to students and whether it is something that employers really want. College is the biggest expense for many families, larger even than the cost of the family home, and one that can bankrupt students and their parents if it works out poorly. Peter Cappelli offers vital insight for parents and students to make decisions that both make sense financially and provide the foundation that will help students make their way in the world.

Build a high-performance workforce by abandoning skills-based hiring practices and focusing on employee attitude Hiring for Attitude offers a groundbreaking approach to recruiting, assessing, and selecting people with both tremendous skills but, more importantly, an attitude that aligns with the organization's culture. Murphy cites his own company's research and examines recent scientific studies about the practical effects a person's attitude has on the outcome of his or her job performance. Clear and practical lessons are illuminated by numerous case studies of organizations like Microchip, Southwest Airlines, and The Ritz-Carlton.

Global HR consulting firm Watson Wyatt has conducted a large body of research on 30 different human capital management practices showing, for the first time, how these practices can raise or lower the stock price of a company—and by how much. This research, which has been cited in The Wall Street Journal, Forbes, and the New York Times, is the foundation of The Human Capital Edge, and brings a new level of sophistication and measurement-based precision to the too-often fuzzy world of management books.

Win the war for talent by building an army of ready-to-deploy candidates An employee leaves and you post the open position. Resumes trickle in. You interview a few candidates. No one fits the bill. The next thing you know, three months have passed and that desk is still empty . . .

Nothing drives business success like a staff of talented, productive employees. So why accept a hiring process that fails you time and time again? Well, there's one person who doesn't: Scott Wintrip. And in High-Velocity Hiring, he provides the tools and systems for creating a hiring process designed for today's fast-paced, talent-deficient landscape. Using the proven methods Wintrip has applied at some of today's more forward-thinking companies, you'll hire top employees faster—and smarter. High-Velocity Hiring replaces the old, worn-out way of hiring with the simple but revolutionary approach of actively cultivating top talent before positions open. The old way is slow and inefficient. Wintrip's way is dynamic and proven-effective. You'll enrich and maintain a flow of high-quality candidates, harness this flow by identifying the most talented people, and channel it into a pool of ready-to-hire prospective employees. More than ever, hiring the best people requires foresight, planning, alertness, and decisive action. With High-Velocity Hiring, you have everything you need to seize the high-ground in the war for talent and maintain it for long-term growth and profitability.

Who you hire defines everything, from business success down to who you are as a leader. That's why hiring top talent is the #1 priority of most CEOs, and yet, studies show that the majority don't believe they recruit highly talented people. As the talent economy continues to evolve, CEOs need to adapt the way they compete for talent in order to keep up. As a current SaaS CEO and former recruiter, Jerome Ternynck packs 30 years of learnings and differentiated recruiting strategies into Hiring Success to provide CEOs a future-ready perspective for talent. You'll walk away with the ability to attract, select, and hire the best talent at a global scale on demand—leading to hiring success now and in the future.
