I spent my whole life wanting to be anyone but myself. I wanted to be happy & to belong, but as a child, I never did. Always in trouble - I never seemed to do anything right. Crime, addiction & destruction become my life growing up, and I felt like a waste of space. However, this all changed as I slowly learned life's important lessons, which helped me love myself for who I am. Not only did this save my life, but actually helped me love it. This book shares my story. A concise guide for parents of millennials, *NO THANKS MOM* offers sage advice on what to do with those objects 'saved' but NOT welcomed by the next generation. Collections and treasured objects do not always span the generation gap, sustaining both high market value and the taste and style of the 21st century. Learn to downsize what formerly was valued

without upsizing your kid's home. A valuable chapter, The Top Ten Objects Kids Do Not Want discusses the current taste for once- treasured objects such as formal dinner china. Often a flashpoint between parents and heirs, objects are a reflection of lives and homes. Tales of 'stuff' not "in style" include market remedies for antiques, fine art, and collectibles: how and where to sell, what to donate, what to save, and what NOT to bequest to heirs. Offered by an appraiser with three decades of experience, a collector of collector's stories, the guide sets forth roadmaps and plans for what to do with objects once your kids have said "No Thanks." Topics include The Five Piles Theory of Downsizing, and Rules and Habits for Creative Divesting.

#1 New York Times Bestseller Over 1 million copies sold In this generation-defining self-help guide, a superstar blogger cuts through the crap to show us how to stop trying to be "positive" all the time so that

we can truly become better, happier people. For decades, we've been told that positive thinking is the key to a happy, rich life. "F**k positivity," Mark Manson says. "Let's be honest, shit is f**ked and we have to live with it." In his wildly popular Internet blog, Manson doesn't sugarcoat or equivocate. He tells it like it is—a dose of raw, refreshing, honest truth that is sorely lacking today. The Subtle Art of Not Giving a F**k is his antidote to the coddling, let's-all-feel-good mindset that has infected American society and spoiled a generation, rewarding them with gold medals just for showing up. Manson makes the argument, backed both by academic research and well-timed poop jokes, that improving our lives hinges not on our ability to turn lemons into lemonade, but on learning to stomach lemons better. Human beings are flawed and limited—"not everybody can be extraordinary, there are winners and losers in society, and some of it is not fair or your fault." Manson advises us to get to know our limitations and accept them. Once we embrace our fears, faults, and uncertainties, once we stop running and avoiding and start confronting painful truths, we can begin to find the courage, perseverance, honesty, responsibility, curiosity, and forgiveness we seek. There are only so many things we can give a f**k about so we need to figure out which ones really matter, Manson makes clear. While money is nice, caring about what you do with your life is better,

because true wealth is about experience. A much-needed grab-you-by-the-shoulders-and-look-you-in-the-eye moment of real-talk, filled with entertaining stories and profane, ruthless humor, *The Subtle Art of Not Giving a F**k* is a refreshing slap for a generation to help them lead contented, grounded lives.

“Honest and moving . . . Her painful tale is engrossing.”—*Washington Post Book World* For most of us, it was just another horrible headline. But for Deborah Spungen, the mother of Nancy, who was stabbed to death at the Chelsea Hotel, it was both a relief and a tragedy. Here is the incredible story of an infant who never stopped screaming, a toddler who attacked people, a teenager addicted to drugs, violence, and easy sex, a daughter completely out of control—who almost destroyed her parents’ marriage and the happiness of the rest of her family.

Don't Read This...Unless you are looking for a practical guide to cashing in on your unique value. People have all kinds of ridiculous ideas about what it takes to achieve vast amounts of wealth and success; consistently those ideas are dead wrong! What you have heard until this point about wealth has likely been from those who did not, do not, or are ever likely to have it. The intriguing thing is for those who don't have it, money comes with a set of myths perpetuated by those who don't have it. Yes, the economy has changed. However, the

Jake Colsen, an overworked and disillusioned pastor, happens into a stranger who bears an uncanny resemblance (in manner) to the apostle John. A number of encounters with John as well as a family crisis lead Jake to a new understanding of what his life should be like: one filled with faith bolstered by a steady, close relationship with the God of the universe. Facing his own disappointment with Christianity, Jake must forsake the habits that have made his faith rote and rediscover the love that captured his heart when he first believed.

Compelling and intensely personal, **SO YOU DON'T WANT TO GO TO CHURCH ANYMORE** relates a

man's rebirth from performance-based Christianity to a loving friendship with Christ that affects all he does, thinks, and says. As John tells Jake, "There is nothing the Father desires for you more than that you fall squarely in the lap of his love and never move from that place for the rest of your life."

