What makes you passionate about working with SQL Server? What lessons have you learned, perhaps the hard way, on how to get the best performance and scalability out of your SQL Server databases? We challenged a group of talented, up-and-coming 'new voices' in SQL Server to share their passion and knowledge with the Community. A DBA's core responsibilities are constant. A DBA must maintain and enforce security mechanisms on the data, prepare effectively for disaster recovery, ensure the performance and availability of all the databases in their care. As such, we have chapters providing tips on how to get the most out of features such as data compression, backup verification, performance tuning with traces and extended events, auditing, SSIS, and more. Side by side with these, we have chapters on the importance to a DBA of communicating clearly with their co-workers and business leaders, presenting data as useful information that the business can use to make decisions, adopting a more Agile approach to their work, and sound project management skills. The resulting book, *Tribal SQL*, is a reflection of how a DBA's core and long-standing responsibilities sit alongside new thinking and fresh ideas about where the DBA role is going, and what it means to be a DBA in today's businesses.

In *Mordin On Time*, Nick Mordin sets out his method for answering the most fundamental question facing punters in any race, namely: which is the fastest horse? He was timing the sections of races with a stop watch, estimating wind strength and direction, adjusting for movements of running rails, using projected times and calculating average times years before the best-selling American books on speed rating were published. This new edition incorporates much new material, including standard times for all Irish racecourses (plus the major French ones). *Mordin On Time* enables the reader to construct their own speed ratings wherever they live.

An analysis of the welfare state from a political economy perspective that examines the effects of aging populations, migration, and globalization on industrialized economies. In *The Decline of the Welfare State*, Assaf Razin and Efraim Sadka use a political economy framework to analyze the effects of aging populations, migration, and globalization on the deteriorating system of financing welfare state benefits as we know them. Their timely analysis, supported by a unified theoretical framework and empirical findings, demonstrates how the combined forces of demographic change and globalization will make it impossible for the welfare state to maintain itself on its present scale. In much of the developed world, the proportion of the population aged 60 and over is expected to rise dramatically over the coming years—from 35 percent in 2000 to a projected 66 percent in 2050 in the European Union and from 27 percent to 47 percent in the United States—which may necessitate higher tax burdens and greater public debt to maintain national pension systems at current levels. Low-skill migration produces additional strains on welfare-state financing because such migrants typically receive benefits that exceed what they pay in taxes. Higher capital taxation, which could potentially be used to finance welfare benefits, is made unlikely by international tax competition brought about by globalization of the capital market. Applying a political economy model and drawing on empirical data from the EU and the United States, the authors draw an unconventional and provocative conclusion from these developments. They argue that the political pressure from both aging and migrant populations indirectly generates political processes that favor trimming rather than expanding the welfare state. The combined pressures of aging, migration, and globalization will shift the balance of political power and generate public support from the majority of the voting population for cutting back traditional welfare state benefits.

Running away from a complicated life, Raleigh finds herself plunged into a nightmare. While hitchhiking across the country, she and her companion are struck by a car. Her friend is killed but Raleigh survives and her life is thrown into the hands of the three men involved in the accident. Bruised and in shock, Raleigh is locked in the basement of their remote country house, unsure of her fate. Kaden, one of her captors, is handsome and at times protective, and he convinces his friends to spare Raleigh's life to ransom her. But the safety he provides is only from his friends, and Raleigh must face his sinister intentions. Agreeing to become his lover in return for continued protection, she begins to see a tender and caring side of Kaden despite their short but violent history. As the ransom payment begins to unravel and Raleigh's life hangs in the balance, she wonders how much she can trust Kaden. Are the feelings she has developed for him genuine or a result of her situation? Does he truly care for her, as he claims, or does he just see her as a ransom payment? *Screaming in the Silence* is the harrowing, provocative story of a woman testing love in the most hostile of environments. The twelfth-century French poet Chrétien de Troyes is a major figure in European literature. His courtly romances fathered the Arthurian tradition and influenced countless other poets in England as well as on the continent. Yet because of the difficulty of capturing his swift-moving style in translation, English-speaking audiences are largely unfamiliar with the pleasures of reading his poems. Now, for the first time, an experienced translator of medieval verse who is himself a poet provides a translation of Chrétien's major poem, *Yvain*, in verse that fully and satisfyingly captures the movement, the sense, and the spirit of the Old French original. *Yvain* is a courtly romance with a moral tenor; it is ironic and sometimes bawdy; the poetry is crisp and

vivid. In addition, the psychological and the socio-historical perceptions of the poem are of profound literary and historical importance, for it evokes the emotions and the values of a flourishing, vibrant medieval past.

Crime is a political football - both left and right are terrified of seeming soft on the issue, but for all their efforts, or apparent efforts, crime rates continue to rise. Clearly something needs to be done. But what? Peter Hitchens argues that the time has come to re-examine the criminal justice system root and branch - to cope with rising levels of violent crime, and to restore public faith in society's ability to defend itself. Whatever you think of the solutions Hitchens suggests to this problem, you can be sure that they will excite controversy.

