Author Trenton McGee, 4x4 suspension expert and host of Outdoor Channels Off-Road Adventures, explains 4x4 suspension systems in an easy-to-understand manner. He gets specific on types of suspensions available from all the major manufacturers including Jeep, Toyota, Ford, Chevy, and Dodge. He goes into a great level of detail on every different model, including early and modern model systems. This edited book uses migrant marginality to problematize several different aspects of global migration. It examines how many different societies have defined their national identities, cultural values and terms of political membership through (and in opposition to) constructions of migrants and migration. The book includes case studies from Western and Eastern Europe, North America and the Caribbean. It is organized into thematic sections that illustrate how different aspects of migrant marginality have unfolded across several national contexts. The first section of the book examines the limitations of multicultural policies that have been used to incorporate migrants into the host society. The second section examines anti-immigrant discourses and get-tough enforcement practices that are geared toward excluding and removing criminalized “aliens”. The third section examines some of the gendered dimensions of migrant marginality. The fourth section examines the way that racially marginalized populations have engaged the politics of immigration, constructing themselves as either migrants or natives. The book offers researchers, policy makers and students an appreciation for the various policy concerns, ethical dilemmas and political and cultural antagonisms that must be engaged in order to properly understand the problem of migrant marginality.

This book offers a comprehensive examination of the language of Roman comedy in general and that of Terence in particular. The study explores Terence's use of language to differentiate his characters and his language in relation to the language of the comic fragments of the palliata, the togata and the atellana. Linguistic categories in the Terentian corpus explored include colloquialisms, archaisms, hellenisms and idiolectal features. Terence is shown to give his old men an old-fashioned and verbose tone, while low characters are represented as using colloquial diction. An examination of Eunuchus' language shows it to be closer to the Plautine linguistic tradition. The book also provides a thorough linguistic/stylistic commentary on all the fragments of the palliata, the togata and the atellana. It shows that Terence, except in the case of his Eunuchus, consciously distances himself from the linguistic/stylistic tradition of Plautus followed by all other comic poets.

The A-904 and A-727, debuting in 1960 and 1962, respectively, are 3-speed automatic Chrysler TorqueFlite Transmissions. In Mopar circles, they have become synonymous with strength, durability, and performance. In fact, 43 years after its first application, A-904s were still found in the Jeep lineup! TorqueFlites are known for their dependability, but many have endured a tremendous amount of abuse over 50-plus years when hooked up to V-8 Mopar powerplants. There is little doubt that some of these automatics could be prone to failure, or at least need a thorough rebuild. Tom Hand shares his decades of experience rebuilding TorqueFlite transmissions with chapters dedicated to troubleshooting, disassembly and reassembly, performance modifications, post-installation procedures, and

As U.S. and Canadian automakers and dealers face bankruptcy and/or unprecedented downsizing, Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car and truck books on the market. Phil Edmonston, Canada's automotive "Dr. Phil" for more than 35 years, pulls no punches. This compendium of everything that's new in cars and trucks is packed with feedback from Canadian drivers, insider tips, internal service bulletins, and confidential memos to help the consumer select what's safe, reliable, and fuel-frugal. Know all about profit margins, rebates, and safety defects. And when things go wrong, fight back! Lemon-Aid's complaint tactics, sample letters, Internet gripe sites, and winning jurisprudence will get you attention — and a refund!

Phil Edmonston, Canada's automotive "Dr. Phil," pulls no punches. He says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar and an auto industry offering reduced prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs. In this all-new guide he says: Audis are beautiful to behold but hell to own (biodegradable transmissions, "rodent snack" wiring, and mind-boggling depreciation) Many 2011-12 automobiles have "chin-to-chest head restraints, blinding dash reflections, and dash gauges that can't be seen in sunlight, not to mention painful wind-tunnel roar if the rear windows are opened while underway) Ethanol and hybrid fuel-

construction of the atomic bomb. In the summer of 1942, fourteen-year-old Lydia is mostly consumed with talking to her friend Willamena about boys and staying out of Mamaas long reach. The Johnsons gradually become aware of the governmentas encroachment. Stranger Robert Doleman shows up and first disrupts their idyllic lives. When he and Lydia meet, he is the disinterested city guy; she is the outgoing but naive country girl. Lydiaas and Robertas paths cross again after she and Willamena happen upon the aftermath of a violent crime. The community is upset about the events, and Lydia is suspicious of Robert. As the communityas suspicion of the suspects turns to a couple of boys, Lydia begins to have romantic thoughts about Robert. The family's lives become even more disrupted as the children return to school and more strangers invade their peace. Finally, the family realizes that their life in the valley will never be the same as tumultuous events in their personal lives erupt and the government's invasion is complete. Chevrolet's inline 6-cylinder, affectionately known as the "Stovebolt," was produced and applied to Chevrolet-powered automobiles from 1929 through 1962. Its effectiveness and simplicity greatly contributed to the lengthy duration of its life span, with the engine still being created in some capacity into 2009.

Deve Krehbiel of devestech.net has taken his decades of knowledge on the inline-6 and created the ultimate resource on rebuilding the Stovebolt Chevrolet powerplant. Using color photography with step-by-step sequencing, Deve takes you through the disassembly, rebuild, and reassembly of these engines, including rebuilding the carburetor, distributor, and intake/exhaust systems. Tech Tips highlight areas that can be overlooked, such as proper cleaning and determining if a part is reusable, and an appendix provides information on

The world is on the brink of war, the enemy have increased their attacks on humans, and my team and I have been assigned the mission of building the Angels' army on Earth. However, the unthinkable happens, and my biggest fear comes true. Nothing will stop me from recovering what is mine. Except everything and everyone tries. Suspicious humans have set traps to ensnare the supernatural. The world powers have closed

their borders as they prepare for war. The Demons' army grows exponentially by taking innocent souls-souls that we're supposed to protect. And a power-hungry sorceress schemes to rule us all, with revenge on my grandmother topping her priority list. I'm forced to choose between those I love dearly and the souls of all of humanity, but when there's no right answer, I'm destined to lose. The question is-who will it be?

Air conditioning in vintage cars often falls into disrepair, as owners figure that it never really worked all that well when it was new, and assume that rejuvenation would be prohibitively expensive. In his new book, *Just Needs a Recharge: The Hack Mechanic Guide to Vintage Air Conditioning*, Rob Siegel details exactly what's needed to resurrect long-dead air conditioning in a vintage car, or install a/c in a car that never had it. In a level of detail not found in any other automotive a/c book, Rob reveals what you need to know about flare and o-ring fittings, upgrading to a rotary-style compressor and a parallel-flow condenser, making or specifying custom hoses, and selecting refrigerant so that the a/c blows cold enough to be usable. Although the book draws from Rob's BMW experience (with specifics for the BMW 2002 and 3.0CS), and concentrates on vintage a/c systems (those that have flare fittings and originally contained R12), most of the information applies to any air conditioning system, foreign or domestic, vintage or modern. Written in Rob's entertaining Hack Mechanic narrative voice, and including 240 photographs and illustrations, the book covers theory, the choice of refrigerant (R12, R134a, other EPA-approved, non-EPA-approved), legality, tools

The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.
