They'll gain the know-how of more than 30 years of collective advice from those who've come before them to: How to avoid analysis paralysis when launching a business Tips for testing ideas in the real-world before going to market with insights from Gary Vaynerchuk Decide between building, buying, or becoming a distributor What to consider when looking for funding from venture capitalists, loans, cash advances, etc. Whether or not a co-working space is a right move Tips on running successful Facebook and Google ads as part of a marketing campaign Use micro-influencers to successfully promote your brand on social media One of BookPage's Best Books of 2020 "The detailed, nuanced, gripping account of that strange and complex journey offered in Robert Draper's To Start a War: How the Bush Administration Took America Into Iraq is essential reading--now, especially now . . . Draper's account [is] one for the ages . . . A must-read for all who care about presidential power." --The Washington Post From the author of the New York Times bestseller Dead Certain comes the definitive, revelatory reckoning with arguably the most consequential decision in the history of American foreign policy--the decision to invade Iraq. Even now, after more than fifteen years, it is hard to see the invasion of Iraq through the cool, considered gaze of history. For too many people, the damage is still too palpable, and still unfolding. Most of the major players in that decision are still with us, and few of them are not haunted by it, in

one way or another. Perhaps it's that combination, the passage of the years and the still unresolved trauma, that explains why so many protagonists opened up so fully for the first time to Robert Draper. Draper's prodigious reporting has yielded scores of consequential new revelations, from the important to the merely absurd. As a whole, the book paints a vivid and indelible picture of a decision-making process that was fatally compromised by a combination of post-9/11 fear and paranoia, rank naïveté, craven groupthink, and a set of actors with idées fixes who gamed the process relentlessly. Everything was believed; nothing was true. The intelligence failure was comprehensive. Draper's fair-mindedness and deep understanding of the principal actors suffuse his account, as does a storytelling genius that is close to sorcery. There are no cheap shots here, which makes the ultimate conclusion all the more damning. In the spirit of Barbara Tuchman's *The Guns of August* and Marc Bloch's *Strange Defeat*, *To Start A War* will stand as the definitive account of a collective process that arrived at evidence that would prove to be not just dubious but entirely false, driven by imagination rather than a quest for truth--evidence that was then used to justify a verdict that led to hundreds of thousands of deaths and a flood tide of chaos in the Middle East that shows no signs of ebbing.

Author of cult classics *The Pumpkin Plan* and *The Toilet Paper Entrepreneur* offers a simple, counterintuitive cash management solution that will help small businesses break out of the doom spiral and achieve instant profitability. Conventional accounting uses the logical (albeit, flawed) formula: Sales - Expenses = Profit. The problem is, businesses are run by humans, and humans aren't always logical. Serial entrepreneur Mike Michalowicz has developed a behavioral approach to accounting to flip the formula: Sales - Profit = Expenses. Just as the most effective weight loss strategy is to limit portions by using smaller plates, Michalowicz shows that by taking profit first and apportioning only what remains for expenses, entrepreneurs will transform their businesses from cash-eating monsters to profitable cash cows. Using Michalowicz's Profit First system, readers will learn that: - Following 4 simple principles can simplify accounting and make it easier to manage a profitable business by looking at bank account balances. - A small, profitable business can be worth much more than a large business surviving on its top line. - Businesses that attain early and sustained profitability have a better shot at achieving long-term growth. With dozens of case studies, practical, step-by-step advice, and his signature sense of humor, Michalowicz has the game-changing roadmap for any entrepreneur to make money they always dreamed of.

Work for yourself in just one week with Britain's most dynamic entrepreneur 'Everybody wants to be an entrepreneur. Every single day of my life I am bombarded by people with pitches. But 90% of new businesses fail, because their founders failed to ask themselves the simplest of questions. I can save you years of wasted time and thousands of pounds of wasted money by giving you the ammunition to ask the right questions, and helping you make the decision that is right for you. I will show you how to spend a maximum of seven days deciding if your idea is workable and bankable. How to say 'I'm in', but equally importantly, to have the courage to say 'I'm out'. How to become your own Dragon. Each piece of advice in this book is based on my thirty years of starting businesses. You will find all the fundamental ingredients for any new company, whatever sector you want to be in, whatever size of business you have in mind, along with the tools to make it work. Answer all the tough questions I am going to get you to ask yourself and you will have a business that genuinely has a chance of success. You can be one of the 10% of businesses that do make it.' - James Caan. James Caan is one of the UK's most successful and dynamic entrepreneurs, having built and sold businesses since 1985. After dropping out of school at sixteen and starting his first business in a Pall Mall broom cupboard - armed with little more than charm and his father's advice - Caan went on to make his fortune in the recruitment industry, founding the Alexander Mann Group, a company with a turnover of £130m. A 2003 graduate of Harvard Business School, Caan's most recent endeavour has been to set up private equity firm Hamilton Bradshaw. Caan hit our screens when he joined the panel of the BBC's Dragons' Den in 2007. He is a regular in the national and business press, advises on various Government programmes, and initiates numerous philanthropic projects via the James Caan Foundation.