Women who opt not to be mothers are frequently warned that they will regret their decision later in life, yet we rarely talk about the possibility that the opposite might also be true—that women who have children might regret it. Drawing on years of research interviewing women from a variety of socioeconomic, educational, and professional backgrounds, sociologist Orna Donath treats regret as a feminist issue: as regret marks the road not taken, we need to consider whether alternative paths for women currently are blocked off. She asks that we pay attention to what is forbidden by rules governing motherhood, time, and emotion, including the cultural assumption that motherhood is a "natural" role for women—for the sake of all women, not just those who regret becoming mothers. If we are disturbed by the idea that a woman might regret becoming a mother, Donath says, our response should not be to silence and shame these women; rather, we need to ask honest and difficult questions about how society pushes women into motherhood and why those who reconsider it are still seen as a danger to the status quo. Groundbreaking,

thoughtful, and provocative, this is an especially needed book in our current political climate, as women's reproductive rights continue to be at the forefront of national debates.

"Deciding yes or not to motherhood can be fraught with confusion, pain, and loneliness. Many a woman is undecided about arguably the most important life-defining decision she'll make in her lifetime. With the 'Motherhood -- Is it for me?' program, the authors of this book, both dedicated and seasoned psychotherapists, created a process that has helped countless women over the last 25 years. Finally available in print, this program is the perfect resource for closely examining ambivalence around this crucial life choice. Through precise steps, readers are guided on their own personal journeys toward deeper understanding and learn what they really want. The process even allows a woman who is experiencing extremely painful immobilization to find her way through to her true desire. The authors know from their professional experience that an analytical pros-and-cons approach often fails to successfully answer this most personal question. Interspersed throughout this book are twenty diverse stories of women who made conscious choices, half deciding yes and half deciding no. Their stories -- and sometimes advice -- create a valuable community that provides support to every reader, breaking the isolation they may feel."--Book cover.

"I don't want to be alone anymore" is a collection of poetry written while going through a very rough time in my life. This book includes poems dealing with past relationships, new relationships, mental health struggles, and ultimately, figuring out who I really am. Writing helped me feel not so alone anymore. I found comfort in it. I hope that you might find comfort in knowing you aren't alone either.

Being different can be hard. Being a small boy and being different is very hard! Donny is a little boy in a wheelchair which makes him different from other children. When Donny's world is turned upside down, see how he and his family handle his differences; his ability to be both seen and not seen. You will also know why Donny says "I Don't Want To Be Invisible Anymore."

Do you feel all the feels—all the time? Are you fed up with the mainstream spiritual "love and light" scene that calls for constant positivity, even in the face of true loss, trauma, and pain? If so, this book is for you. *I Don't Want to Be an Empath Anymore* is a gift for the jaded empath searching for authenticity in spirituality, and spirituality in being authentic—something beyond the clichéd, positive affirmations that seem to invalidate our anger, sadness, and pain. When we feel broken—and when real damage has been done, it's not always helpful to ignore our feelings and tell ourselves that we are perfect and whole. In this refreshingly honest guide,

shamanic practitioner Ora North offers practical exercises to help you navigate your intuition and empathic sensitivities, create much-needed boundaries, and build confidence. You'll also learn to balance your emotions and energy, and harness the strength of your shadow side to embrace your whole self and live your best life. Like the Japanese craft known as Kintsugi—the art of repairing broken pottery using a lacquer dusted with powdered gold—the process of acknowledging and repairing our fragmented selves can make us even more beautiful than before, cracks and all. In this book, you won't find platitudes or attempts to whitewash your experiences. What you will find are real, practical tools and guidance to help you make the most of your unique abilities.

Sellin writes with a rough poetic beauty born of great pain and continual struggle, reaching out from his "island of sorrow" to embrace the "people of the overworld." *I Don't Want to Be Inside Me Anymore* is a firsthand account of rare eloquence and immediacy, a remarkable story of raw human courage and - ultimately - indomitable hope.

A provocative tale that mirrors today's headlines, this page-turning first novel is a gripping, intelligent and totally satisfying account of one woman's brave struggle to triumph over the pain of a vicious rape, her battle to rebuild her life and the ultimate, shocking confrontation with the man who nearly

From Dr. Amy Blackstone, childfree woman, co-creator of the blog we're {not} having a baby, and

nationally recognized expert on the childfree choice, comes a definitive investigation into the history and current growing movement of adults choosing to forgo parenthood: what it means for our society, economy, environment, perceived gender roles, and legacies, and how understanding and supporting all types of families can lead to positive outcomes for parents, non-parents, and children alike. As a childfree woman, Dr. Amy Blackstone is no stranger to a wide range of negative responses when she informs people she doesn't have--nor does she want--kids: confused looks, patronizing quips, thinly veiled pity, even outright scorn and condemnation. But she is not alone in opting out when it comes to children. More people than ever are choosing to forgo parenthood, and openly discussing a choice that's still often perceived as taboo. Yet this choice, and its effects personally and culturally, are still often misunderstood. Amy Blackstone, a professor of sociology, has been studying the childfree choice since 2008, a choice she and her husband had already confidently and happily made. Using her own and others' research as well as her personal experience, Blackstone delves into the childfree movement from its conception to today, exploring gender, race, sexual orientation, politics, environmentalism, and feminism, as she strips away the misconceptions surrounding non-parents and reveals the still radical notion that support of the
