On the afternoon of August 19, 1997, John Harrigan-owner and publisher of the News and Sentinel newspaper in Colebrook, New Hampshire-arrived at his building to find the woman he loved lying dead in the parking lot. Lawyer Vickie Bunnell had been shot and killed by a local carpenter wielding an assault rifle. By then, three more people were already dead or dying. More mayhem was to ensue in an afternoon of plot twists too improbable for a novel. The roots of the incident stretch back twenty-five years, with tendrils deep in the history of New England's North Country. These bloody events shocked America and made headlines across the world. Hundreds of local citizens became unwilling players in the drama-friends and colleagues of the dead, men and women who were themselves real or potential targets, along with their neighbors in law enforcement-but the town and its inhabitants were never passive victims. From the first shot fired that day, they remained courageously determined to survive. This is the story of that town, those people, and that day. In the Evil Day is a moving portrait of small-town life and familiar characters forever changed by sudden violence.

"They had been told their sacrifice was for the public good. They were never told how much they would miss it, or for how long." Drowned Town explores the multigenerational impact caused by the loss of home and illuminates the joys and sorrows of a group of people bound together by western Kentucky's Land Between the Lakes and the lakes that lie on either side of it. The linked stories are rooted in a landscape forever altered by the mid-twentieth-century impoundment of the Tennessee and Cumberland Rivers and the seizing of property under the power of eminent domain to create a national recreation area on the narrow strip of land between the lakes. The massive federal land and water projects completed in quick succession were designed to serve the public interest by providing hydroelectric power, flood control, and economic progress for the region -- at great sacrifice for those who gave up their homes, livelihoods, towns, and history. The narrative follows two women whose lives are shaped by their friendship and connection to the place, and their stories go back and forth in time to show how the creation of the lakes both healed and hurt the people connected to them. In the process, the stories emphasize the importance of sisterhood and family, both blood and created, and how we cannot separate ourselves from our places in the world.

From its source in New Hampshire's White Mountains to its mouth at Saco-Biddeford, the Saco River draws visitors and residents alike to swim, fish, canoe, and white-water kayak. The Saco brought tourists to the White Mountains and influenced the development of both large and small towns, shaping their history and creating bustling centers of industry. The Saco River documents the river through postcards from 1905 to the 1940s, when mills dominated the landscape. In the first volume, Killingly revealed the initial manufacturing emphasis in the town's villages. Killingly Revisited illustrates how the town survived after losing most of the textile industry, as it moved South, by actively seeking diversified commercial businesses. Within these pages, the town's fascinating past is displayed as newly acquired vintage views are coupled with information recently uncovered from the Killingly Historical and Genealogical Society's newspaper archives and other reference materials. In celebration of 300 years as an incorporated Connecticut town, the society is sharing photographs of Killingly's mills, businesses, buildings, churches, schools, and cemeteries. There have been losses from devastating fires that changed the face of Main Street. New streets and roads were added as modes of transportation changed. There are also new views of citizens at work and play.