The world's richer democracies all provide such public benefits as pensions and health care, but why are some far more generous than others? And why, in the face of globalization and fiscal pressures, has the welfare state not been replaced by another model? Reconsidering the myriad issues raised by such pressing questions, Clem Brooks and Jeff Manza contend here that public opinion has been an important, yet neglected, factor in shaping welfare states in recent decades. Analyzing data on sixteen countries, Brooks and Manza find that the preferences of citizens profoundly influence the welfare policies of their governments and the behavior of politicians in office. Shaped by slow-moving forces such as social institutions and collective memories, these preferences have counteracted global pressures that many commentators assumed would lead to the welfare state's demise. Moreover, Brooks and Manza show that cross-national differences in popular support help explain why Scandinavian social democracies offer so much more than liberal democracies such as the United States and the United Kingdom. Significantly expanding our understanding of both public opinion and social policy in the world's most developed countries, this landmark study will be essential reading for scholars of political economy, public opinion, and democratic theory.

The struggle between the main political parties has been reduced to an unpopularity contest, in which voters hold their noses and sigh as they trudge to the polls. Peter Hitchens explains how and why British politics has sunk to this dreary level - the takeover of the parties and the media by conventional left-wing dogmas which then call themselves 'the centre ground'. The Tory party under David Cameron has become a pale-blue twin of New Labour, offering change without alteration. Hitchens, a former Lobby reporter, examines and mocks the flock mentality of most Westminster journalists, explains how unattributable lunches guide coverage and why so many reporters - once slavish admirers of Labour - now follow the Tory line. This updated edition of Hitchens's *The Broken Compass* (2009) features a brand new introduction. In an excoriating analysis, Hitchens examines the Tory Party's record in government and opposition, dismissing it as a failure on all fronts but one - the ability to win office without principle. The one thing it certainly isn't is conservative.

Imagine that you are living in a country that does not recognize you as a citizen in spite of the fact that your people have maintained a continuous existence there for several centuries. If that was not enough of a traumatic experience, consider that because of your racial, ethnic and religious identity other ethnic groups that are fighting the brutal military regime in your country for their self-determination and human rights consider you as "settlers" from a neighboring country. It must be your worst nightmare when you realize that half of your people (almost 2 million) have been forced to take asylum or refuge outside, and you may be the next in line to seek a way out of this living hell of xenophobia, discrimination, intolerance, racism and bigotry. The victims are the Rohingya people of Burma (Myanmar). Because of their religion, race, ethnicity, color and language they are the most discriminated and persecuted people in our planet. Some argue that they are also one of the most forgotten. The Myanmar military regime has denied their citizenship rights, claiming that they are illegal settlers from nearby Bangladesh who have moved into Arakan during the British occupation of Burma in the 19th century. Is there any truth to such allegations? Does the military junta apply the same litmus test against all ethnic and religious groups in matters of citizenship? What is the basis for a

nation's claim to self-determination? Must a people wander in the wilderness for two millennia and suffer repeated persecution, humiliation and genocide to qualify? How about the rights of a minority community to survive with their culture and traditions intact? Do they need to be 'children' of a 'higher' God to qualify? What makes the children of a 'lesser' God to be forgotten and denied the same treatment and privilege that was granted hitherto to other nations? For much of its history, Burma has been ruled by military. As has once again been demonstrated recently they are brutal, savage and tyrannical. They have ignored people's verdict in the election and imprisoned leaders and workers of the democracy movement. They cannot be guarantors or protectors of human rights of anyone, let alone religious and ethnic minorities. Do you know that the Rohingyas - face cruel restriction on marriage and those married without government authorization are paraded naked on the streets? - Are restricted from traveling outside their villages? - Have no legal right to own land or property? - Are restricted from getting education, finding work, getting medical and health care? - Are subjected to land confiscation, forced eviction and destruction of homes, offices, schools, mosques, shops, etc., and face religious persecution on a daily basis? - Are victims of staged riots, forced starvation, arbitrary taxation, extortion, arrest, torture and extra-judicial killings? - Are forced to do slave labor for establishment of government infrastructure, new Buddhist settlements, pagodas and monasteries on evicted lands with the government intent of changing the landscape and demography of Arakan? - Are forced to convert to Buddhism &/or worship Buddha? Do you know that when it comes to the Rohingya people, the Burmese government doesn't uphold any of the Articles of the Universal Declaration of Human Rights? Nothing can excuse us from the criminal silence that we practice in not voicing our concern about the plight of the Rohingya people. "The Forgotten Rohingya" makes a strong case for mobilizing concerned citizens of our globe to ease their sufferings. The author analyzes origin of the Rohingya people and offers ideas to solve their problem. The author also discusses problems of xenophobia and racism, which are so rampant in this country of many races, ethnicities and religions. He also analyzes the role of Daw Suu Kyi and failure of Burma's orange revolution.
